- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.

It shall be calculated for the full period for the completion of the Contract including any extension thereof by the formula:
		V = (Nw - Nn) + (Rw - Rn)/X

		V = Extension of time in calendar days in respect of the calendar month under consideration Nw = Actual number of days during the calendar month on which a rainfall of Ymm or more has been recorded. Nn = Average number of days, as derived from existing rainfall records provided in the table below on which a rainfall of Ymm or more has been recorded for the calendar month Rn = Average rainfall in mm for the calendar month, as derived from the rainfall records supplied in the table below. Rw = Actual rainfall in mm for the calendar month under consideration. X = 10 Y = 10
		If V is negative and its absolute value exceeds Nn, then V shall be taken as equal to minus Nn.
		The total extension of time shall be the algebraic sum of the monthly totals for the period of construction, but if the grand total is negative the time for completion shall not be reduced due to abnormal low rainfall. Extensions of time for part of a month shall be calculated using pro rata values of Nn and Rn.
		The factor $(Nw - Nn)$ shall be considered to represent a fair allowance for variations from the average number of days during which rainfall exceeds <i>Ymm</i> .
		The factor $Rw - Rn/x$ shall be considered to represent a fair

		allowance for variations from the average in the number of days during which rainfall had not exceeded Ymm, but wet conditions had prevented or had disrupted work. The formula does not take into account flood damage which could cause further or concurrent delays, and which should be treated separately as far as extension of time is concerned.
		Accurate rain gauging shall be taken at a suitable point on Site. This information shall be regarded as the actual rainfall for this contract. The readings will be done by the Engineer and the Contractor may attend these readings and shall at his own expense take all necessary precautions to ensure that the rain gauge cannot be interfered with by unauthorized persons.
