LIST OF USED ACRONYMS

ABET- Adult Basic Education & Training
AG- Auditor General
B2B- Back to Basics
BBBEE- Broad Based Black Economic Empowerment
BTO- Lepelle-Nkumpi Budget and Treasury Office
CAPEX- Capital Expenditure
CBD- Central Business District
CDM- Capricorn District Municipality
CDW- Community Development Worker
CoGHSTA- Cooperative Governance, Human Settlement, and Traditional Affairs Department
COMM- Lepelle-Nkumpi Community Services Department
COP- Conference of Parties
CORP- Lepelle- Nkumpi Corporate Support Services Department
COVID 19- Corona Virus 2019
CS 2007- Community Survey 2007
CWP- Community Work Programme
DDM- District Development Model (DDP District Development Plan)
DFA- Development Facilitation Act
DEPT- Department
DGP- District Growth Points
DMR- Department of Mineral Resources
DORA- Division of Revenue Act
DRDLR- Department of Rural Development and Land Reform
EAP- Economically Active Population
ECD- Early Childhood Development
EEA- Employment Equity Act
EEP- Employment Equity Plan
EIA- Environmental Impact Assessment
EMF- Environmental Management Framework
EMI- Environmental Management Inspectors
EMP- Environmental Management Plan
EPWP- Expanded Public Works Program
ES- Equitable Share
EXCO- Executive Committee of Council
ESKOM- Electricity Supply Commission
FBS- Free Basic Services (**FBE-** Electricity/ **FBW-** Water)
FET- Further Education and Training
TVET Colleges- Technical and Vocational Education and Training Colleges
GAMAP- Generally Acceptable Municipal Accounting Procedures
GDP- Gross Domestic Product
GDS- Growth and Development Strategy
GRAP- Generally Recognised Accounting Procedures
GIS- Geographic Information System
HA- Hectares
HIV/AIDS- Human Immune Virus/Acquired Immune Deficiency Syndrome
ICT- Information Communication Technology
IDP- Integrated Development Plan
IGR- Intergovernmental Relations
INEF- Integrated National Electrification Fund
INFR- Lepelle- Nkumpi Infrastructure Development Department
ITP- Integrated Transport Plan
IWMP- Integrated Waste Management Plan
LDP- Limpopo Development Plan
LED- Local Economic Development
LIEDA- Limpopo Economic Development Agency
LEGDP- Limpopo Employment Growth and Development Plan
LLF- Local Labour Forum
LNM- Lepelle-Nkumpi Municipality
LSP- Local Service Points
LUMS- Land Use Management Scheme
LDRT- Limpopo Department of Roads and Transport
LDA- Limpopo Department of Agriculture
LIC- Labour Intensive Construction Methods

MDG-Millennium Development Goals
MEC-Member of Executive Council of Provincial Legislature
MFMA-Municipal Finance Management Act
MIG-Municipal Infrastructure Grant
MISA- M
MMO-Lepelle- Nkumpi Municipal Manager's Office
MPAC- Municipal Public Accounts Committee
MSA-Municipal Systems Act
mSCOA- Municipal Standard Chart of Accounts
MSIG-Municipal Support Institutional Grant
MTREF- Medium Term Revenue and Expenditure Framework
MTSF- Medium Term Strategic Framework
NDP- National Development Plan
NDPW- National Department of Public Works
NGO- Non- Governmental Organisation
NGP- New Growth Path
NEMA-National Environmental Management Act
NDPW- National Department of Public Works
NSDP-National Spatial Development Perspective
OHS-Occupational Health and Safety
OPEX- Operational Expenditure
OR Tambo-Oliver Reginald Tambo
PCP- Population Concentration Points
PGP- Provincial Growth Points
PHC-Primary Health Care
PLED-Lepelle-Nkumpi Planning and Local Economic Development Department

UGEP- Utilisable Grounwater Exploitation Potential
UIA- Upgrading Intervention Areas
UNILIM- University of Limpopo
VIP- Ventilated and Improved Pit Latrine
VSA- Village Service Areas
WSDP- Workplace Skills Development Plan
WWTW- Waste Water Treatment Works/ **WWTF**- Waste Water Treatment Facilities
ZB-Zebediela

B. P.

FOREWORD BY THE HONOURABLE MAYOR: HER WORSHIP CLLR. MERRIAM MOLALA

Our planning for 2020/21 took place at a time the Nation was under severe attack of COVID-19 pandemic which has limited a lot of activities including our interaction with our stakeholders and communities in preparing our IDP/Budget. The effects of this disease on our usual consultation activities and service delivery programme has been immense. Most of our projects and programmes from 2019/20 financial year had stalled while revenue collection has also suffered because of the National Lockdown. We still believe that the lockdown as declared by the President was necessary to preserve lives and save humanity. The 2020/21 IDP/Budget will also serve as catch-up plan for lost days so that we meet our targets for the previous year and continue with implementation of our plans for new year.

The IDP serves as a tool which we use to prioritise our projects and allocate required budget and resources. It also serves as a performance management tool and a basis for accountability chain for all role players; from administration to communities and to our government departments, audit committee and auditor general. We will as such use the opportunity of this planning cycle to consolidate our last years' work as we enter the last months of our five years council term. We have tried our best in addressing the needs of our citizens during this tenure and we are also thankful of what has thus far been received from other spheres of government and private sector to develop our communities. But more still has to be done as we push back the frontiers of triple challenges of poverty, inequality and unemployment. The progressive "pro-poor" agenda we adopted when we came into office in 2016 would be skewed if we did not continue with our noble gesture of a social package for the most vulnerable and indigent members of society. This we do because we believe in a better life for all.

We believe that the District Development Model launched by the President Ramaphosa in 2019 will increase our pace of service delivery and improve integration of such programmes to our communities. The Capricorn District Chapter was launched by Premier Mathabatha and already a District Plan was developed to allow all of us to move together at once into the new dispensation of development planning where the District is the theatre of planning for everyone. This IDP is therefore a part of that District Development Plan. Through this process, we are convinced that more investments will come to our municipality to unlock opportunities in mining, manufacturing, agriculture, and tourism; and ICT and property development. This will grow our local economy and create much needed jobs for our people.

I would like to thank all our stakeholders who participated in the compilation of this IDP/Budget by giving us inputs and feedback on the draft document. Our words of appreciation also go to our teams internally; staff, management, all our councillors and political parties- who played a central role in crafting the 2020/21 Draft IDP and Budget. 'Motho ke Motho ka Batho'

A handwritten signature in black ink, appearing to be 'M.M. Molala', written over a horizontal line.

CLLR. M.M. MOLALA
MAYOR

Handwritten initials 'BP' and a signature 'LP' in the bottom right corner of the page.

EXECUTIVE SUMMARY BY ACTING MUNICIPAL MANAGER: MR. L.A. GAFANE

The 2020/21 IDP/Budget has been compiled with the aim of fast tracking the speed of service delivery and focusing available limited resources to areas where there is economic impact and a potential for cost recovery, this without neglecting the objective of providing access to basic services by all households.

Analysis Chapter of the IDP, which informed Strategy and Project Phases, was updated using information from Stats SA, municipality's approved sector plans and previous ward consultation sessions reports. The crafting of the document itself was to a large extent responsive to legislative framework, National and Provincial imperatives, issues raised by Auditor General's report and COGHSTA and Provincial Treasury's 2019/20 and 2020/21 Draft IDP and Budget assessments, among others.

Municipality remains on a path towards financial recovery after unfortunate shock of financial loss experienced in 2019. The plans contained in this IDP/Budget are to assist in the recovery process and are realistic and attainable. Austerity measures remain in force while revenue enhancement and costs containment are at the core of this planning period. 'Nice to have' budget items have been reduced or removed in line with costs containment while new revenue streams have been identified to increase revenue base. Within the same spirit, this 2020/21 IDP/Budget is an instrument to move the municipality towards insourcing and minimization of use of consultants and service providers in general to provide services on our behalf.

Allocation of resources was been informed by the approved SDF principles, particularly in relation to the support of nodal points. But this is in addition to consideration of levels of backlogs and deprivation in all our wards. We are convinced that the implementation of SDF coupled with high impact infrastructure investment programmes will grow the local economy and attract new investments and retain existing ones. Such investments together with promotion of tourism activities, manufacturing, agriculture and mining, as key sectors, will create more wealth and quality jobs.

Municipality recognizes that access to water and sanitation and roads are top development priorities. The efforts and budget allocations that are being made by CDM as water service authority must be commended as they will go a long way in alleviating the difficulties that our communities go through in their daily struggles to get water. There are also plans by Road Agency Limpopo to surface some of our strategic access roads and we hope that this will promote economic activities and regional connectivity. We also observe the increasing interest by private sector to invest in our local economy and we see this as an opportunity for our SMME's, primary sector levers of our economy and beneficiation. We hope to see even more improved integration as local government sphere embraces new approach to service delivery through implementation of District Development Model.

Due to COVID-19 pandemic, stakeholders' consultation took place through electronic platforms in line with COGTA Guidelines on Adoption of IDP's. The National lockdown also made it impossible for the municipality to abide by the time table of MFMA and MSA and our approved process plan. The 2020/21 IDP/Budget together with budget related policies were publicized for twenty one days for public inputs and comments before adoption by council. Internally, the document is a product of multi teams' involvement. IDP/Budget steering committee, management, departments, Exco Lekgotla, ward councilors and labour representatives were part of the process to prepare the plans.

ACTING MUNICIPAL MANAGER
MR. L.A. GAFANE

VISION, MISSION AND VALUES

VISION:

"BE FINANCIALLY VIABLE MUNICIPALITY, GEARED TOWARDS THE IMPROVEMENT OF QUALITY OF LIFE OF THE PEOPLE, BY PROVIDING SUSTAINABLE SERVICES".

MISSION:

"TO EFFECTIVELY AND EFFICIENTLY PROVIDE QUALITY BASIC SERVICES AND THUS MAKE A SIGNIFICANT CONTRIBUTION TO SOCIAL AND ECONOMIC DEVELOPMENT OF THE COMMUNITY"

CORE VALUES:

HONESTY,
TRANSPARENCY,
UBUNTU,
CONSULTATION,
VALUE FOR TIME AND MONEY,
ACCESS TO INFORMATION AND
ACCESS TO SERVICES

CHAPTER 1: THE PLANNING FRAMEWORK

1.1. THE CONSTITUTION

According to Section 152 and 153 of the Constitution of the Republic of South Africa, Local Government is responsible for development and municipal planning. Its duties, according to the Constitution are;

- a) To ensure sustainable provision of services;
- b) To promote social and economic development;
- c) To promote a safe and healthy environment;
- d) To give priority to the basic needs of communities; and
- e) To encourage involvement of communities.

1.2. THE MUNICIPAL SYSTEMS ACT, 2000

The following sections are of specific importance:

Section 25(1): The municipal council must, within a prescribed period after the start of its elected term, adopt a single, inclusive and strategic plan for the development of the municipality ...

Section 26: An integrated development plan must reflect:

- (a) The municipal council's vision
- (b) An assessment of the existing level of development in the municipality,
- (c) The council's development priorities and objectives for its elected term,
- (d) The council's development strategies
- (e) A spatial development framework
- (f) The council's operational strategies;
- (g) A financial plan, which must include a budget projection for at least the next three years; and
- (h) The key performance indicators and performance targets

The IDP must also be compatible with National and Provincial development plans and planning requirements.

1.3. THE MUNICIPAL FINANCE MANAGEMENT ACT, No. 56, 2003

The Municipal Finance Management Act, 2003 (Act No. 56 of 2003) makes mandatory provisions that relate to financial management of municipalities. The objective of the Act is to secure sound and sustainable management of the fiscal and financial affairs of municipalities and municipal entities by establishing norms and standards for budgetary and financial planning processes and the coordination of those processes with those of the other spheres of government, amongst others.

1.4. SPATIAL PLANNING AND LAND USE MANAGEMENT ACT (SPLUMA)

The Spatial Planning and Land Use Management Act, (SPLUMA), 2013 (Act 16 of 2013) came into operation on 1 July 2015. The Act also repealed some other planning laws which are in conflict with SPLUMA, such as the Development Facilitation Act, 1995, but not those Ordinances of which the competency lies with provincial governments, for example Ordinance 15 of 1986.

Unlike previous planning laws, this Act provides a framework for spatial planning and land use management on all spheres of government. It provides for the two pillars of planning, namely spatial forward planning and land use management or land development administration.

As point of departure, SPLUMA also provide general development principles applicable to spatial planning and land use management as contained in Chapter 2, Section 7 of the Act.

1.5. THE WHITE PAPER ON DEVELOPMENTAL LOCAL GOVERNMENT

The White Paper on Developmental Local Government puts forward a vision of a developmental local government which centred on working with local communities to find sustainable ways to meet their basic needs and improve the quality of their lives. The following are the characteristics of a developmental local government;

- Municipal powers and functions are exercised in a manner which maximises their impact on social and economic growth
- Playing an integrating and coordinating role to ensure alignment between all government spheres and private sector investment within the municipal area
- Democratising development
- Building social capital by providing community leadership and vision and seeking to empower marginalised and excluded groups within the community

1.6. THE MUNICIPAL STRUCTURES ACT No. 117, 1998

The Municipal Structures Act, 1998 (Act No. 117, 1998) provides for the establishment of municipalities in accordance with the requirements relating to categories and types of municipality. The Act also provides division of functions and powers between district and local municipalities upon which planning shall be premised.

1.7. MUNICIPAL PROPERTY RATES ACT

The Municipal Property Rates Act of 2004 aims:

- to regulate the power of a municipality to impose rates on property;
- to exclude certain properties from rating in the national interest;
- to make provision for municipalities to implement a transparent and fair system of exemptions, reductions and rebates through their rating policies
- to make provision for an objections and appeals process.

1.8. THE LOCAL GOVERNMENT: MUNICIPAL PLANNING AND PERFORMANCE MANAGEMENT REGULATION

Municipal Planning and Performance Management Regulation of 2001 outlines the requirements for an IDP. Regulation 2(1) states that a municipality's Integrated Development Plan must at least identify:

(a) Any investments initiatives in the municipality;

(b) The institutional framework that includes the organogram;

(c) Any development initiatives in the municipality, physical, social economic and institutional development;

(d) All known projects, plans and programs to be implemented within the municipal area by any organ of state; and

(e) The key performance indicators set by the Municipality.

1.9. NATIONAL ENVIRONMENTAL MANAGEMENT ACT (Act 107 of 1998).

Section 2 of NEMA contains National Environmental Management Principles, which apply to the 'actions of all organs of state that may significantly affect the environment'. These principles must guide decisions concerning the protection of the environment.

1.10. NATIONAL ENVIRONMENTAL MANAGEMENT ACT: AIR QUALITY (Act 39 of 2004)

According to the Act, the national and provincial environmental departments and local authorities are separately and jointly responsible for the implementation and enforcement of various aspects of the Air Quality Act. Each of these spheres of government is obliged to co-operate with each other and co-ordinate their activities through mechanisms provided for in the National Environmental Management Act in order to protect the air quality.

1.11. NATIONAL ENVIRONMENTAL MANAGEMENT ACT: WASTE ACT (Act 59 of 2008)

In fulfilling the rights contained in section 24 of the Constitution, the State, through the organs of state responsible for implementing this Act, must put in place uniform measures that seek to reduce the amount of waste that is generated. Moreover, where waste is generated, to ensure that waste is re-used, recycled and recovered in an environmentally sound manner before being safely treated and disposed of.

1.12. INTERGOVERNMENTAL RELATIONS ACT No. 13 of 2005

The IGR Act creates a framework for inter-governmental cooperation as required by the Constitution in its definition of 'cooperative governance'. Limpopo Government has opted to use District Municipalities as theatres for coordination of IDP

B.P.

planning among government spheres and their parastatals. Here municipalities are supported in the planning and its alignment while Provincial Departments are also being opportuned to know what municipalities are raising as development priorities that are sector specific for their own planning and budgeting.

1.13. NATIONAL SPATIAL DEVELOPMENT PERSPECTIVE

The National Spatial Development Perspective (NSDP) is 'A clearly articulated set of spatial priorities and criteria and is one of the mechanisms by which to guide government choices about investment spending.' Such a set of spatial priorities introduce consistency and rationality in planning and further provides a focal point and a strategic basis for focusing government action, weighing up trade-offs, and linking the strategies and plans of the three spheres and agencies of government. The NSDP has as its first principle that economic growth is a pre-requisite for the achievement of other policy/development objectives.

1.14. NATIONAL DEVELOPMENT PLAN

The National Development Plan, (NDP) 2030 provides a new scope of focus for planning authorities which embrace a number of other policies of government since 1994. The plan proposes a new focus for transformation of South Africa.

The objectives of the plan are the elimination of poverty and the reduction of inequality through

- Uniting South Africans of all races and classes around a common programme to eliminate poverty and reduce inequality
- Citizens to be active in their own development, in strengthening democracy and in holding their government accountable
- Raising economic growth, promote exports and make the economy more labour absorbing
- Focusing on key capabilities of both people and the country
- Capabilities include skills, infrastructure, social security, strong institutions and partnerships both within the country and with key international partners
- Building a capable and developmental state
- Strong leadership throughout society to work together to solve our problems

This NDP sets jobs, education and a capable and developmental state as the highest priorities.

Key targets of the plan

- Employment: 13 million in 2010 to 24 million in 2030.
- Raise income from R50 000 a person to R120 000.
- Increase the quality of education so that all children have at least two years of preschool education and all children in grade 6 can read, write and count.
- Establish a competitive base of infrastructure, human resources and regulatory frameworks.
- Reduce poverty and inequality by raising employment, bolstering productivity and incomes, and broadening the social wage.
- Ensure that professional and managerial posts better reflect the country's demography
- Broaden ownership to historically disadvantaged groups.
- Provide quality health care while promoting health and well-being.
- Establish effective, affordable public transport.
- Produce sufficient energy at competitive prices, ensuring access for the poor, while reducing CO₂ per unit of power.
- Ensure that all people have access to clean running water in their homes.
- Make high-speed broadband internet available to all at competitive prices.
- Realise a food trade surplus, with one-third produced by small-scale farmers or households.
- Entrench a social security system covering all working people, with social protection for the poor and other groups in need, such as children and disabled persons.
- Realise a developmental, capable and ethical state that treats citizens with dignity.
- Ensure that all people live safely, with an independent and fair criminal justice system.
- Broaden social cohesion and unity by making use of the talents and resources of all South Africans, while taking firm steps to redress the inequities of the past.
- Play a leading role in continental development, economic integration and human rights.

1.15. NEW GROWTH PATH

The New Growth Path is a framework which seeks to:

- Guide government on how to achieve job creation goal
- Has identified areas where employment creation is possible, both with economic sectors and cross cutting activities.
- The NGP analyses the policies and institutional developments required to take advantage of employment friendly economic policy packages and opportunities.

The New Growth Path aims to:

- Address high unemployment and inequality
- Identify key job drivers
- Identify what is needed to achieve jobs

- Identify key steps in facilitating broader growth as a means of job creation
- Depart from consumption to production driven economy

Indicators of success for the New Growth Path are

- Jobs – Number and quality of jobs created
- Growth – The rate, labour intensity and composition of economic growth
- Equity – Lower income inequality and poverty
- Environmental Outcomes

Strategies of the NGP

- To deepen the domestic and regional market by growing employment, increasing incomes and undertaking other measures to improve equity and income distribution, and
- To widen the market for South African goods and services through a stronger focus on exports to the region and other rapidly growing economies.

1.16. DISASTER MANAGEMENT ACT

Disaster Management Act 57 of 2002 provides for an integrated and co-ordinated disaster management policy that focuses on preventing or reducing the risk of disasters, mitigating the severity of disasters, emergency preparedness, rapid and effective response to disasters and post-disaster recovery. The Act provides for each municipality to prepare a disaster management plan and to further coordinate its implementation with other role players.

However, the District municipality is primarily responsible for the coordination and management of local disasters as and when they occur. As such, the District must develop a Disaster Management Framework for all of its local areas detailing how it will deal with coordination of its work. Even so, disaster management still remains a cross-cutting matter for all spheres, extending from National and Provincial government.

1.17. LIMPOPO DEVELOPMENT PLAN (LDP), 2015-2019

The Limpopo Development Plan was developed on the foundations of the Limpopo Economic Growth and Development Plan (LEGDP) 2009-2014 and the Limpopo Provincial Growth and Development Strategy (PGDS) 2004-2008. The two strategies were reviewed in order to maintain positive momentum development and to overcome shortcomings that were revealed during implementation cycles.

The Limpopo Development Plan takes cognisance and is fully aligned to the National Development Plan, which seeks to create a South African economy that is more inclusive more dynamic and in which the fruits of the growth are shared more equitably. The first five-year action plan to achieve NDP priorities is captured in the Medium Term Strategic Framework. The LDP is currently undergoing review by Office of the Premier.

The Limpopo Development Plan, as discussed here above is set to achieve the following objectives:

- Outline the contribution from the Limpopo Province to the National MTSF for this period,
- Provide a framework for the strategic plans of each provincial government department, as well as the IDP's and sector plans of district and local municipalities,
- Create a structure for the constructive participation of private sector business and organised labour towards the achievement of provincial growth and development objectives, and
- Encourage citizens to be active in promoting higher standards of living in their communities

The vision of the Province remains to fulfil the potential for prosperity in a socially cohesive, sustainable and peaceful manner, the vision statement précisés the expectation that by 2030 Limpopo public service will excel in service provision, infrastructure provision and economic opportunities provision in a sustainable manner.

Limpopo thus has a provision has mission to accelerate participatory leadership aimed at promoting excellence and an entrepreneurial spirit, improved service delivery, facilitation of decent job creation and systematic poverty reduction.

1.26 CAPRICORN DISTRICT MUNICIPALITY GROWTH AND DEVELOPMENT STRATEGY

The CDM GDS was developed on the basis of guiding the long-term development of the district and recognises economic growth as an imperative, but also recognises that socio-economic development is required to foster inclusive growth.

The CDM GDS identified five key levers essential for sustainable growth:

- Spatial, land and environmental development
- Infrastructure development

B.P.
[Signature] *IA*

- Education and skills development
- Economic growth and development
- Good governance

The CDM GDS also identified several Key Strategic Priorities to counter development challenges faced by the district. These include, amongst other Key Strategic Priorities:

- Obtaining access to land for development
- Protecting, managing and enhancing natural/ environmental assets
- Sustainable resource management and use
- Promotion of economic and social infrastructure
- Management and maintenance of infrastructure
- Upgrading the existing road network to improve accessibility and linkages between core areas and rural areas
- Promotion of Integrated Human Settlements
- Good governance and partnership
- Financial Viability and Municipal Transformation and Organisational Development

1.26. MUNICIPAL GROWTH AND DEVELOPMENT STRATEGY

Municipality compiled its Growth and Development Plan in 2019. The GDS focuses on addressing the vital needs of the Municipality, and serve as the core strategy to enable Lepelle-Nkumpi to improve the following Key Performance Areas (KPAs) that are guided by the mission as well as Provincial and National focus areas:

- Basic Services and Infrastructure Development
- Community Empowerment
- Economic Development
- Institutional Transformation

The objectives of the GDS are the following;

- Lepelle-Nkumpi sustainably provides all basic bulk services to its constituents with no backlogs, and maintains all infrastructure pertaining to services provided.
- Access to all bulk services is at 100%
- Lepelle-Nkumpi has an economy that has jobs readily available for the community. Several facilities have been constructed and maintained for skills development and specified training for the community. Resources are distributed fairly, providing alleviation of poverty.
- Public transport is accessible for the whole Municipality, and the associated infrastructure is well-maintained. Public transport is readily available throughout the Municipality.
- Bylaws are enforced, along with the use of the electronic systems developed.
- Education and health facilities provide high quality services to the community. The facilities are well maintained and make use of highly skilled personnel with the relevant training.
- Lepelle-Nkumpi has spatially aligned its plans with the plans stemming from other spheres of government to ensure spatial integration and proper land use.
- Lepelle-Nkumpi has conserved areas and is actively involved in the protection of ecosystems in the Municipality and uses eco-friendly resources

1.18. NATIONAL COMPREHENSIVE RURAL DEVELOPMENT PROGRAMME

CRDP aims to be an effective response to poverty alleviation and food insecurity by maximising the use and management of natural resources to create "vibrant, equitable and sustainable rural communities.

The vision of the CRDP is to be achieved through a three-pronged strategy based on:

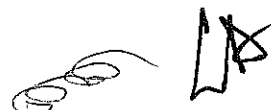

- Co-ordinated and integrated broad-based Agrarian Transformation;
- Strategically increased rural development through infrastructure investment; and
- An improved land reform programme."

The objectives of each of the three strategic thrusts thought to be applicable to the formulation of the SDF for Limpopo are as follows:

Agrarian Transformation:

- Facilitate the establishment of rural and agro-industries, co-operatives, cultural initiatives and vibrant local markets;
- Increase production and sustainable use of natural resources by promoting farming and related value chain development (exploring all possible species of food and economic activity).

B-f

Rural Development:

- Access to community and social infrastructure, especially well-resourced clinics;
- Focus on the development of new and the rehabilitation of existing infrastructure;
- Improve and develop infrastructure conducive to economic development, for example distribution and transportation infrastructure, agricultural infrastructure, water and electricity infrastructure, market and storage infrastructure, retail infrastructure and telecommunications infrastructure. Improve and develop infrastructure conducive to social development, for instance sanitation, infrastructure, health infrastructure, sports and recreation infrastructure and education infrastructure (especially Adult Basic Education and Training (ABET) centres).

1.19. LIMPOPO PROVINCIAL SDF

Development Principles - strategies

The Limpopo SDF (LSDF) sets out **Development Principles** in order to arrive at the envisaged spatial framework. These principles are mentioned and their importance for Lepelle-Nkumpi briefly discussed hereinafter, namely:

Development Principle 1: Define and protect a Provincial Regional Open Space System which ensures that ecosystems are sustained and natural resources are utilised efficiently. Lepelle-Nkumpi has large areas affected by the proposed open space system including protected areas (nature reserves) and critical biodiversity areas.

Development Principle 2: Facilitate efficient spatial targeting through the identification of a range of provincial, district, municipal and rural nodal points to serve as focal points for investment and service delivery

The LSDF includes the **levels of growth points in terms of the nodal hierarchy of settlements in the Province**. In the Lepelle-Nkumpi, Lebowakgomo District Growth Point; and Mogoto/Moletlane Rural Node/Service Point were recognised

Development Principle 3: LSDF also supports the national government's "road to rail" imperative, advocating utilisation of rail freight. In respect of Lepelle-Nkumpi, the following routes play an important role, namely:

- R37: Provincial Corridor between Polokwane and Burgersfort;
- R518: Main Road (Lebowakgomo – Mokopane)
- R519: Main Road (Polokwane – Zebeliela – Roedtan)
- R579: Main Road (Lebowakgomo – Jane Furse)

Development Principle 4: Direct engineering infrastructure investment towards the priority nodal points where the majority of economic activity and human settlement will establish.

Development Principle 5: Prioritise consolidation of community infrastructure at the identified nodal points and in line with the concept of multi-purpose Thusong Centres/ Rural Development Centres in Rural Nodes

Development Principle 6: Create conditions conducive to development in multi-functional business areas and implement Urban Revitalisation Strategies in such areas where required

Principle 7: Optimise the utilisation of agricultural potential of Limpopo Province to provide sustainable livelihoods to marginalised communities in rural areas in partnership with commercial farms

Development Principle 8: Utilise the provincial environmental resources as attractions to promote sustainable tourism development (and conservation) in all parts of the Province

Development Principle 9: Promote mining activity and associated job creation potential in an environmentally sustainable manner. Although Lepelle-Nkumpi has none, it is located along the Dilokong corridor/Tubatse in respect of platinum mineral resources.

Development Principle 10: Address industrial sectoral diversification by way of area specific investment in high value production and value added technologies and industries

Development Principle 11: Sustainable Human Settlement in urban and rural Limpopo Province

1.20. MEDIUM TERM STRATEGIC FRAMEWORK

The Medium Terms Strategic Framework for 2015-19 reflects the action plan for the NDP and the New Growth Path for the first five-year implementation period. Development objectives are classified into two broad development themes and fourteen priority outcomes as indicated below, each with its own targets and indicators. The two broad development themes are Economic Transformation (including infrastructure and workplace conflict reduction), and Improving Service Delivery (access to and quality of services and local government capacity)

Outcome 1: Improved quality of basic services

Outcome 2: A long and healthy life for all South Africans

Outcome 3: All people in South Africa are and feel safe

Outcome 4: Decent employment through inclusive economic growth

Outcome 5: Skilled and capable workforce to support an inclusive growth path

Outcome 6: An efficient, competitive and responsive economic infrastructure network

Outcome 7: Vibrant equitable and sustainable rural communities with food security for all

Outcome 8: Sustainable human settlements and improved quality of household life

Outcome 9: A responsive, accountable and efficient local government system

Outcome 10: Environmental assets and natural resources are protected and continually enhanced
Outcome 11: Create a better South Africa and contribute to a better Africa and World
Outcome 12: An efficient and development oriented public service and an empowered citizenship
Outcome 13: An inclusive and responsive Social Protection System, and
Outcome 14: Nation building

1.21. EXPANDED PUBLIC WORKS PROGRAMME

The EPWP is a programme that seeks to ensure that public bodies like Municipalities formulate plans and budget that will draw significant numbers of the unemployed into productive work while provide them with training. Lepelle-Nkumpi is using the opportunity of labour intensive construction [LIC] method to carry out infrastructure, environment and Community Work's Programme under LED projects. The municipality has already implemented a three-year project for contractor learnership under NDPW-Vuk'uphille.

1.22. PRESIDENTIAL OUTCOMES

The Cabinet Lekgotla has at its sitting on the 20-22 January 2010 adopted Twelve Presidential outcomes in order to accelerate service delivery. The President signed performance agreements with all 34 Cabinet Ministers based on these twelve outcomes with outputs. Of these outcomes, municipalities are mostly affected by the following two:

Outcom 9: A responsive, Accountable, Effective and Efficient Local Government System and;

Outcome 8: Sustainable Human Settlements. All departments, agencies and spheres of government involved in the direct delivery process required to achieve an output, should be party to the agreement

1.23. STATE OF NATION ADDRESS

The 2020 SONA was about inclusive growth whereby critical areas of growth were to be identified and pursued. The President emphasized that the government is committed to the objectives of the National Development Plan to eliminate poverty and reduce inequality by 2030. The President also emphasised that South Africa needs to transit to a low carbon, climate resilient and sustainable society.

The following is a summary of some of the highlights in President's speech;

- Three to twelve months-period to initiate the procurement of emergency power from projects that can deliver electricity into the grid. Government will negotiate supplementary power purchase from independent solar and wind power producers. Also to fast track completion of window 4 of renewable energy IPP's and open window 5.
- ESKOM's operating activities to be divisionalised into generation, transmission and distribution.
- Water user licences will now be processed within ninety days than five years it previously was the case.
- R1.6 billion reprioritized for current financial year to support an emergency action plan.
- Government will invest more than R700 billion towards public infrastructure projects
- 50 kilometres of experimental road stretches to be piloted as part of an alternative rural roads programme.
- 1.2 million young people to entre labour market each year
- Six priority actions of the Presidential Youth Employment Intervention for next five years to reduce unemployment. Three million young people to benefit from prototype PYE intervention sites in five provinces. One percent of the budget to deal with youth unemployment. One thousand young entrepreneurs to receive grant funding and business support from NYDA. 100 000 young entrepreneurs to access business skills training, funding and market facilitation
- R10 billion to be allocated towards women-empowered businesses over the next five years
- R1.2 trillion remains target of investment for next five years. R664 billion investment commitments raised already in the first two years since 2019 Investment Conference.
- Government has release 44 000 hectares of state land for settlement of land restitution. 700 000 hectares is to be released in 2020 for agricultural production.
- Forty municipalities reported to be receiving support from government. 23 Districts have been added to the DDM pilot phase which brings together different spheres of government and its entities, business and community groups.
- To fight corruption and state capture and strengthen the rule of law.

The country is facing a stark reality. Economy has not grown at any meaningful rate over the past decade and even as jobs are being created, the rate of unemployment is deepening. SOE's are in distress and public finances under severe pressure. Persistent shortage of energy which disrupt businesses and people's lives.

The President Cyril Ramaphosa recognised some of the success that government attained which include the following; that

- More young people have access to education as 720 000 received state funding for post matric education
- 2.4. million children are in ECD and preschool
- 81 percent passed matric with increasing proportion coming from rural and township schools
- Five million of 6.8 million people who know their HIV status have been initiated on antiretroviral treatment

1.24. STATE OF THE PROVINCE ADDRESS

Premier Stan Mathabatha delivered his SOPA on the 27th February 2020. The Premier acknowledged low economic growth which impacted negatively on the province's development objectives. The Nation of South Africa is faced with the reality of an unfavourable economic outlook which impacts negatively on our developmental objectives. Provincial Government noted marginal improvement with regard to its economic growth. Statistics show that its economy has been growing at an average rate of 1% in the recent past.

The Province is implementing some major catalytic projects, which are aimed at stimulating economic growth and job creation. These projects include the Musina-Makhado SEZ, the proposed Tubatse SEZ, the revitalisation of the Industrial Parks, agricultural and several mining initiatives. The Industrial Parks have created a total of 6 256 jobs. As a rural Province, with abundance of arable land, agriculture remains one of our economic competitive advantages.

Mining and ancillary services dominate the provincial economy at 25% contribution to the GDP. Despite mining being a dominant sector in the provincial economy, employment in this sector has decreased from 106 000 to 86 000 jobs between the 4th quarter of 2018 and the 4th quarter of 2019. Some of these job losses can be attributed to the fact that some mines were placed under Care and Maintenance and over 11 000 jobs were lost as a result of that. The industry has committed a total investment of R36.3 billion in the next five years. Tourism was said to be another economic competitive advantage for the Province. In 2018, it contributed R109 billion to the national GDP and employed 1.5 million people.

MEC for CoGHSTA has since been directed to facilitate engagements with the Ministry of Water and Sanitation and all water authority entities, including municipalities to review poor service delivery mechanism with regard to the delivery of water to communities.

Impressive progress has been recorded with regard to implementation of road infrastructure projects across the Province.

The target of Limpopo Development Plan (LDP) on electricity was to connect 90% of households by 2019 and 92% of households are connected to electricity. Province had set a target to connect 50% of households to decent sanitation infrastructure by 2019 and to date over 54% of households are connected. A total of 515 schools will benefit from a process of constructing decent school sanitation infrastructure.

Regarding Fourth Industrial Revolution, Province is doing exceptionally well with regard to the task of establishing core access points in municipalities and extending new fibre networks across the Province. A Broadband Architectural network designs for the Province and construction of the Data Centre is complete.

Provincial Government launched Phase 4 of the EPWP program with a target of over 475 000 work opportunities. Thus far we 42 332 work opportunities were created through the Environment, Culture and Social sectors. In addition, the Non State Sector has contributed over 25 000 Work Opportunities.

In 2017 Grade 12 results showed an increase of 3.1%; the 2018 results improved by 3.8% and we kept the momentum going. 2019 Grade 12 results gave us another 3.8% increase. Province intends to introduce Coding and Robotic Curriculum in 110 primary schools in 2021 academic year.

The Province continues to work to increase life expectancy; reduce infant and maternal mortality, and turn the tide against HIV/AIDS and TB. Maternal mortality has been reduced from 189 per 100 000 to 106 per 100 000 deliveries.

Strong and effective municipalities are necessary pillars to support the District Development Model initiative. In this regard, The Premier thanked President Ramaphosa for having chosen Waterberg District as one of the national pilot districts for this great initiative. The Premier further launched the Capricorn District Development Model Chapter outside the three national pilot Districts.

In order to put the province on a higher trajectory of economic development in this 6th Administration, the LDP is being revised to ensure that the Province focuses on the following;

A: mining, the emphasis will be beneficiation of our mineral endowments such as coal, iron ore, platinum and silicon through our industrialisation strategy,

B: the agricultural sector (expand our agroprocessing muscles to ensure that as a Province we reap full benefits and

C: promote our tourism sector through tailored tourism offerings

1.25. BACK TO BASICS

Back to Basics was launched in September 2014 to serve as local government revitalisation plan. In its implementation, National Government will engage in more active monitoring and accountability measures. This includes unannounced municipal visits; spot checks of supply chain management processes, the implementation of recommendations of forensic reports, site visits of Municipal Infrastructure Grant funded projects, and increased interventions to assist struggling municipalities.

A 10 Point Plan of Back to Basics priority actions has been developed to guide this next phase. The plan includes the promotion of community engagement, which is critical to enable communities to provide feedback on their experience of local government

1.26. DISTRICT DEVELOPMENT MODEL- 'THE ONE PLAN' APPROACH

The model aims at maximising impact whilst addressing the 'burning' and 'stabilisation' challenges faced by local municipalities. One Plan which aligns and mutually reinforces the District Plans will:

- focus on the District/Metropolitan spaces as the appropriate scale and arena for intergovernmental planning and coordination.
- focus on the 44 Districts + 8 Metros as developmental spaces (IGR Impact Zones) that will be strategic alignment platforms for all three spheres of government.
- produce a Spatially Integrated Single Government Plan (as an Intergovernmental Compact)
- reinforce an outcomes-based IGR system where there is a systematic IGR programme and process associated
- take development to our communities as key beneficiaries and actors of what government does.

The One Plan will take the form of prioritised spatial expressions over the long term and will facilitate for:

- Managing urbanisation, growth and development;
- Determining and/or supporting local economic drivers;
- Determining and managing spatial form, land release and land development;
- Determining infrastructure investment requirements and ensure long-term infrastructure adequacy to support integrated human settlements, economic activity and provision of basic services, community and social services;
- Institutionalize long term planning whilst addressing 'burning' short term issues

1.27. POWERS AND FUNCTIONS OF LEPELLE-NKUMPI MUNICIPALITY

Specific powers and functions were assigned to the Lepelle-Nkumpi Local Municipality in terms of Notice of Establishment (Notice No. 307) that was published in Limpopo Provincial Government Notice No. 307 of 2000. The powers and functions are as follow:

Municipal Powers and Functions	Responsible Department (Organogram Alignment)
The provision and maintenance of child care facilities;	Community Services
Development of local tourism;	Planning and LED
Municipal planning;	Planning and LED
Municipal public transport;	Community Services/Planning and LED
Municipal public works;	Community Services
Storm water management systems;	Infrastructure Development
Administer trading regulations;	Planning and LED
Provision and maintenance of water and sanitation;	Infrastructure Development
Administer billboards and display of advertisement in public areas	Planning and LED
Administer cemeteries, funeral parlours and crematoria;	Community Services
Cleansing;	Community Services
Control of public nuisances;	Community Services
Control of undertaking that sell liquor to the public;	Planning and LED
Ensure the provision of facilities for the accommodation, care and burial of animals;	Community Services
Fencing and fences;	Infrastructure Development
Licensing of dogs;	Community Services
Licensing and control of undertakings that sell food to the public;	Planning and LED
Administer and maintenance of local amenities;	Community Services
Development and maintenance of local sport facilities;	Community Services

B.R.  LP

Develop and administer markets;	Planning and LED
Development and maintenance of municipal parks and recreation;	Community Services
Regulate noise pollution;	Community Services
Administer Pounds;	Community Services
Development and maintenance of public places;	Community Services
Refuse removal, refuse dumps and solid waste disposal;	Community Services
Administer street trading;	Planning and LED
Provision of municipal health services.	Community Services

The division of powers and functions between the district municipalities and local municipalities were adjusted by Limpopo MEC for Co-Operative Governance in terms of Sections 16 and 85 of the Municipal Structures Act, 1998 and published in Provincial Gazette No. 878, dated 07 March 2003. The following district municipal powers and functions were transferred to Lepelle-Nkumpi Municipality:

Municipal Powers and Functions	Responsible Department
Solid waste disposal sites;	Community Services
Municipal roads;	Infrastructure Development
Cemeteries and crematoria;	Community Services
Promotion of local tourism; and	Planning and LED
Municipal public works relating to any of the above functions or any other functions assigned to the local municipality.	Community Services

1.28. THE IDP COMPILATION PROCESS

The MSA requires that municipalities implement their respective Integrated Development Plans and monitor and evaluate performance of their "implementation". Chapter Five of the MSA deals with the compilation and review and amendment of the IDP in particular Section 25 (1) stipulates that each municipal council must... adopt a single, inclusive and strategic plan for the development of the municipality...

Section 34 (a) states that "A Municipal council must review its integrated development plan

- (i) annually in accordance with an assessment of its performance measurements in terms of Section 41; and
- (ii) to the extent that changing circumstances so demand; and

1.28.1. ROLES AND RESPONSIBILITIES OF GOVERNMENT SPHERES IN THE REVIEW PROCESS

The Municipal Systems Act, 2000 requires both district and local municipalities to do integrated development planning. The IDP process requires that all role-players are fully aware of their own, as well as other role-players' responsibilities in the execution of the IDP process.

The roles and responsibilities of the various spheres of government and other relevant stakeholders for IDP review process are as follow:

- The role of the national sphere of government is to provide a legal framework, policy guidelines and principles for sectoral, provincial and local government planning.
 - The role of the provincial sphere of government is to monitor the IDP process and to ensure that vertical/sector alignment;
 - District Municipality is also responsible to effect horizontal and vertical alignment of the IDP's of local municipalities,
- The role of the local municipalities is to compile a 5 - year IDP aligned with other spheres of government.

1.28.2. INSTITUTIONAL ARRANGEMENTS

The following institutional framework is used in the IDP Review Process;

Municipal Council (Elected Councillors) <ul style="list-style-type: none"> ▪ Considers and adopts the IDP/Budget review process plan; and ▪ Responsible for adoption of the IDP/budget ▪ Executive Committee and the Mayor ▪ Manages IDP/Budget compilation ▪ Proposes sequencing and prioritisation of projects
IDP/Budget Steering Committee (Executive Management Plus Chairpersons of Portfolio Clusters)

- Responsible for managing the process of reviewing the IDP and budget

Management Committee

- Provides relevant technical, sectoral and financial information and support for the review process; and
- Translation of broad community issues into priorities into outcome based programs and projects.

Municipal Manager/ IDP Manager

- Responsible for daily coordination of the planning process; and
- Ensures that the planning process is participatory, strategic and implementation focused.

IDP Representative Forum (Civil Society Bodies, Business, Sector Departments)

- Represents the interests of various constituencies;
- Coordination and alignment in planning and service delivery; and

Ward Committees

- Facilitates identification and conceptualisation of community needs
- Monitors Project and Programme Implementation.

1.28. 4. STAKEHOLDER CONSULTATIONS

In terms of Municipal Systems Act, the IDP review process should start ten months before the beginning of the financial year under review.

1.28.4.1 First Phase: September- October-November

The first phase of the IDP/Budget review process allows the community to identify broader development needs and priorities through ward meetings in all wards. It also allows the community, together with other stakeholders, to input on the IDP analysis phase.

During this phase deliberate efforts must be made to involve ward based organized/community structures/stakeholders/service providers, previously marginalised groups and broad community members. During this review period, the first phase will not take place and the previous year's results will be used.

1.28. 4.2 Second Phase: April- May

The phase will be characterized by comprehensive stakeholder consultations, policy review and public submissions. The public participation will be allowed for comments and inputs into the draft IDP and budget. It is therefore imperative to publish both draft IDP and budget prior to the commencement of the second phase of stakeholder consultations.

1.28. 4.3. Other Media for Public Participation

The following mechanisms will also be used for public participation:

Print Media

National and Regional Newspapers and the municipal newsletter will be used to inform the community of the activities of process plan and even progress on implementation of the IDP.

Radio Slots

The local community radio stations and regional radio stations will be utilised to make public announcements and interviews about IDP process plan activities and progress on implementation.

Municipal Website

Municipal website will also be utilized to communicate and inform the community. Copies of the IDP and Budget will be placed on the website for people and service providers to download.

1.28. 5. Schedule of Activities and Time Table

Tasks/Activities	Lead/Responsible Office	Target date
2019/20 IDP/ Budget/PMS Process Plan approval by council.	Mayor	29 July 2019
Tabling of Annual Performance Report	Mayor	31 August 2019
Submission of Annual Financial Statements to Auditor General	Municipal Manager/ Chief Financial Officer	31 August 2019
Quarterly Review of 2019/20 SDBIP Performance by Management	Mayor	October 2019
Submission of 2019/20 SDBIP Quarterly Performance Report to Council	Mayor	31 October 2019
Situational analysis is compiled through desktop and consultation with other relevant stakeholders	Mayor/ Speaker	October 2019 to 31 December 2019
Receive the audit report on Annual Financial Statement from Auditor General.	Municipal Manager/ Chief Financial Officer	31 November 2019
Prepare action/audit plan and incorporate responses to queries into the annual report	Municipal Manager/ Chief Financial Officer	30 November 2019

IDP Steering Committee Conducts Desktop Situational Analysis	Planning and LED Executive Manager/ Municipal Manager	31 November 2019
Budget offices of municipality determine revenue projections and proposed rate and service charges and drafts initial allocations to functions and departments for the next financial year after taking into account strategic objectives	Municipal Manager/ Chief Financial Officer	30 November 2019
Engagements with Provincial and National sector departments on sector specific programmes for alignment with municipal plans	Municipal Manager/ Chief Financial Officer	31 December 2019
2019/20 SDBIP Mid-Year Performance Review by Exco and Management	Mayor	30 January 2020
Tabling of 2019/20 Mid-Year Performance Assessment Report and 2018/19 Annual Report to Council	Mayor	30 January 2020
IDP/Budget/SDBIP Engagement session between management and Treasury	Municipal Manager	
Council approval of 2019/20 Adjustment Budget	Municipal Manager/ Chief Financial Officer	28 February 2020
Strategic planning session to review municipal objectives and strategies/indicators and develop one year service delivery plan and MTREF budget.	Mayor	March 2020
Tabling of 1 st Draft IDP/ Budget reviewed for 2020/21, budget related policies, tariff structure and 2020/21 Draft SDBIP to council	Mayor	30 March 2020
IDP/Budget/SDBIP Engagement session between management and Treasury	Municipal Manager	
Quarterly Review of 2019/20 SDBIP Performance by Management	Municipal Manager	April 2020
Submission of 2019/20 SDBIP Quarterly Performance Report to Council	Mayor	30 April 2020
Stakeholders consultation (with IDP/Budget Stakeholders' Representative Forum/Communities/Traditional Leaders and business) regarding 2020/21 Draft IDP/Budget	Mayor/ Speaker	April/May 2020
Strategic planning session to consider inputs from the public and stakeholders regarding 2020/21 Draft IDP/Budget, 2020/21 Tariff Structure and Budget related policies	Mayor	May 2020
Adoption of reviewed IDP and budget for 2020/21 financial year by council	Mayor	28 May 2020
Submission of copies of reviewed 2020/21 IDP/ Budget to the CoGHSTA MEC, CDM, National Treasury and Provincial Treasury	Municipal Manager/ Chief Financial Officer	June 2020
Submission of service delivery implementation plans and budget (SDBIP) to the Mayor for approval.	Municipal Manager	June 2020
2020/21 IDP/Budget and SDBIP are made public, including being put on municipal website.	Municipal Manager	June 2020

1.28. 6. DRAFT IDP/BUDGET COMMUNITY CONSULTATION MEETINGS

DATE	WARDS
April - May 2020	Four Clusters: Lebowakgomo, Zebediela, Noko-Tiou and Mphahlele

1.27. 7. IDP REP. FORUM MEETINGS

DATE	TIME	VENUE
24 March 2020	11h00	Lebowakgomo Civic Hall
26 May 2020	11h00	Lebowakgomo Civic Hall

1.28. 8. TRADITIONAL LEADERS AND BUSINESS COMMUNITY CONSULTATION MEETINGS

Target Group	DATE	TIME	VENUE
Traditional Leaders	April 2020	10h00	Lebowakgomo
Business	May 2020	10h00	Lebowakgomo

1.28. 9. IDP/BUDGET/PMS STEERING COMMITTEE MEETINGS

DATE	TIME	VENUE
July 2019	10h00	Lebowakgomo Cultural Centre Boardroom
November 2019	10h00	Lebowakgomo Cultural Centre Boardroom
January 2020	10h00	Lebowakgomo Cultural Centre Boardroom
April 2020	10h00	Lebowakgomo Cultural Centre Boardroom

1.28. 10. STRATEGIC PLANNING SESSIONS

SESSION	DATE	PURPOSE
Departmental Planning Sessions X 6 (Officials from Municipal Departments)	November 2019	Review Departmental Strategies, Objectives, Indicators and Policies/Sector Plans
Extended Management Session (Executive Managers, Labour Representatives and Heads of Units/Divisions)	December 2019	Review 2019/20 Quarterly/ Mid-Year Performance, IDP Budget Adjustment, 2020/21 IDP Objectives, Indicators and Strategies
	May 2020	Integration, alignment and consolidation of inputs from stakeholders

		regarding 2020/21 Draft IDP/Budget and Tariff Structure, Policies/Sector Plans
Exco Lekgotla (Exco, PMT, MPAC Representatives, Labour Representatives and Audit Committee)	January 2020	Review 2019/20 SDBIP Mid-Year Performance and Budget Adjustment
	February 2020	Review Strategies, Objectives, Indicators, Budget and Policies/Sector Plans
	May 2020	Integration, alignment and consideration of inputs from stakeholders regarding 2020/21 Draft IDP/Budget, Tariff Structure and Policies/Sector Plans
Organisational Strategic Planning Session (All Councillors, Audit Committee, Labour Representatives and Management)	March 2020	Review Strategies, Objectives, Indicators, Budget and Policies/Sector Plans

1.28.11. QUARTERLY AND MID-YEAR PERFORMANCE REVIEW SESSIONS BY MANAGEMENT AND EXCO

DATE	TIME	VENUE
October 2019	09h00	Lebowakgomo
January 2020	09h00	Lebowakgomo
April 2020	09h00	Lebowakgomo

1.28.12. BASIS FOR IDP REVIEW

The review or compilation process comes as a result of approval of new council's IDP in 2016/17 financial year and is being reviewed annually in line with Chapter 5 of the MSA Act and as may be influenced by the following;

- Analysis of the municipality's current socio-economic status,
- Community development needs from public consultation,
- 2018/19 Annual and 2019/20 Mid-Year Performance Assessments a
- The outcomes of 2019/20 IDP assessment by MEC for CoGHSTA's Limpopo and
- The outcomes of 2018/19 Auditor General's Audit Report

1.28.13. ACTIVITIES UNDERTAKEN FOR IDP/BUDGET COMPILATION

The IDP review process involves five critical phases, namely, the Analysis, Strategies, Project, Integration and Approval phases.

The review process for the development of this IDP/Budget was conducted as follows:

- Council approval of the review process plan was done on 29 July 2019
- Desktop data gathering for IDP status quo analysis was done
- IDP/Budget steering committee meetings were held in July 2019, November 2019, February 2020 and June 2020. IDP/Budget Management meetings were held to prepare for strategic planning sessions and steering committee meetings
- Departmental planning sessions and extended management planning session were held during the months of November 2019, February 2020 and March 2020
- Exco Lekgotla was held on the 17-18 December 2019, to look at mid-year performance and IDP status quo and strategy phase, and again on the 19th March 2020 to look at IDP project phase, draft budget, reviewed organizational structure, reviewed tariff structure and reviewed budget related policies
- Organizational Strategic Planning session was scheduled for March 2020 but cancelled because of COVID-19 (Corona Virus) and as per the instruction of the President for National social isolation and lockdown
- IDP/Budget Rep Forum meeting was scheduled for March 2020 but was also cancelled because of COVID-19 and instruction from President. Members were consulted directly regarding Draft IDP/Budget via sms
- Tabling of first draft IDP/Budget was scheduled for 30 March 2020 but was also postponed because of COVID-19 and tabled on the 29th May 2020.
- Stakeholders consultation on Draft IDP/Budget was done under Lockdown Regulations wherein meetings were avoided and instead newspapers, website, call centre, WhatsApp, short message system, Facebook, comments boxes and radio were used.

B.L.

- Adoption of the 2020/21 IDP/Budget took place on the 25th June 2020.

1.28.14. WARDS DEVELOPMENT PRIORITIES

TOP FIVE COMMUNITY DEVELOPMENT PRIORITIES PER WARD

WARD NO.	WARD PRIORITIES
1.	<ul style="list-style-type: none"> i. Roads ii. Water iii. Housing iv. Clinic v. Electricity

B.P.  LA 

CHAPTER 2: MUNICIPAL PROFILE

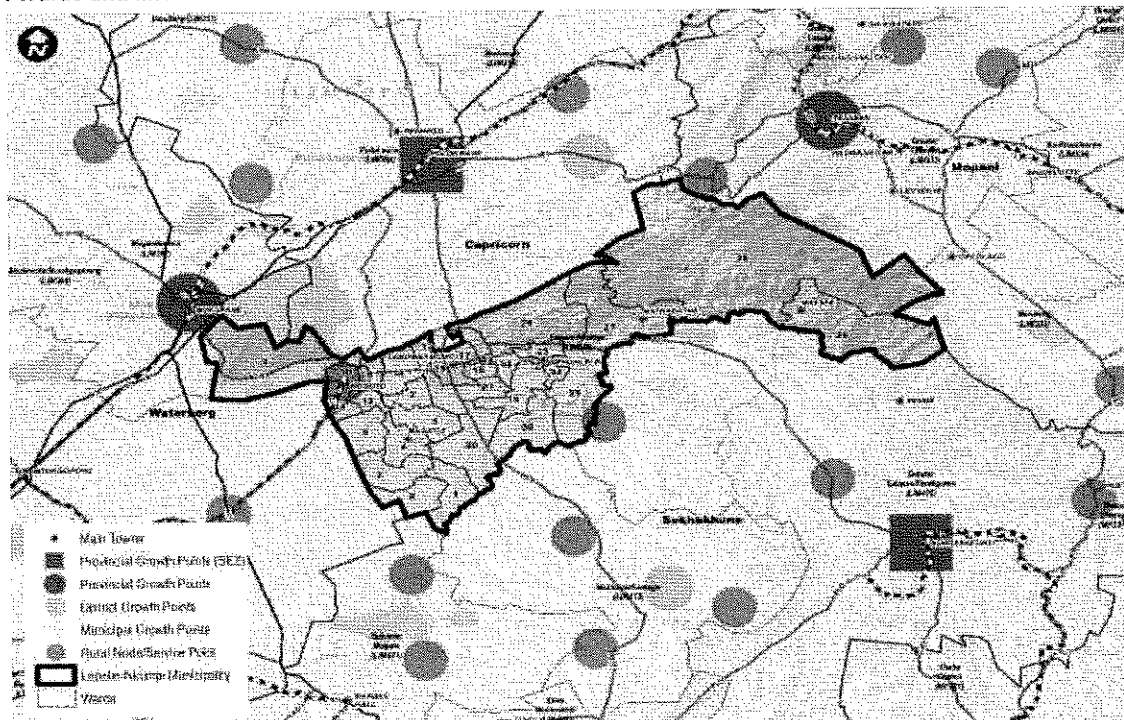

2.1. INTRODUCTION

This chapter looks at demographic composition and physical description of the municipality.

2.2. DESCRIPTION OF MUNICIPAL AREA

Lepelle-Nkumpi is one of the four local municipalities within the Capricorn District Municipality in Limpopo Province and is located in the southern part of the Capricorn District. The municipality is pre-dominantly rural with a population of approximately 233925 people. It covers 3,464.00 hectares, which represents 16% of the District's total land area and is divided into 30 wards which comprise a total of 94 settlements. About 95% of its land falls under the jurisdiction of Traditional Authorities.

Map 1: Wards and Main Towns

2.3. DEMOGRAPHIC PROFILE

2.3.1. POPULATION FIGURES

According to the Stats SA Community Survey 2016 results, the municipality has an estimated population of 233925 people with a total of 61305 households and an average household size of 3.8. There are 30 wards in the municipality with an average size of 8000 people.

Table 1. Demographics

Municipality	Population				No. of Households				Average Household Size			
	1996	2001	2011	2016	1996	2001	2011	2016	1996	2001	2011	2016
Lepelle-Nkumpi	234926	227 970	230350	233925	44 397	51 245	59 682	61305	5.2	4.4	3.9	3.8

Data Source: Community Survey 2016

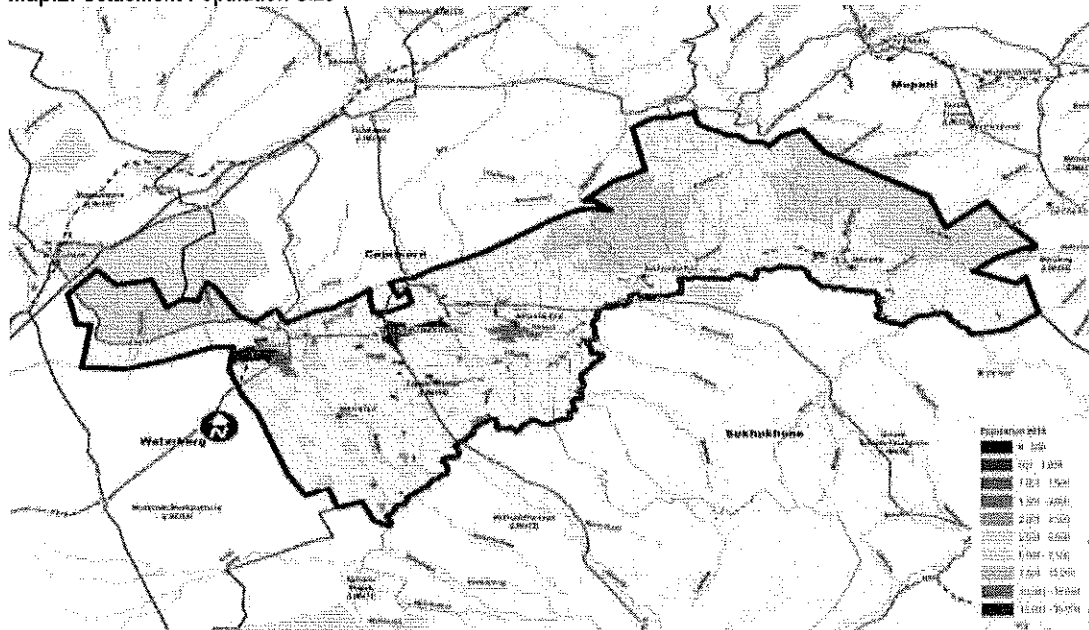

The population of Lepelle-Nkumpi has grown by 0.1, second fastest after Polokwane, during the last period between 2011 and 2016. The municipality is the second largest in the District, harbouring 18% of District population, whereas Polokwane Municipality is the biggest and constitutes about 50% of the District population as depicted by the table below.

Table.2: Population Growth Rate-1996, 2001, 2011 and 2016

Municipality	Population						
	1996	2001	% Change	2011	% Change	2016	% Change
Aganang	146 335	146 872	0.1	131 164	-1.1	125072	-0,003

Data Source: Community Survey 2016

Young people of below 35 years old who constitute 71% of total population dominate the population of Lepelle-Nkumpi.

2.3.3. LEVEL OF EDUCATION

According to Census 2011, there is only 33% with matric and above qualifications, among people 20 years and older. Otherwise, 67% has no matric- having left school at primary or secondary levels. There is an alarmingly high percentage of females without schooling or with minimal education qualifications in the municipality and the District alike, even though there are still more women with matric and post matric qualifications.

Table.6: Distribution of the population aged 20 years and older by highest level of education attained and sex- 1996, 2001, 2011 and 2016

CHAPTER 3: SPATIAL ANALYSIS

INTRODUCTION

Lepelle-Nkumpi Municipality has developed an SDF for its area in 2017 that aligns with Limpopo SDF and SPLUMA. This was a review to the one that was first approved by council in 2008. This review was necessary because SPLUMA has just come into operation and all physical planning tools of municipalities were required to be in compliant with its prescriptions. Also, the Province has just recently reviewed its SDF in 2016 and therefore affected all local SDF's and obviously necessitated alignment of municipality's SDF.

3.1. SPATIAL PLANNING AND LAND USE MANAGEMENT ACT, (SPLUMA)

The Spatial Planning and Land Use Management Act 2013 (Act 16 of 2013) came into operation on 1 July 2015. It is a law enacted by national government and applicable in the entire Republic. The Act also repealed some other planning laws which are in conflict with SPLUMA.

Unlike previous planning laws, this Act provides a framework for spatial planning and land use management on different spheres of government. It provides for the two pillars of planning, namely spatial forward planning and land use management or land development administration. As point of departure, SPLUMA also provide general development principles applicable to spatial planning and land use management in Chapter 2, Section 7 of the Act.

3.2. LIMPOPO PROVINCIAL SDF

3.2.1 Development Principles - strategies

The Limpopo SDF (LSDF) sets out **Development Principles** in order to arrive at the envisaged spatial framework. These principles are mentioned and their importance for Lepelle-Nkumpi briefly discussed hereinafter, namely:

i. **Development Principle 1:** Define and protect a Provincial Regional Open Space System which ensures that ecosystems are sustained and natural resources are utilised efficiently. Lepelle-Nkumpi has large areas affected by the proposed open space system including protected areas (nature reserves) and critical biodiversity areas.

ii. **Development Principle 2:** Facilitate efficient spatial targeting through the identification of a range of provincial, district, municipal and rural nodal points to serve as focal points for investment and service delivery

The LSDF includes the **levels of growth points in terms of the nodal hierarchy of settlements in the Province**. In the Lepelle-Nkumpi, Lebowakgomo District Growth Point; and Mogoto/Moetlane Rural Node/Service Point were recognised

iii. **Development Principle 3:** LSDF also supports the national government's "road to rail" imperative, advocating utilisation of rail freight. In respect of Lepelle-Nkumpi, the following routes play an important role, namely:

- R37: Provincial Corridor between Polokwane and Burgersfort;
- R518: Main Road (Lebowakgomo – Mokopane)
- R519: Main Road (Polokwane – Zebeliela – Roedtan)
- R579: Main Road (Lebowakgomo – Jane Furse)

iv. **Development Principle 4:** Direct engineering infrastructure investment towards the priority nodal points where the majority of economic activity and human settlement will establish.

v. **Development Principle 5:** Prioritise consolidation of community infrastructure at the identified nodal points and in line with the concept of multi-purpose Thusong Centres/ Rural Development Centres in Rural Nodes

vi. **Development Principle 6:** Create conditions conducive to development in multi-functional business areas and implement Urban Revitalisation Strategies in such areas where required

vii. **Development Principle 7:** Optimise the utilisation of agricultural potential of Limpopo Province to provide sustainable livelihoods to marginalised communities in rural areas in partnership with commercial farms

viii. **Development Principle 8:** Utilise the provincial environmental resources as attractions to promote sustainable tourism development (and conservation) in all parts of the Province

ix. **Development Principle 9:** Promote mining activity and associated job creation potential in an environmentally sustainable manner. Although Lepelle-Nkumpi has none, it is located along the Dilo Kong corridor/Tubatse in respect of platinum mineral resources.

x. **Development Principle 10:** Address industrial sectoral diversification by way of area specific investment in high value production and value added technologies and industries

xi. **Development Principle 11:** Sustainable Human Settlement in urban and rural Limpopo Province

3.3. SPATIAL ANALYSIS

3.3. 1. Biophysical Analysis

A. Typology and Hydrology

The North-Eastern portion of the Lepelle-Nkumpi municipal area is mountainous with the Great Escarpment or Northern Drakensberg as the dominant feature of the north-Eastern quadrant of the Municipality with Wolkberg and Strydpoort mountain ranges are both located within this portion. Portions of the Maribashoek Mountains are located West of Zebediela towards Mokopane, Magalakwena Local Municipality. The South-Western portion of the Municipality is considered relatively flat. The Lepelle-Nkumpi Local Municipality is located in the Olifants catchment (Middle Olifants catchment/sub-area). The Olifants River forms the southern boundary of the Municipality. Several tributaries of the Olifants River transect the Municipality including the Nkumpi River, Hlakaro River and the Mohlapitsi River among others. These rivers flow from north to south through the Municipality and terminate in the Olifants River.

There are a number of small wetlands within Lepelle-Nkumpi, but there are no declared Ramsar wetlands. A relatively large wetland is found near Khureng in the South of the Municipality as well as along the Mohlapitsi River in the East of the Municipality.

B. Protected and Conservation Areas

Three conservation areas are located within the Lepelle-Nkumpi Municipal area, which include the Bewaarskloof, Wolkberg and Lekgalameetse reserves all located within the north-eastern portion of the Municipality. These three reserves are all provincial nature reserves and have formal protected areas status. The Thabina reserve, Strydpoort Mountains and Donkerkloof caves are also within the boundaries of the Municipality. The buffer areas of the Makapan Valley World Heritage Site are also located within the western portion of the Municipality.

A significant portion of the Lepelle-Nkumpi Municipality is covered by the Kruger to Canyon (K2C) Biosphere including the formally protected areas of the Bewaarskloof, Wolkberg and Lekgalameetse reserves.

C. Biodiversity and Ecosystems

Critical Biodiversity Areas are areas required to meet biodiversity targets for ecosystems, species and ecological processes. The primary purpose of a map of Critical Biodiversity Areas and Ecological Support Areas (ESA) is to inform land-use planning, environmental assessment and authorisations, and natural resource management, by a range of sectors whose policies and decisions impact on biodiversity.

The CBA and ESA within the Lepelle-Nkumpi Municipality can be summarised as follow:

- A total of 62% of the Municipality is designated as Critical Biodiversity Areas (CBA) – which include:
 - 17% Protected Areas - Protected Areas and Protected Areas pending declaration under NEMPA.
 - 35 % Critical Biodiversity Area 1 (CBA1) which can be considered "irreplaceable"
 - 10% Critical Biodiversity Area 2 (CBA2) where conservation is optional but highly desirable.
- Ecological Support Areas (ESA) has been split on the basis of land cover into ESA 1 (11%) and ESA 2 (9%). ESA 1 areas are largely in their natural state while ESA 2 areas are no longer intact but potentially retain significant importance in terms of maintaining landscape/ ecosystem connectivity.
- Other Natural Areas make up 12% of the Municipality.

According to the Limpopo SDF (2016) the Wolkberg Region is one of the leading international floral hotspots and should be prioritised as conservation areas.

B.P

LA

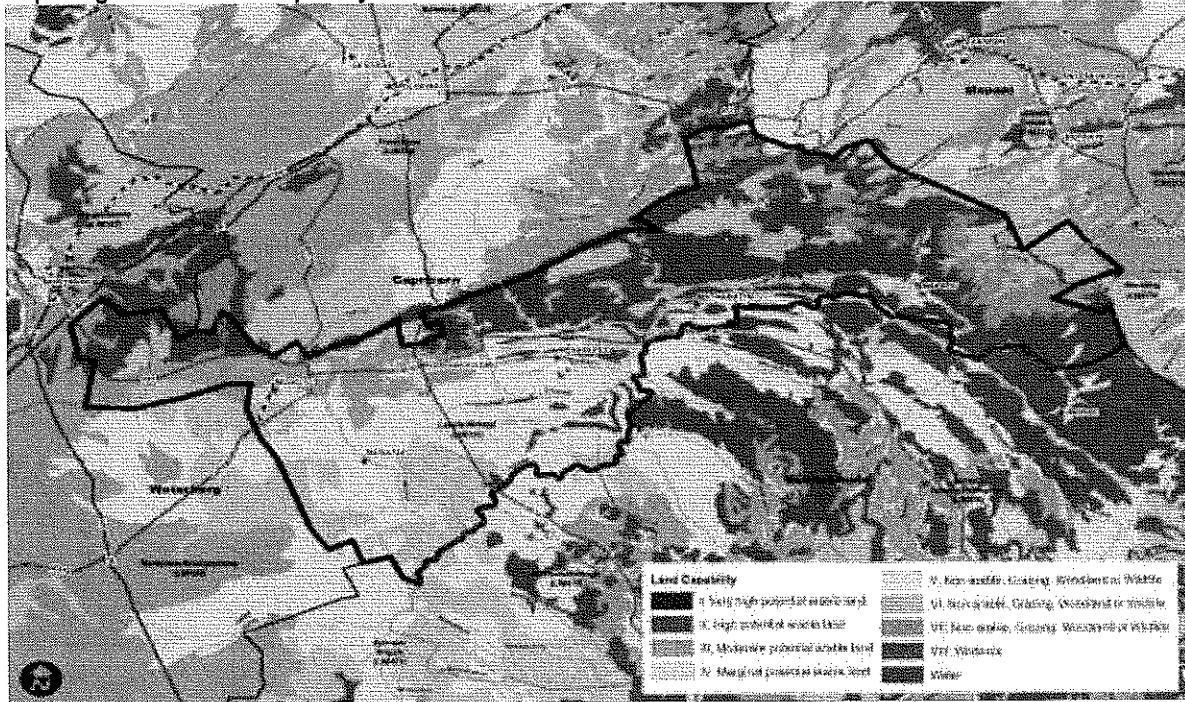

Critical Biodiverse Areas

- Protected Area
- Critical Biodiversity Area 1
- Critical Biodiversity Area 2
- Ecological Support Area 1
- Ecological Support Area 2
- Other Watershed

Map of the Klamath River watershed showing Critical Biodiverse Areas. The map includes a legend with six categories: Protected Area, Critical Biodiversity Area 1, Critical Biodiversity Area 2, Ecological Support Area 1, Ecological Support Area 2, and Other Watershed. The map shows various geographical features, including the Klamath River, Lake Shasta, and several towns and cities. A north arrow is located in the bottom left corner.

Land capability is an expression of the effect of physical factors (e.g. terrain form and soil type), including climate, on the total suitability and potential for use for crops that require regular tillage, for grazing, for forestry and for wildlife without damage. Land capability involves the consideration of (i) the risks of damage from erosion and other causes, (ii) the difficulties in land use caused by physical factors, including climate and (iii) the production potential. The land capability of the Lepelle-Nkumpi Local Municipality indicates that 35% of the Municipality falls within the arable grouping, 34% in the wilderness grouping and the remaining 31% in the grazing grouping.

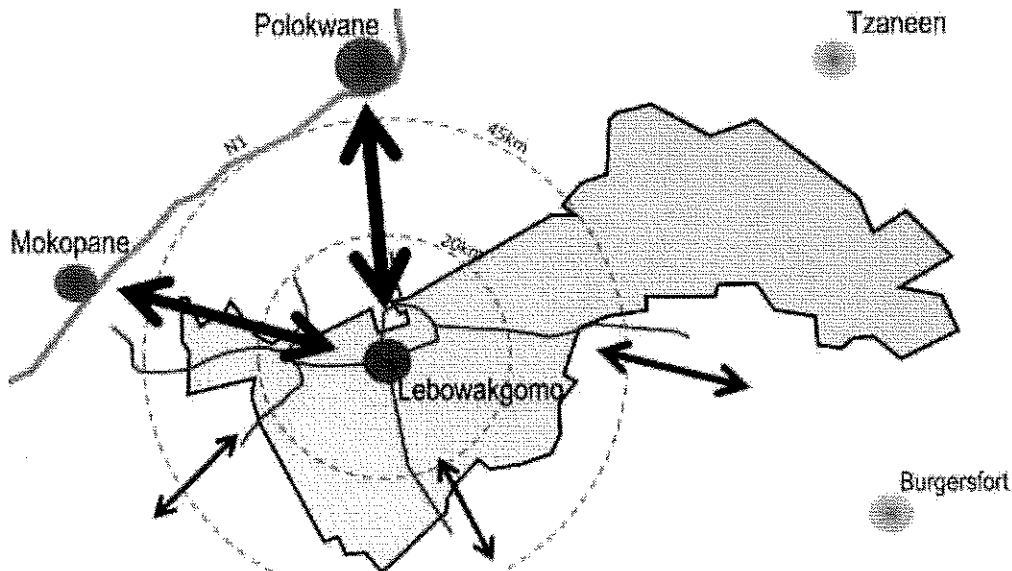

Map 5: Agricultural Land Capability

E. Regional Space Economy

Lepelle-Nkumpi Local Municipality is located within the Capricorn District Municipality's area of jurisdiction. Other local municipalities in this district include Polokwane, Blouberg, and Molemole as can be seen in Map 1.10. The municipality is further bordered by eight different Local Municipalities of which most of them, except Polokwane Municipality, are located in other District Municipal areas. These bordering municipalities include Polokwane, Greater Tzaneen, Maruleng, Fetakgom/Tubatse, Modimolle/Mookgophong, Mogalakwena, Makhuduthamaga and Ephraim Mogale.

Map 6: Relationships and Interactions in the Region

F. Cultural Heritage and Tourism

Attractions within Lepelle-Nkumpi include the Stydpoortberge, Bewaarkloof, the Wolkberg Wilderness area, the Downs and Lebowakgomo. The western part of this municipal area is dominated by many rural villages while the nature conservation areas to the east of the municipality attract hikers, campers, picnickers and weekenders. Accommodation is scarce, leaving potential to

B.P.
[Signature]

develop the tourism industry within Lepelle-Nkumpi. However, tourism development will need to be handled with great sensitivity due to the risk of degradation and exploitation of natural resources. Co-operative governance, due to the cross boundary nature of these tourist attractions, is required to ensure exploitation is controlled and tourism is beneficial. The Wolkberg Wilderness area consists of 40,000 hectares of almost pristine Afromontane grasslands, indigenous forests, spectacular mountain scenery and clean, running streams and rivers. (EMP 2010)

G. Rural Development

As stated in the Limpopo SDF, 2016: "... rural development is based on a proactive participatory community-based planning approach rather than an interventionist approach to rural development. Essentially, the programme is aimed at being an effective response to poverty alleviation and food insecurity by maximizing the use and management of natural resources to create vibrant, equitable and sustainable rural communities.

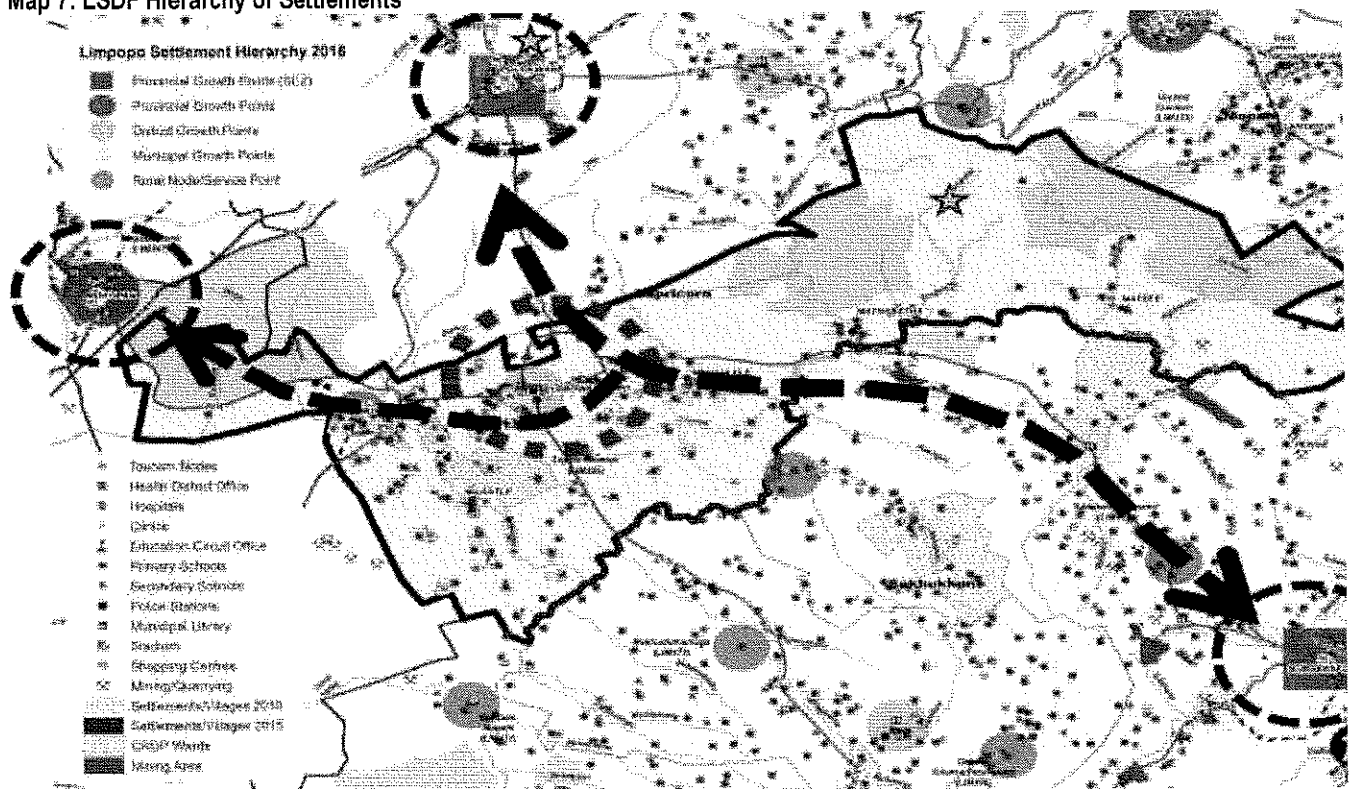

In respect of Lepelle-Nkumpi Municipality, the Limpopo SDF 2016 highlight the area declared as CRDP site. It is located in the central western area of the municipality close to the Magatle settlement

From focus group discussions it was pointed out that two areas in the rural areas of the municipality, hold potential for tourism development and that different studies in the past also pointed it out. The areas are the Zebediela area as well as Mafeke area, which are both located close to a world heritage site and in nature conservation area respectively.

In respect of further opportunities in the entire municipal area, it was also pointed out during focus group discussions that training in technical skills such as brick-laying can contribute towards raising the general skills of the community.

3.3.2. SYNTHESIS SOCIO-ECONOMIC ENVIRONMENT

Map 7: LSDF Hierarchy of Settlements

3.3.3. BUILT ENVIRONMENT ANALYSIS

3.3.3.1 Transport and movement networks

i. Road network

Lepelle-Nkumpi's municipal area is strategically located in respect of several Main (provincial) Roads, and most importantly in respect of the Dilokong Provincial Corridor between Polokwane and Burgersfort. The road network is depicted in the schematic diagram in Figure 1.13 and in more detail in Map 12.

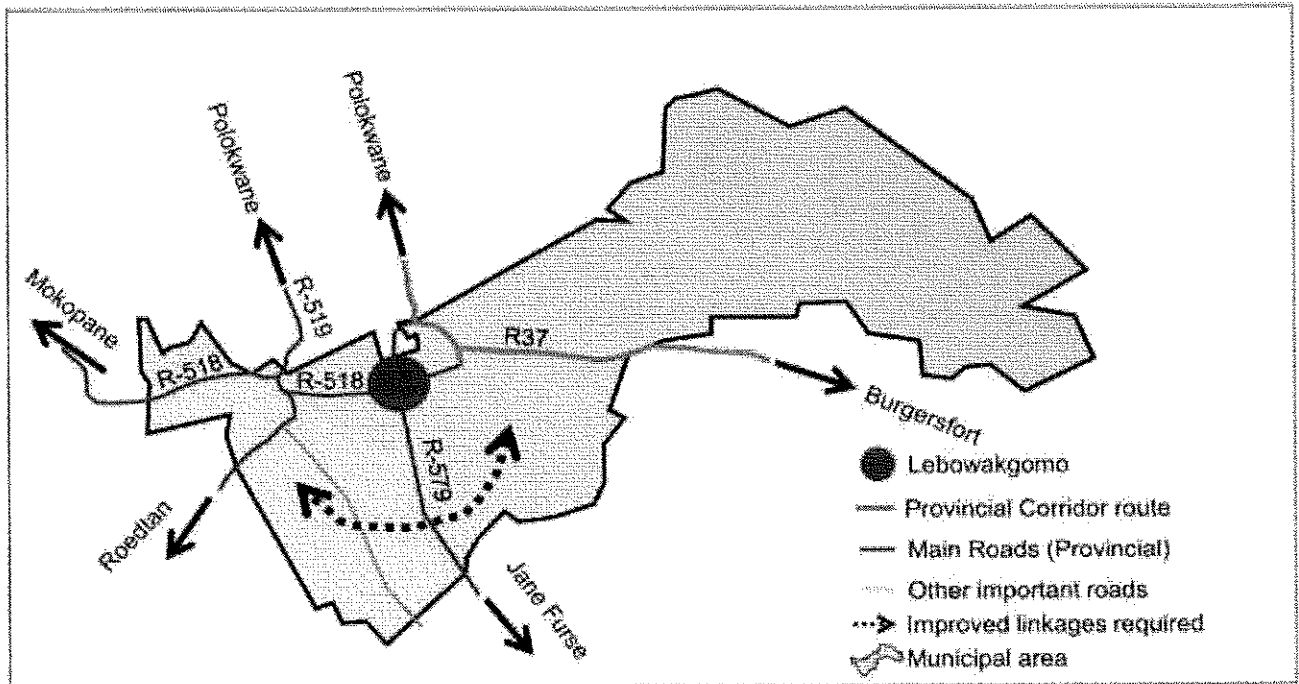

Hence, the municipal area includes the following important Main Roads through the area, also acknowledged in the Limpopo SDF, namely:

- Provincial Corridor – R37 between Polokwane and Burgersfort;
- Main Roads:

- R579 between the R37 from Polokwane to Jane Furse;
- R519 between Polokwane to Roedtan/Mookgophong;
- R518 between the R37/Lebowakgomo to Mokopane.

Although the N1 National Road runs through the adjacent municipal areas of Polokwane, Mogalakwena and Mookgophong Local Municipalities, the mentioned R37 and R519 towards Polokwane and the R518 towards Mokopane provide residents sufficient access to this route in order to link with areas in Gauteng in the south and African neighbouring countries in the North.

MAP 8: SCHEMATIC ILLUSTRATION OF TRANSPORT AND MOVEMENT ROUTE

ii. Railway network

There is a railway line from Mookgophong to Zebediela which links up in Mookgophong with the important mainline railway line between Pretoria and Beit Bridge (Musina). Unfortunately the line to Zebediela is no longer in operation. The rail network in Limpopo is mainly used for freight at this point in time.

iii. Airports and airfields

There are no airports or airfields in the municipal area. However, the Gateway International Airport as well as Polokwane Municipal Airport is located in Polokwane, approximately 60 km from Lebowakgomo. There is also an airfield in Mokopane approximately 50km from Lebowakgomo.

iv. Freight Network and Corridors

Road freight is the predominant mode of freight transport in Limpopo Province according to the Limpopo SDF, 2016. This is due to several reasons, but one is because of the closure of several railway lines, and secondly because of the speed and convenience of road cargo carrier services. The fact that Limpopo's freight is focussed on agricultural produce (perishable goods), the choice of road freight is obvious.

Map 1.13 depicts the freight systems in the area. The two main routes through the municipal area is the R37, also linking from the R37 to Lebowakgomo, and the other is the R 519, between Polokwane via the Zebediela/ Mogoto area to Roedtan and areas to the south-west of Limpopo and towards Mpumalanga.

In respect of rail freight there is a mainline railway line from Pretoria, via Pienaarsrivier, Polokwane, Musina up to Beit Bridge at the Zimbabwe border, which carries general international and domestic cargo (Please note: The rail freight route shown to Zebediela is currently out of commission).

Although the R37-route is a declared Provincial Corridor route, there is no strong characteristic that contributes to this status at this point in time. The only noticeable character is the high volume of heavy delivery motor vehicles on this route between Tubatse and Polokwane.

3.3. 3.2. Settlement patterns

i. Lebowakgomo/Mphahlele and Moietlane/Mogoto clusters

The three largest clustered settlements are Lebowakgomo, Moietlane and Mphahlele.

B-P' LA

ii. Magatle area and other rural areas

Some linear settlements along roads in rural areas such as the Magatle area, are smaller in size but larger in numbers and scattered over a large area, which created a pattern of small scattered settlements all over a large area of the municipality.

3.3.3 Hierarchic role and function of adjacent municipalities

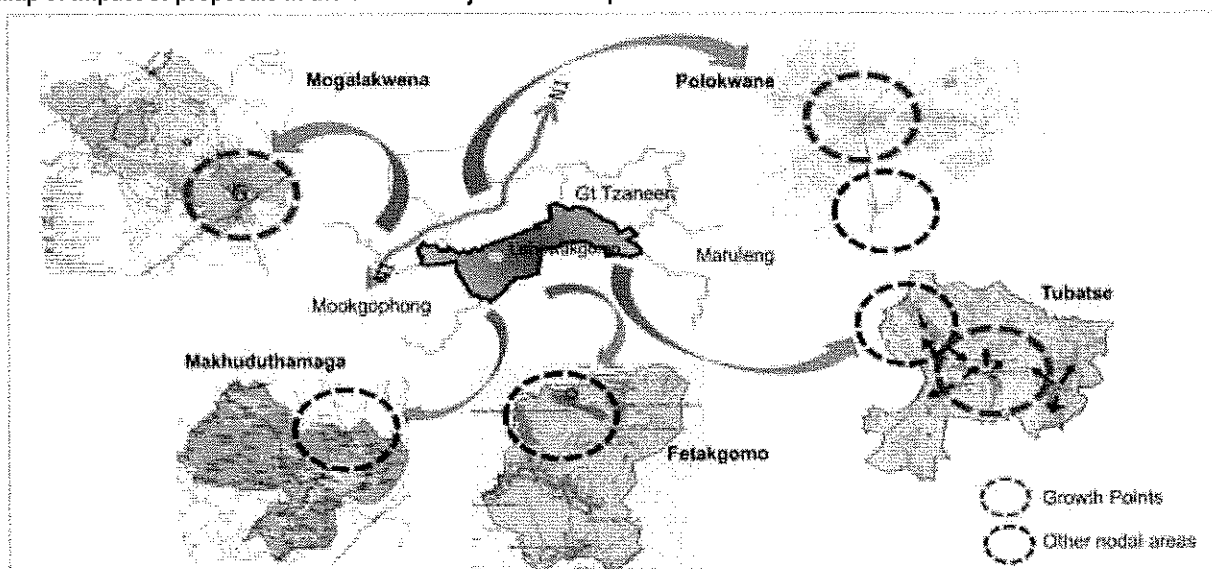

The Polokwane and Tubatse settlements are Provincial Growth Points in the region and also earmarked as Special Economic Zones (SEZ). These areas are located along the Dilokong Provincial Corridor (R-37) and Lebowakgomo is also along this corridor and basically between these two Provincial Growth Points. To the West of the municipal area lies Mokopane which is another Provincial Growth Point which can play an important role. Both Tubatse and Mokopane have strong mining activities whilst Polokwane, as Capital of Limpopo, accommodates a great variety of specialised functions.

All the mentioned nodal areas have good linkage with the municipal area and specifically the Lebowakgomo District Growth Point.

Another important nodal area in the region, located south of the municipality, is Jane Furse which is also classified as a District Growth Point. Again, Jane Furse is properly connected via a main road, leading through Lebowakgomo towards Polokwane Municipality. With the Atok Municipal Growth also in the area of Fetakgomo Municipality, it forms another important activity area in respect of mining activity.

Unfortunately, Greater Tzaneen which is also a Provincial Growth Point, hasn't got proper linkage with Lepelle-Nkumpi and specifically the Lebowakgomo Provincial Growth Point by means of main roads. See Map 7: LSDF Hierarchy of Settlements here above.

Map 9: Impact of proposals in the SDF's of adjacent municipalities

As depicted here above, three municipalities with the greatest influence are Polokwane, Mogalakwena and Tubatse. These municipalities accommodate the Provincial Growth Points and for reasons set out above they will impact on Lepelle-Nkumpi in terms of regional economics.

3.3.3.4. Land tenure or ownership

There are two categories of tenure systems in South Africa, namely a "formal system" whereby land is surveyed and recorded/approved in the Surveyor-General's Office and registered in the Deeds Office as freehold titles. The second system is a more "informal system" and deals with communal land and customary land tenure types.

The types of tenure systems and land tenure rights generally found in Limpopo Province can be described as follow, namely:

- Freehold title;
- State land; and
- Common hold land.

Map 10: Land Ownership

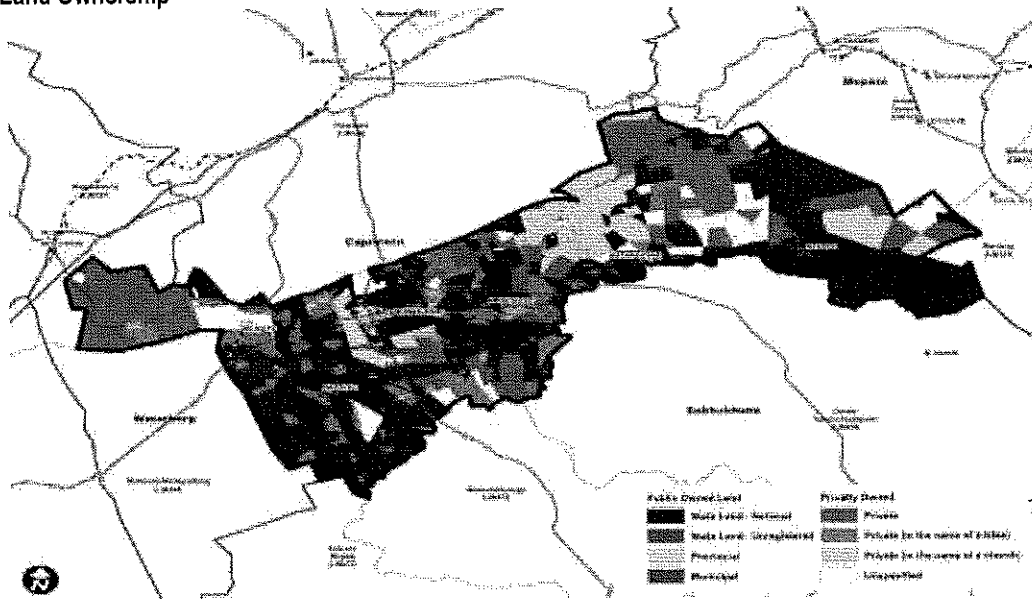

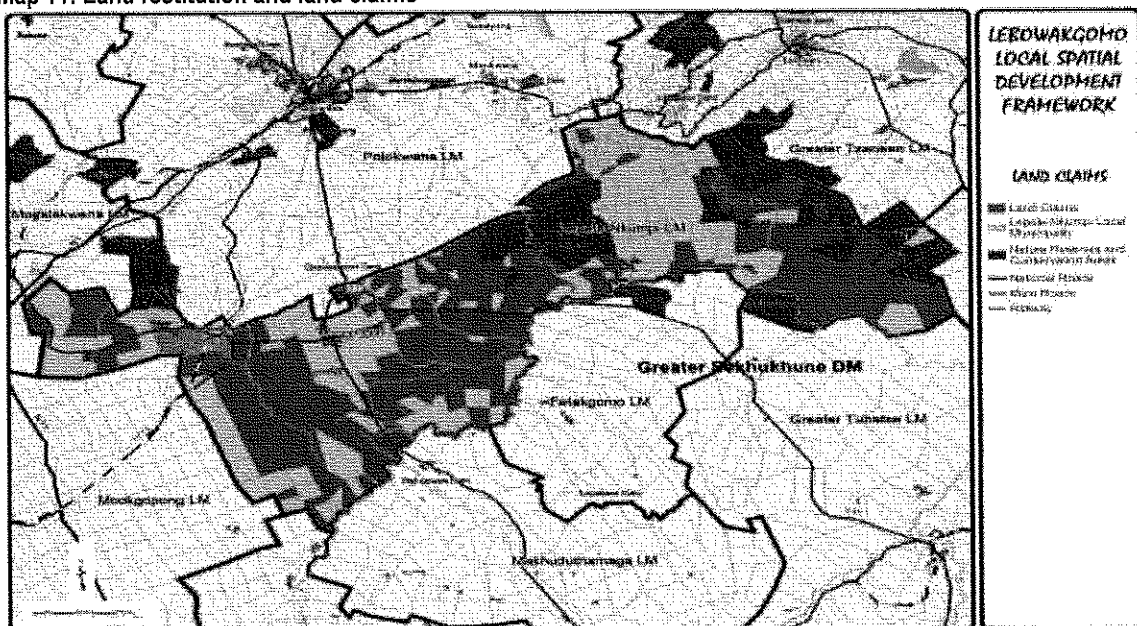

TABLE 14. LAND OWNERSHIP IN THE MUNICIPAL AREA

Group of ownership	Ownership type	Area (in ha)	Percentage
Public owned land	State land (National)	1,866.30	53.9%
	State land (Provincial)	341.37	9.9%
	Other	0.06	0.0%
	Subtotal	2,207.74	63.7%
Privately owned	Private	835.86	24.1%
	Private (in the name of a Community)	218.84	6.3%
	Subtotal	1,054.70	30.4%
Unknown		201.56	5.8%
TOTAL		3,464.00	100%

3.3. 3.5. LAND RESTITUTION AND LAND CLAIMS

Map 11: Land restitution and land claims

Map shows the land in the municipal area which is under land claims. It includes a total surface area of 93,485ha or 37% of the total area of land within the municipal area. Most of the land under claims is in the Western part of the municipal area, which is the area where most of the settlements are located and which is public owned land. There are also land claims lodged in the Eastern part which overlaps with the environmentally sensitive areas. Lebowakgomo Township and its extensions are excluded from any claim however.

3.3. 3.6. Land Use and Activity Patterns

i. Business/retail

In correlation with the urban or spatial structure, the land uses and activity found in the Lebowakgomo/Makotse growth point are those specialised land uses and high intensity activity, whilst land uses in the other secondary nodes and rural areas are much more rudimentary in nature.

Lebowakgomo's CBD is the primary activity node in respect of provision of a wide range of facilities such as offices and retail (shops). Apart from the CBD, the cluster also accommodates the Limpopo Legislature complex, located just north of the CBD. Historically the Legislature played an important role in the area, but there is an indication that the function of the Legislature will be relocated to Polokwane.

Apart from the Lebowakgomo/Makotse growth point, it is evident that the Mogoto/Moletlane area/settlements have intense activity in respect of localised services and commercial (retail) activity. It also accommodates a Neighbourhood Shopping Centre.

ii. Industrial

There are two main areas which provides in industrial townships which is located at the Lebowakgomo/Makotse cluster. There are many vacant erven and under-utilised industrial properties in Lebowakgomo's industrial townships.

However, although there are proclaimed townships for industrial purposes in the Lebowakgomo settlement, there is an obvious oversupply for this land use and not much industrial development which occurs in these areas. Despite of this observation, these areas still holds potential for development for industrial purpose, including manufacturing, packaging and warehousing.

iii. Mining

The mining land use forms a small part of the land use composition of the area.

The platinum mining belt of the Bushveld Complex and Platreef Resource, illustrate the central locality of Lepelle-Nkumpi in respect of the core of both resources, namely at Mogalakwena and Tubatse. The locality of existing and future mines along these reefs is evident.

iv. Conservation – Regional Open Space

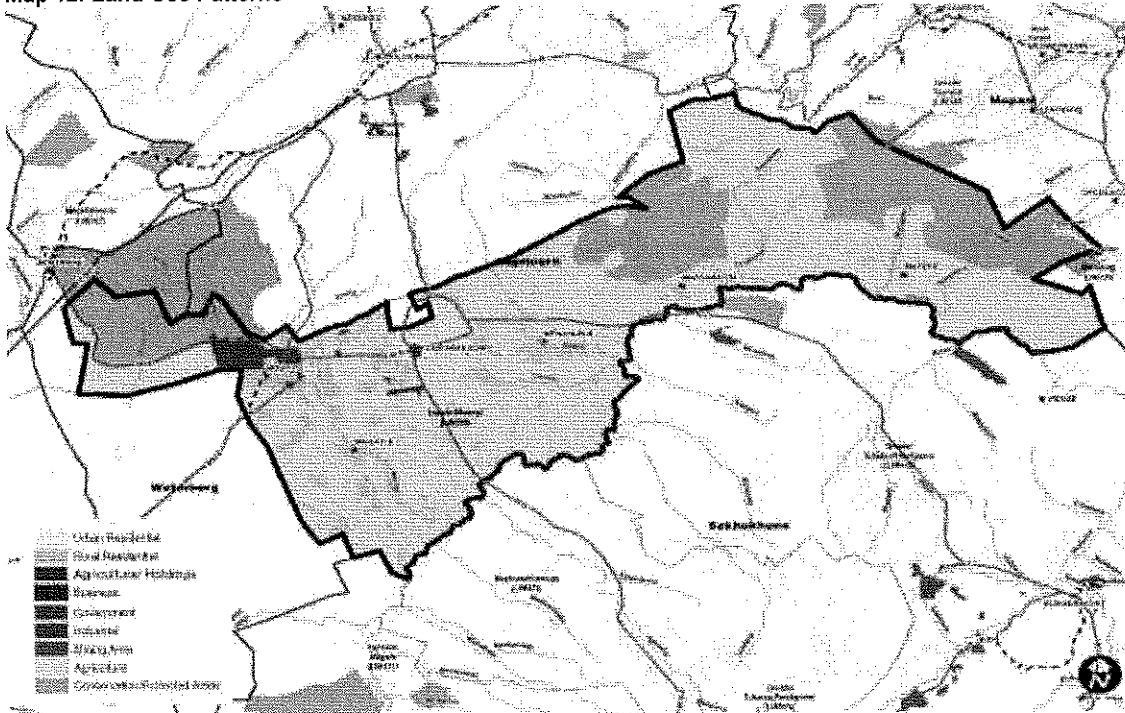

Two areas form the core, namely to the eastern and north-eastern parts of the municipal area, have a large area for conservation and a biosphere, and in the western part of the municipal area, a conservation area with international heritage status exists.

v. Residential

The residential land uses can be classified in the following categories, namely:

- **Urban residential** – located in formal townships and areas where General Plans exist and erven were formally surveyed and zoned and individual ownership registered in the Deeds Office in most instances (e.g. erven in Lebowakgomo);
- **Rural residential** – located in less formal settlements, or settlements which might have been surveyed, but in many instances not. Land normally belongs to the State and it includes those areas/settlements held in trust by Traditional Authorities. (e.g. Magatle, Molapo);
- **Agricultural Holdings** – located in rural areas or adjacent to other settlements where a General Plan normally exists as part of an agricultural holdings complex. Individual ownership is normally registered in the Deeds Office (e.g. Zebediela Estate);
- **Informal residential** – located in informal settlements where no general plan exists or where settlements took place without any permission from the authorities (e.g. areas west and south of Lebowakgomo BA);
- **Farmsteads and farms (agriculture)** – located on farm portions where individual ownership is registered in the Deeds Office (e.g. productive commercial farms, game farms etc.).

Map 12: Land Use Patterns

vi. Other land uses – community facilities

Facility location planning standards, access guidelines and threshold norms are an essential element of strategic forward planning and are used to allocate and reserve land for particular uses and facilities and develop capital budget plans within a planning area. In respect to planning over the long term, access standards, threshold guidelines and site sizes are increasingly important in ensuring that sufficient land has been reserved for essential facilities in terms of future growth and development without being wasteful and/ or encouraging the illegal use of underdeveloped land. Standards ideally facilitate a more equitable provision of services and facilities to diverse communities.

In order to determine the accessibility of social services within the Municipal areas, the planning norms and standards with reference to educational and health facilities were applied. The standards have been adjusted from time to time, the latest being issued by the "CSIR Guidelines for the Provision of Social Facilities in South African Settlements in 2012". However, in the event that a Provincial Department has a specific norm and standard that they apply, this norm will in such case be used for consistency.

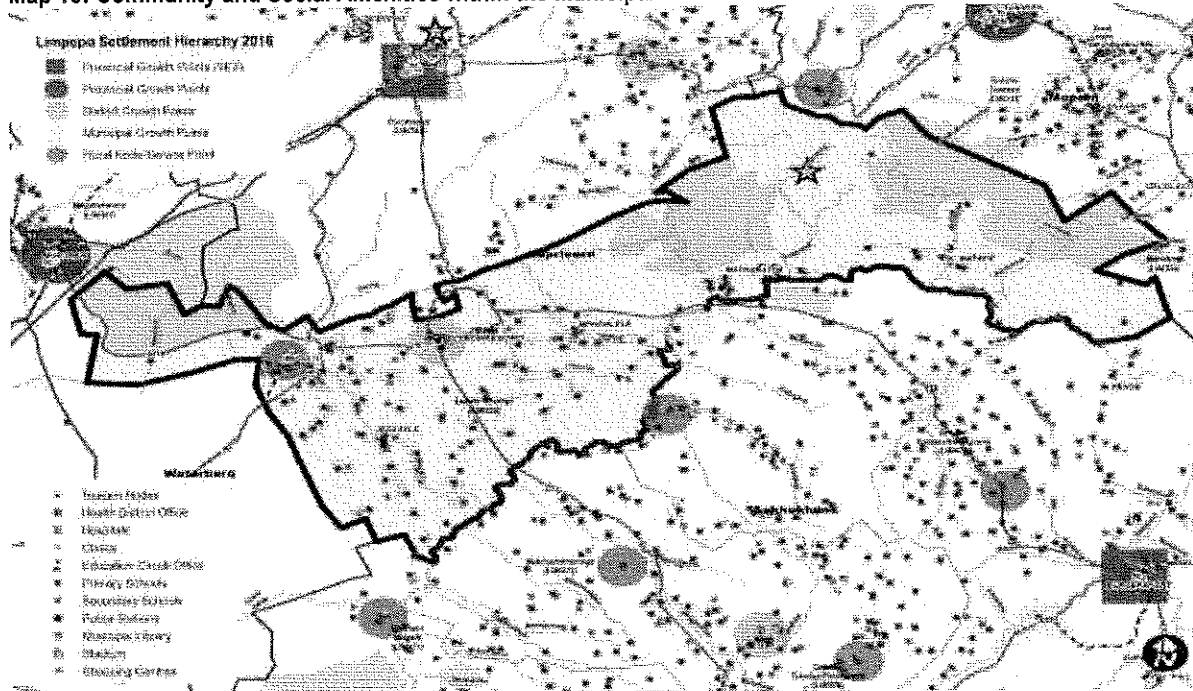

Accesses to educational facilities are based on the South African Schools Act, 1996 (Act No. 84 of 1996) Norms and Standards. At full implementation of the Norms and Standards, every school will be required to have a catchment area (area to be served by a school) with a radius of up to 3km (45 minutes walking time). A total walking distance to and from school will then be 6km (1.5 hours walking distance time).

The access to health facilities (hospitals, clinics and community health centres) are based on the CSIR Guidelines for the Provision of Social Facilities in South Africa (2012). According to the CSIR Guidelines, the access distance to hospitals is 30km and 5km to both to clinics and community health centres.

The subsequent parts of this section of the report include a series of Maps that depict the accessibility and provision of community facilities, such as schools, health facilities, police stations etc. It is evident that the location of most of the facilities ensures appropriate services and accessibility. However, there are areas of shortcoming where these facilities are still required. These shortcomings are spatially indicated on the relevant maps as well as summarised in a table on the map.

Apart from formal recreation facilities such as the Lebowa Kgomo stadium, the other recreational facilities such as parks and open spaces seems to be maintained poorly and not used by people and children. In other instances, it seems that parks are being used for informal settlements. The Municipality identified the need for a stadium at Zebediela.

Map 13: Community and Social Amenities within the Municipal Area

3.4. Key Spatial Challenges and Opportunities

The key challenges and opportunities summarised below includes a range of figures and maps to explain these aspects visually and provide a synthesis. However, it is not possible to show every aspect visually. Hence:

	Key Spatial Challenges	Key Spatial Opportunities
Biophysical environment	<ul style="list-style-type: none"> The steep topography of the mountain ranges found in the north-eastern part of the municipal area, is a restricting factor for future urban development, as well as road and freight linkages between Lepelle-Nkumpi and Mopani District Municipality. 62% of the municipal area is designated as Critical Biodiversity Area (CBA) in the Limpopo Conservation Plan, 2013, and another 20% of the municipal is regarded as Ecological Support Area (ESA); There are urban settlements developed over environmental sensitive areas in the north-eastern part of the municipal area, as well as the western part. The settlement development patterns also reveal a tendency to establish along riverine area. The unplanned extension of these settlements is a threat to the protection of the natural resources, and the safety of inhabitants (houses may be constructed within floodline areas, or structures and foundations not suitable for soil condition). 	<ul style="list-style-type: none"> 62% of the municipal area is designated as Critical Biodiversity Area (CBA) in the Limpopo Conservation Plan, 2013 which provides opportunity for tourism and recreation; Mountain ranges of conservation and tourism value are protected in nature reserves and forest reserves in the Eastern parts of the municipality. An opportunity exist to merge and commercialise the reserves; The Makapan Valley World Heritage site and buffer area is located to the West of the municipal area. This also holds potential for tourism and recreation.
Socio-economic environment	<ul style="list-style-type: none"> A large number, namely 56.8% of the population of the municipality falls within the 0 to 24 years' age group and can hence be regarded as a "bottom-heavy" age structure which will place many challenges to the municipality in terms of resources such as education, health and social services, not to mention job creation; Unemployment rates of the municipality totals at 47.6% in 2011, which is higher than the Limpopo Province's rate of 38.9%. The total unemployment 	<ul style="list-style-type: none"> Build on the strong regional relationship and interaction between the city of Polokwane as the capital and economic hub of the Limpopo Province and the municipality. The regional interaction is supported by good linkages via main roads and the Provincial Corridor; The municipality's average household and population growth rate is much lower than that of the Limpopo Province and the Capricorn District Municipality and should therefore be regarded as a positive aspect since there are

	Key Spatial Challenges	Key Spatial Opportunities
	<p>rate, inclusive of discouraged work seekers is 55.2% however;</p> <ul style="list-style-type: none"> ▪ A large percentage of the population has no or very little education. Hence the majority of the labour force has no or very little basic skills; ▪ 78% of the total population falls within the Low Income group of which 14.9% of the total population of the municipality, has no income whatsoever in 2011; ▪ At 31%, Government Services is the biggest contributor towards the local GDP, followed by mining at 17%. The potential relocation of the Legislative to Polokwane could impact negatively on this sector as an employer. Since 2011, the mining sector may have experienced a decline due to the downscaling/closure of the Hwelereng Mine and Zebediela Bricks. (Formal statistics to prove the decline could not be found, but consultative sessions confirmed the trend.) ▪ Unfortunately, Agriculture at 2% is the lowest contributor of the total GDP of the municipality; ▪ A large number, namely 56.8% of the population of the municipality falls within the 0 to 24 years' age group and can hence be regarded as a "bottom-heavy" age structure which will place many challenges to the municipality in terms of resources such as education, health and social services, not to mention job creation; ▪ A large percentage of the population has no or very little education. Hence the majority of the labour force has no or very little basic skills; ▪ The close proximity of Lepelle-Nkumpi and Lebowakgomo to the Provincial Capital, namely Polokwane City has disadvantages because it may cause be an outflow of capital out of municipality's area; ▪ Zebediela is identified as an Intervention Area for rural development and potential rural tourism node. ▪ There is currently no strong tourism destination area in Lepelle-Nkumpi Municipality. ▪ A weakness in the spatial analysis is that the official data available to assess the socio-economic profile, dates 2011 (Statistics SA). 	<p>municipalities which is worse off;</p> <ul style="list-style-type: none"> ▪ Mining with a GDP contribution of 17% is the second largest sector in the local economy and may hold great potential in respect of the long term prospects for the municipality. ▪ The Finance and business services, Wholesale and retail as well as Social and personal services as strong contributors of the local GDP and hold potential for the municipality over the medium to long term and should be exploited further; ▪ There is a declared CRDP area at Ward 5, located in the central Western area of the municipality close to the Magatle settlement which should be reserved for integrated rural development and upgrading of infrastructure. ▪ The Zebediela area and Mafeke area hold potential as Rural Tourism Nodes. ▪ The Zebediela area holds potential for mixed use development; ▪ The close proximity of Lepelle-Nkumpi and Lebowakgomo to the Provincial Capital, namely Polokwane City has advantages which include access to specialised services such as medical, employment opportunities for residents of Lepelle-Nkumpi; ▪ The City of Polokwane is identified as the provincial logistics hub with proposed road, freight and passenger routes identified towards Lebowakgomo/Zebediela. The interaction and linkage is foreseen to increase. ▪ Tubatse and Fetakgomo are prioritised Mining Towns, and Tubatse is also identified as a Special Economic Zone with government focussed interventions in these areas. Lepelle-Nkumpi may benefit from increase movement patterns through the municipal area to these adjacent municipalities, whilst it could serve as a residential area for labourers in these mining towns/municipalities. ▪ There are potential expansion opportunities of platinum mines at Mogalakwena (Platreef Resource) that may in future result in stronger movement patterns between Lepelle-Nkumpi and Mogalakwena areas, as well as stronger movement between Mogalakwena and the platinum mines in Tubatse. ▪ Potential economic opportunities include the planned retail facilities in the Lebowakgomo CBD, the potential new mine at the Olifants River, and proposed mixed use development in Zebediela. A number of local economic opportunities were also identified in the LED Strategy and include the following: <ul style="list-style-type: none"> ▪ The transfer of land to local communities could create opportunities for development of the land for farming enterprises, or tourism- related enterprises. ▪ The development potential of the agricultural sector is contained in the expansion of the production of existing products, particularly citrus, vegetables and livestock.

	Key Spatial Challenges	Key Spatial Opportunities
		<ul style="list-style-type: none"> ▪ Agro-processing and cluster development: ▪ Tourism development, especially the potential merging and commercialisation of existing reserves. ▪ Retail and mining support services due to central locality. ▪ Establishment of a Fresh Produce Market ▪
Build environment	<ul style="list-style-type: none"> ▪ There are currently no urban edges delineated for the settlement areas to direct their future growth direction. Municipality should delineate proper Urban Edges for all settlements in order to promote sustainable human settlement and compact urban settlement form; ▪ Ensure proper control of development in order to eliminate the phenomena of informal settlements and expansion of residential areas without proper sanction by the municipality; ▪ Municipality's Land Use Scheme is old and should be reviewed within the coming five years ▪ A high level of service backlogs is a challenge, especially water and sanitation. Introduce systems that ensure the future provision of water and sanitation systems which can accommodate the desired growth; ▪ 64% of the land in the municipality is public owned land, and only 30% is privately owned land. The Municipality is restricted by only owning land in Lebowakgomo for development purposes. ▪ A total of area of 93,485ha or 37% of the total area of land within the municipal area is under land claims and it may impact on the physical as well as economic development in the municipal area. ▪ The industrial area (IA) is under-utilised and maintenance of services inadequate. Ownership is in the form of lease agreements with LEDA as land owner. The municipal owned industrial area at Extension J is vacant, unserviced and locked by unresolved land ownership disputes. ▪ The availability of the vacant business erven in Lebowakgomo, is also subjected to resolving land ownership issues. ▪ Communities have access to hospitals according to health standards, but evaluation of access to primary health identified a number of settlements with inadequate accessibility. ▪ The housing demand/backlog is relatively low at approximately 3000 units; ▪ The Groothoek, Specon and Mphahlele water schemes and settlements in the central parts of the municipal area is expected to have water deficiency within 5 to 10 years. 	<ul style="list-style-type: none"> ▪ Proper planning and development guidelines were developed for the Lebowakgomo Town and District Growth Point in order to provide for a wide range of land uses, including proposals for residential development in order to provide in a wide spectrum of housing typologies; ▪ There is the potential to attract industrial development associated with the Dilokong Provincial Corridor between Burgersfort and Polokwane as well as other industrial uses possibly associated with agricultural production/ packaging. In addition thereto, there are initiatives underway to investigate the revitalisation of the industrial area; ▪ There are large vacant erven in Lebowakgomo CBD and surrounding the CBD that could be released for development if the land ownership issues are resolved. ▪ Well-located land has been identified north of Lebowakgomo, for acquisition by the Municipality. ▪ There is a need for community facilities in the Mogoto cluster such as a stadium, community hall, police stadium and fire station, based on CSIR standards. ▪ There are 4,181 housing opportunities in Lebowakgomo. ▪ The R37, R518 and R519 is strategically located and provides opportunity for movement of people and goods, not only within the municipal area, but also to adjacent cities and town, such as Polokwane and Mokopane. These roads are included in Provincial Public Transport Planning as priority routes for bus and freight transport. The plan also includes a future passenger rail link to Zebediela as a proposal. The increase in the significance of the roads links, associated increase in traffic volumes, will also increase economic opportunities along the routes; ▪ Due to the strategic locality of Lebowakgomo in respect of Polokwane, Tubatse and Mogalakwena, it holds potential to be a preferred residential area provided it offer quality and safe living environments. In addition thereto, the relative young population profile create the opportunity to provide educational and recreational facilities, as well as higher educational and training facilities that offer skills required in the surrounding mining environments. ▪ The Mafefe area holds great potential for tourism due to its location in the mountains and relatively close to the R37 Provincial Corridor.

3.5. Spatial Development Frameworks

Spatial Development Frameworks are frameworks that seek to influence the overall spatial distribution of current and future land use within a municipality in order to give effect to the vision, goals and objectives of the Municipal IDP

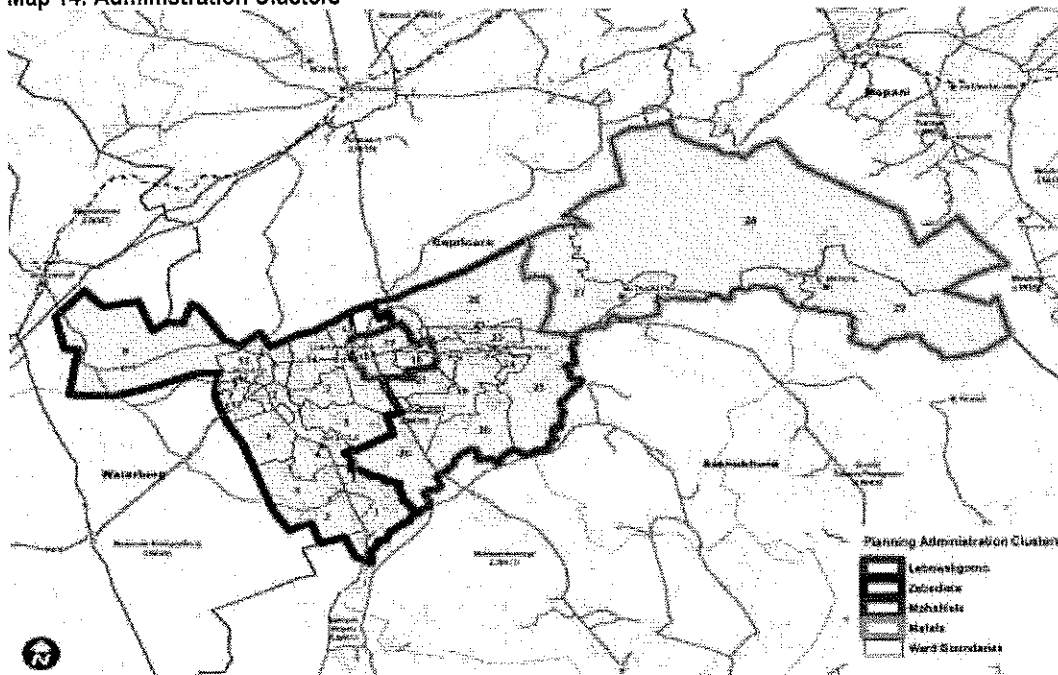

3.5.1. Administrative Clusters

For purposes of this SDF the municipal area is divided into four Administrative Clusters. It is based on the municipal wards and includes the following, namely:

- Zebediela Planning Administration Cluster (Wards 1-14);
- Lebowakgomo Planning Administration Cluster (Wards 15-18);
- Mphahlele Planning Administration Cluster (Wards 19-26 & 30);
- Mafefe-Mathabatha Planning Administration Cluster (Wards 27 -29).

These clusters can be used for public participation, IDP purposes and ward planning purposes.

Map 14: Administration Clusters

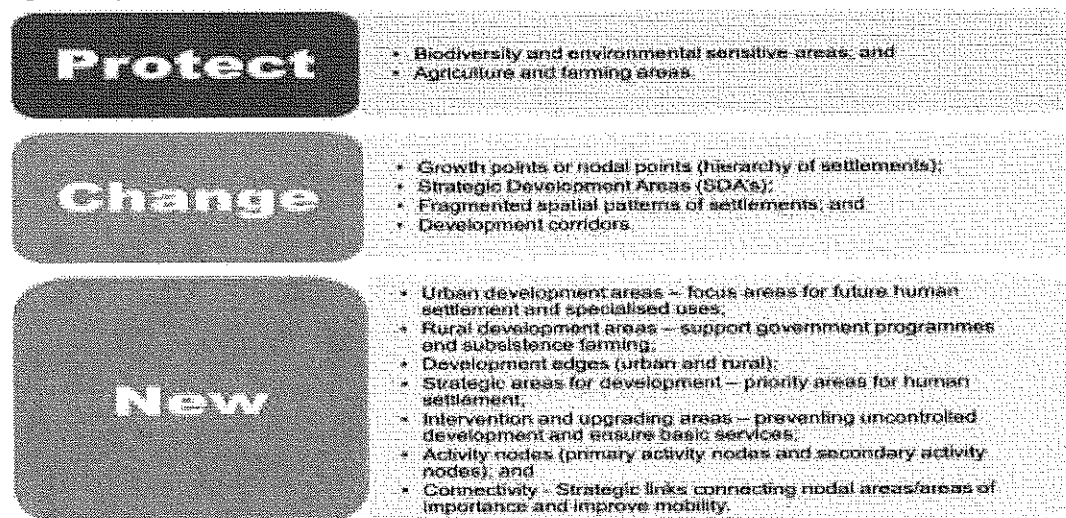

3.5.2. Vision Statement

Short and medium term vision:

To develop spatial hierarchy development areas for the Municipality with linkages to the broader region, encouraging integration, environmental and socio-economic sustainability, and wherein the residents have adequate access to a quality of life.

Figure 1. Spatial strategies

3.5.3. The spatial plan therefore deals with or includes the following:

- Areas for biodiversity protection and major areas for tourism potential. These areas are "no-go" areas for some forms of development; excluding uses associated with the protection of the biodiversity and tourism etc. the area is demarcated as the **Environment Protection and Tourism Zone (EPTZ)**.
- Areas where commercial and game farming activities take place, and are classified as the **Agricultural and Farming Zone (AFZ)**.
- Nodal points or growth points which represent the areas for **urban development (urban development area)** for human settlements where the largest spectrum of specialised land uses should be focused;
- **Rural development area** which represent rural settlements and areas between these settlements utilised for subsistence farming. These areas form integral part of the national governments CRDP initiatives;
- Restructuring of fragmented spatial patterns of settlements and/or precincts by provision of:
 - The **development edges**;
 - Directions of growth and/or areas of **future expansion** - these should be areas which should be reserved for long term human settlement/urban development, forming a vision of the urban area over the long term (10-30 years).
 - **Strategic Development Areas (SDA's)**; The SDA's described herein and depicted in the Spatial Development Framework are the main focus areas for the future development of residential areas (housing) and expansion of townships. These SDA's represent the areas where integrated housing developments projects should be focussed.
 - **Upgrading Intervention Areas (UIA's)**; are the areas where immediate intervention is required by the municipality/authorities in order to ensure sustainable human settlements and give effect to the envisaged spatial form of the municipality over the medium to long term. The identified UIA's are currently areas recognised by uncontrolled human settlements or improper planned areas in the vicinity of the Lebowakgomo DGP, namely:

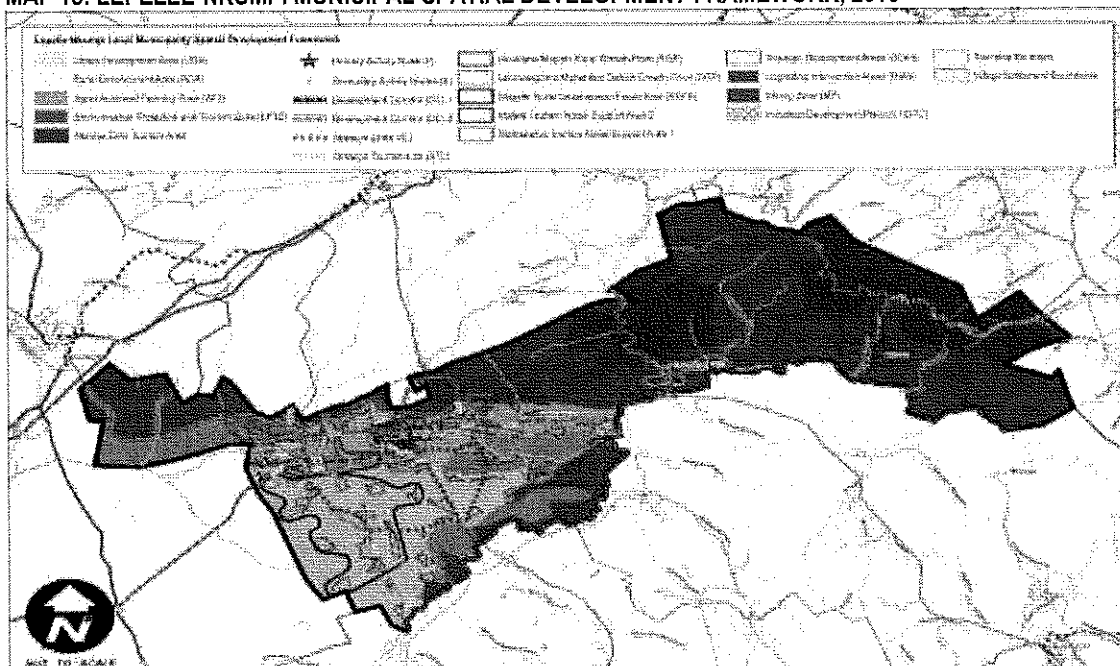

UIA 1 located west of Lebowakgomo B and north adjacent to the provincial Road R518;

UIA 2 located south of Lebowakgomo F and G;

UIA 3 located west of Lebowakgomo F and south adjacent to the provincial road R518.

- **Development Corridors (DC)** providing connectivity and opportunity for development between nodal points and routes of greater importance, consisting of:
 - Local Activity Corridors
 - Activity Spines;
- **Strategic links (SL)** providing connectivity between nodal points and other land uses.
- **Activity Nodes** providing community services (business nodes) and land uses to resident communities in support of their basic and specific needs throughout the human settlements (development edges) in the municipal areas

MAP 15: LEPELLE-NKUMPI MUNICIPAL SPATIAL DEVELOPMENT FRAMEWORK, 2016

3.5.4. HIERARCHY OF SETTLEMENTS

Hierarchy of Settlements	1. Urban Development Areas	1.1. Lebowakgomo/Mphahlele District Growth Point
		1.2. Moletlane/Mogoto Municipal Growth Point
	2. Rural Development Areas	2.1 Magatle Rural Development Focus Areas
	3. Rural Hinterland and Farms	3.1. Magatle Rural Hinterland Villages
		3.2. Mphahlele Rural Hinterland Villages
		3.3. Mathabatha/Mafefe Rural Hinterland Villages

Urban Development Areas

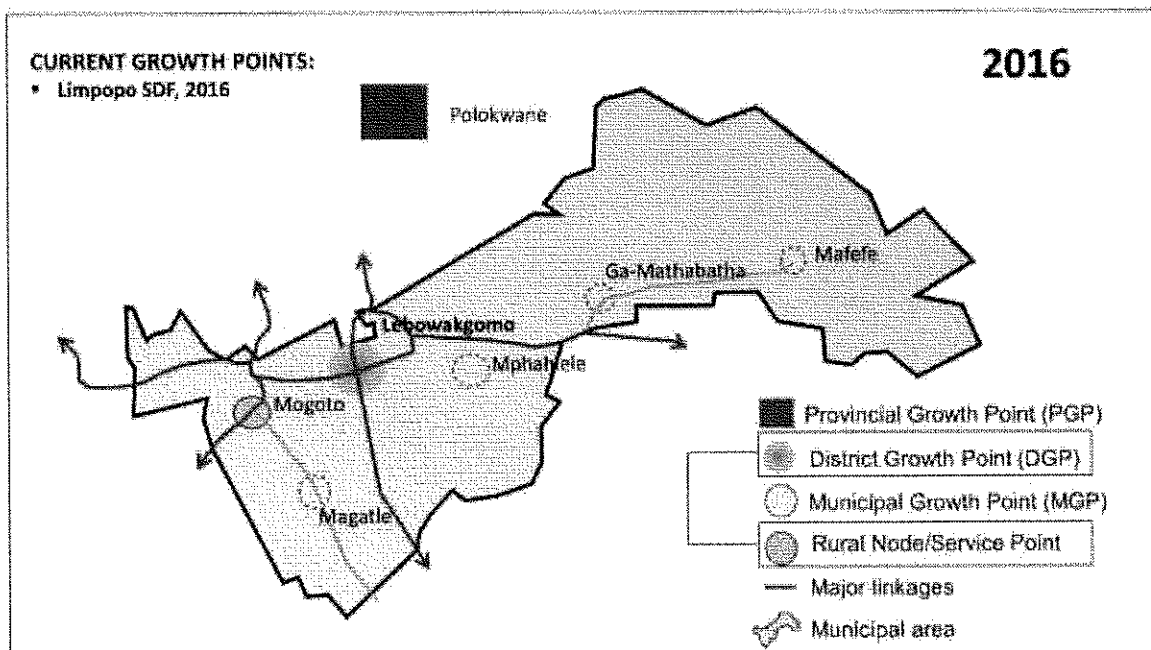

- The Lebowakgomo-Mphahlele District Growth Point (DGP) and;
- The Moletlane/Mogoto Rural Growth Point (RGP)/Service area

Rural Development Focus Areas

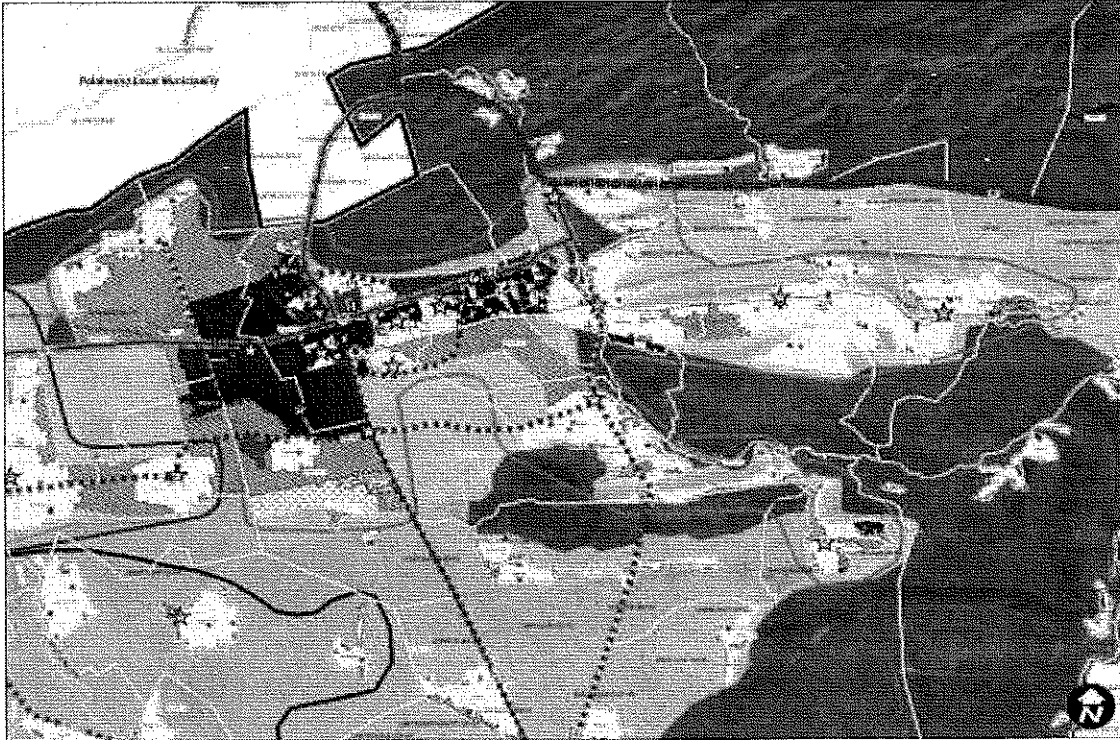

Magatle Rural Development Focus Area (RDFA).

Rural hinterland villages and farms

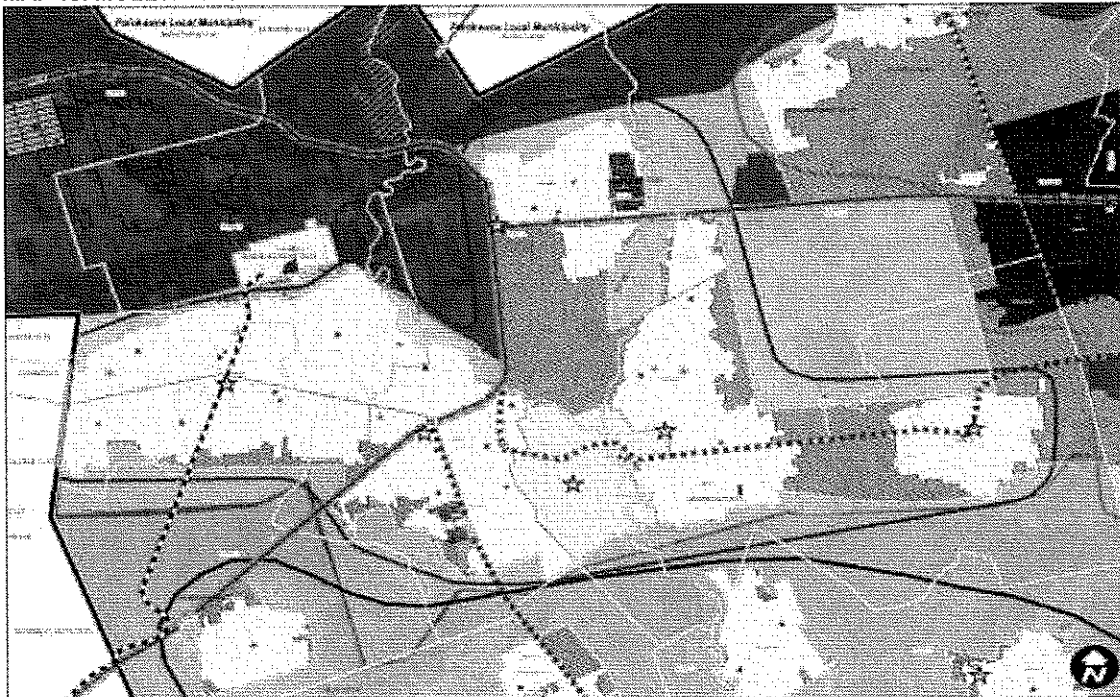

MAP 16: HIERARCHY OF SETTLEMENTS

MAP 17: LEBOWAKGOMO/MPHAHLELE DGP PROPOSALS

MAP 18: MOETLANE/MOGOTO RGP PROPOSALS

3.6. SPATIAL PLANNING SWOT ANALYSIS

STRENGTH

- Property rates by-laws are approved and promulgated
- Rates policy and tariffs are in place to allow municipality to bill and collect taxes
- There is an approved valuation roll which is being updated as required
- Council has recently reviewed its Spatial Development Framework
- SPLUMA by-laws is approved and promulgated
- Lebowakgomo is declared District Growth Point
- Building regulation by-laws are approved and promulgated
- Building inspectorate unit is established and functioning

B.P. *LA*

OPPORTUNITIES

- Revenue enhancement
- Township expansion
- Geographic location (proximity to Polokwane and other Provincial Growth Point municipalities./ towns)
- Investment attraction
- Quality of the buildings

WEAKNESS

- Shortage of staff and resources
- Outdated LUMS
- Enforcement of by-law
- Lack of GIS
- Shortage of staff and resources

THREATS

- litigation
- Uncontrolled land usage
- Land invasion
- Land claims
- Inadequate infrastructure hampers development
- Non compliance during construction of buildings presents a risk of buildings collapse and loss of lives

B.P.

CHAPTER 4: ENVIRONMENTAL, SOCIAL AND ECONOMIC ANALYSIS

4.1. ENVIRONMENTAL ANALYSIS

Local Government in South Africa has a key role in addressing social and economic needs of communities while ensuring that the resource base upon which life depends is conserved and well managed. Planning in South Africa should as such aim to use scarce resources and limited capacity wisely, and to re-orientate approaches and management tools, so as to achieve a greater level of equity, service provision and sustainability in the country. Local government is important in this regard due to localized nature of many environmental problems and concerns.

Municipal objectives and strategies can be summed as responding to the dire needs for reduction of unemployment and poverty, provision of infrastructure and services and compliance with environmental management legislation and use of environmentally friendly technology. Municipality has an Environmental Management Plan compiled and approved in 2010 in line with NEMA. The EMP is scheduled for review in 2020/21.

4.1.1. The following are major environmental risks within Lepelle-Nkumpi Municipality:

i. Deforestation: Deforestation is one of major environmental problems affecting most areas.

ii. Overgrazing: The major influencing factor in this regard is overstocking by those practicing farming and what is termed the Tragedy of the Commons i.e. it is the situation whereby no one takes responsibility on the piece of land they all use for grazing;

iii. Erosion: Erosion is another of environmental problem that affects the larger part of the area. Its effects and occurrences are very high compared to the rest. The major causes of these conditions are overgrazing and deforestation.

iv. Illegal occupation of land and indiscriminate change in land-use: Unplanned settlements have a major negative effect to the environment. The major causes of urban sprawl or unplanned settlements are poverty/unemployment, population growth and urbanisation;

v. Poaching: Poaching is very rife in areas such as Lekgalameetse;

vi. Asbestos Pollution: Some areas of Lepelle-Nkumpi are subjected to asbestos pollution, which has detrimental effects on the lives of people. However, its magnitude is medium as most of the mines had been rehabilitated;

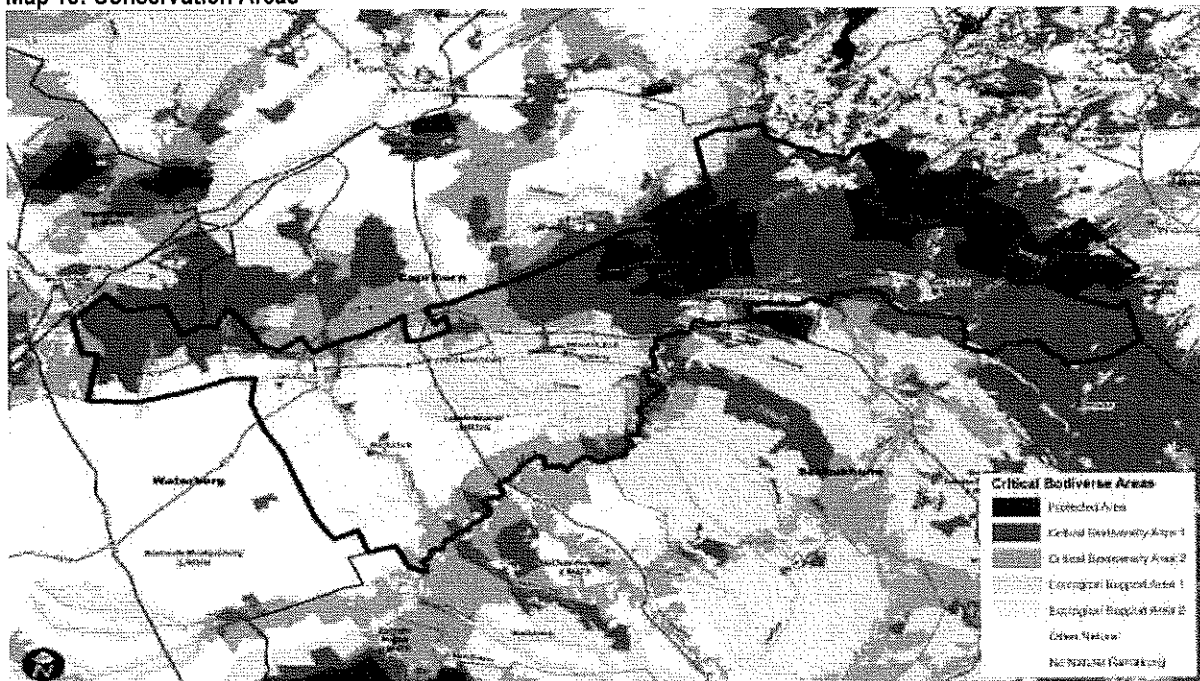

vii. Uncontrolled Fires: Uncontrolled fires are another element of concern as far as the environment is concerned. The major areas affected by veld fires are the Strydpoort Mountains.

viii. Natural and man-made disasters;

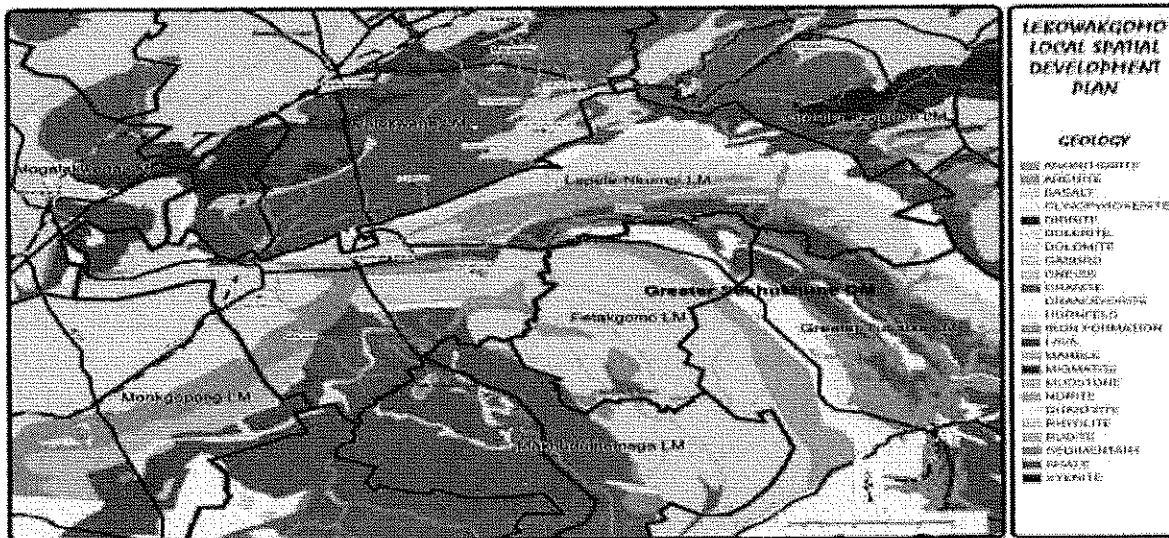

ix. Waste disposal: Only 21% of households has access to refuse removal services

x. Alien plants: Some parts of the municipality are infested with alien plants

Map 19: Conservation Areas

Map 20: Geology

4.1.2. Climate Change and global warming

Climate change is a long-term shift in the climate of a specific location, region or planet. The burden on municipalities will grow because of the expected increases in natural disasters, water scarcity and disease, and reduced agricultural production and food security.

The effects of extreme changes in runoff due to climate change include the following:

- Increased erosion and sedimentation, causing loss of fertile topsoil and reductions in the fertility and quality of agricultural produce as well as disruptions in aquatic ecosystems.
- Increased transportation of water pollutants (petroleum and hazardous substances/chemicals, herbicides, fertilisers and sediments) through surface water, groundwater and soil systems leading to human health risks, contamination of drinking water, ecosystem disturbance and aesthetic impacts on water resources.
- Increased flooding or drought, resulting in loss of life, livelihoods and assets, damage to infrastructure, contamination and/or limitation of water supplies, loss of crops, and community displacement.

Adaptation interventions important to municipalities include the following:

- Sustainable water resource use and management including catchment management.
- Maintenance and climate-resilient restoration of ecosystem services.
- Sustainable farming systems including integrated crop and livestock management.
- Community-based forestry and diversification of livelihood skills.
- Climate resilient forestry options.
- Climate advisory services and early warning systems for extreme weather events.
- Fire mitigation including burning fire breaks and reactive fire fighting.
- Climate change integrated into agricultural curricula.
- Integrated water use planning.
- Integrated, simplified and unambiguous policy and effective governance systems.
- Sustainable urban expansion including, where possible, ecosystem-based solutions.
- Awareness, knowledge and communication on climate change and adaptation.

See *Climate Change Analysis under Cross-Cutting Issues* in subsequent chapters here below.

4.1.3. ENVIRONMENTAL MANAGEMENT SWOT ANALYSIS

STRENGTHS

- There is an approved Environmental Management Plan (EMP)
- Council has also approved an Environmental Code of Conduct for Service Providers
- Municipal Environmental By-laws are also approved and promulgated

WEAKNESSES

- Lack of open spaces management
- Lack of protection against destruction of natural resources (including fauna and flora)
- Lack of management and monitoring of Air Quality
- Understaffing
- Outdated Environmental Management Plan

- Outdated Environmental Municipal By-laws

OPPORTUNITIES

- Industries' self-regulation in relation to environmental compliance
- Greenest Municipality Competition
- Funding from environmental agencies/ donors
- ECO schools programme
- Tourism attraction

THREATS

- Not being able to get water services authority/ provider status
- Loss of productive soil due to illegal small scale mining
- Collapse of buildings/houses due to soil instability caused by illegal sand mining
- Loss of lives due to un-rehabilitated borrow pits
- Invasive and alien plant species
- Asbestosis disease
- Construction projects extracting water from rivers
- Environmental contamination

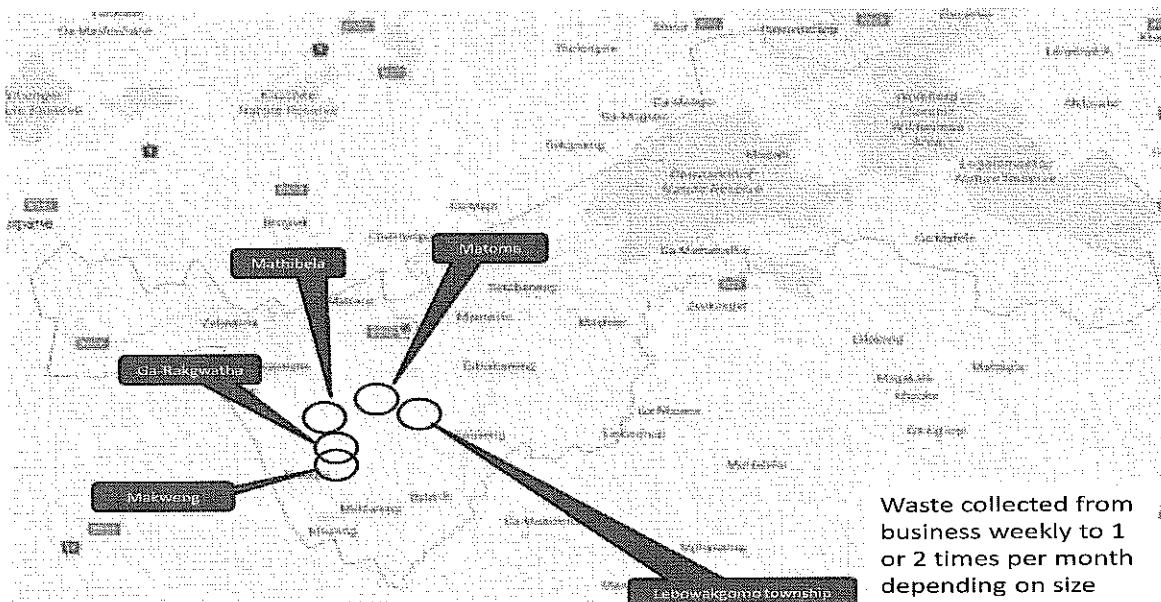

INTERVENTIONS

- Review of planning documents (including EMP and By-Laws)
- *Establishment of Environmental Management Framework (EMF)*
- *Establishment of climate change adaption committee*
- Filling of critical posts as per approved organogram

4.2. WASTE MANAGEMENT

According to Stats S,A's Community Survey 2016 results, a mere 22% of households in Lepelle-Nkumpi have access to solid waste disposal service. These refuse removal services are being provided by municipality at Lebowaikgomo Township and four rural villages of Makweng, Matome, Mathibela and Rakgoatha. A licensed landfill site has been built by the District and is, however, to be operated, managed and maintained by Lepelle-Nkumpi municipality.

Map 21: Waste Collection Points

Data Source: Community Survey 2016

Municipalities are required to compile an IWMP in accordance with **Section 11 (4)(a)** of the National Environmental Management: Waste Act (NEM:WA). IWMP for Lepelle- Nkumpi Local Municipality (LNM) was developed first in 2005 and reviewed in 2017.

Figure 2. The Aims of an Integrated Waste Management

4.2.2. Waste Generation

Table 19: Estimated tonnes domestic waste generated within the LNM based on population figures

Income bracket	No. of people	Tons generated/ day/ income bracket group (tons/year)
R0 - R76,400	213,534	82.0
R76,401 – R1,228,800	16,354	22.2
R 1,228,801 +	460	0.6
TOTAL		104.7

38,214 tonnes of domestic waste is generated per year in LNM

4.2.3. Waste Minimisation:

Recycling

- No formal municipal recycling programmes
- 15 recycling companies and 21 waste reclaimers are registered on LNM database.
- LNM provides training and PPE to private recyclers.
- Approximately 199 tonnes of waste/year is recycled at Lebowaikgomo landfill site (2.18% of recyclable stream)

Five cleaning co-operatives, duties include:

- Litter picking
- Bush clearing
- Door to door collection service
- Public Awareness campaigns

Lebowaikgomo buy-back centre

- Waste management license application underway

- Negotiations underway to purchase the land
- Funded by DEA

4.2.4. Table 17: Type of refuse disposal

Type of refuse disposal	Household percentage (%)		
	LNM	Polokwane LM	South Africa
Removed by LA / private company at least once a week	20.5	44.4	62.1
Removed by LA / private company less often	0.6	0.7	1.5
Communal refuse dump	0.8	1	1.9
Own refuse dump	68.4	49.9	28.2
No rubbish disposal	9.1	3.2	5.4
Other	0.6	0.7	0.9

4.2.5. Waste Management Facilities

Landfill sites:

- Permitted in 2011
- Used for general waste disposal
- Hazardous waste and HCRW observed on site
- Lebowakgomo waste disposal site and recycling facility and recycling centre
- Lebowakgomo A dump site (closed and rehabilitated) and Lebowakgomo B dump site (closed, not rehabilitated)

Table 18: Waste Disposal Tonnages- Lebowakgomo landfill site

Waste Category	Monthly Average (tons)	Annual Total (tons)
General Waste	390.43	4,685.22
Business Waste	67.50	809.97
Mixed Waste	225.77	2,709.27
Industrial Waste	0.93	11.14
Garden Waste	0.95	11.41
Clean Builders Rubble	159.95	1,919.41
Sorted Recyclables	7.75	61.98
Total	462.85	10,208.40

Transfer Stations:

- One transfer station is constructed at Mathibela township

Waste Collection Service: Fleet

- 4 compactor trucks – (at least 1 in poor condition)
- 1 skip truck
- 1 flat deck (skip)
- 1 grab/ tipper truck

Hazardous and Health Care Risk Waste

- No hazardous waste facilities in LNM
- HCRW generated by:
 - Provincial Hospitals: Lebowakgomo and Zebediela
 - Provincial clinics
 - Private surgeries and clinics
- HCRW from government hospitals and clinics is collected by Buhle Waste Management that is appointed by Provincial Department of Health.

4.2.6. WASTE MANAGEMENT SWOT ANALYSIS

STRENGTHS

- Licensed Landfill
- Adequate funding
- Reviewed IWMP was approved by council during 2016/17 financial year

Handwritten signatures and initials: B.P., LA

WEAKNESSES

- Aged waste removal fleet
- Outdated planning documents
- Understaffing
- Lack of enforcement of By-laws
- No cost recovery on waste removal services rendered
- Poor roads conditions hamper proper access of waste collection trucks which provide the services
- Unavailability of land for construction of waste management facilities

OPPORTUNITIES

- Revenue collection
- Funding is available from government departments/ entities
- SMME support and development for waste recycling/ reclaiming activities

THREATS

- Non-payment of waste collection services by consumers
- Illegal dumping
- Poverty level increases
- Diseases

4.2.7. WASTE MANAGEMENT INTERVENTIONS

Intervention Area	Objective	Targets:
Internal Management and Planning	Ensure the waste department is sufficiently staffed and capacitated to fulfil its waste management mandate and that the appropriate planning is executed.	<ul style="list-style-type: none">• 10% reduction, annually, in the number of vacant posts• Develop a training plan with proposed dates for training for all staff in the revised organogram.• All technical staff to attend a waste training course, as appropriate, and to be revised on at least a 5-year cycle.• Document the roles and responsibilities.• Director is WMO.
Waste Information Management	Management of waste information in a manner that makes it accessible and useful, and that complies with the Waste Information Regulations.	<ul style="list-style-type: none">• Establish an appropriate WIS by 2017/18.• Report quarterly on the SAWIC.• Ensure waste information from of Lebowaqomo Landfill is reported as part of WIS.• Undertake at least one characterisation exercise of domestic waste stream in the LNM, annually.
Enforcement of by-laws and Monitoring	Raise public awareness of the waste management by-laws, to enforce them appropriately and thereby reduce illegal dumping in the LNM area	<ul style="list-style-type: none">• Revise waste management by-laws to allow for waste enforcement, by end of 2017/18 financial year.• Develop an enforcement plan and system for maintaining electronic records of enforcement actions.• Appoint one waste ranger.• Undertake a dumping hotspot assessment and update this annually. The locations and size of the hotspots are to be mapped to determine clean-up costs and prevention actions.• Reduce the number of hotspots by 10% annually over the next 5 years.• Undertake an annual review of progress against the IWMP implementation plan and compile a progress report.
Waste Minimisation	Create an enabling environment for recycling and monitor it	<ul style="list-style-type: none">• Undertake a planning exercise to determine where best to establish recycling drop-off centres.• Provide at least one recycling drop-off facility in Lebowaqomo by 2018/2019.• All future transfer stations to have recycling drop-off facilities.
Waste Collection	To provide a reliable weekly collection service in urban areas and to continuously expanded waste collection services into the peri-urban and rural areas as feasible.	<ul style="list-style-type: none">• Identify all problem areas within its municipal jurisdiction, where waste management services are insufficient, and then document a plan for expanding collection systems (likely to be communal skip) to the rural areas.• Develop a vehicle maintenance and replacement roster to

Intervention Area	Objective	Targets:
Waste Transfer and Disposal awareness	There is a need to improve waste facilities in the LNM. At present the LNM is transporting waste from across LNM to Lebowakgomo Landfill Site. As a result the transportation costs are high.	<ul style="list-style-type: none"> ensure waste management vehicles remain operational. Complete a transfer station feasibility / masterplan report by end of 2018/19 that will reduce transportation costs. Construct a second transfer station by 2020. Complete transfer station at Mathibela in 2016 (complete). License and rehabilitate the Lebowakgomo A and Lebowakgomo B dumpsites by 2020.
Waste Management Awareness	To ensure a programme of ongoing waste awareness campaigns in LNM area.	<ul style="list-style-type: none"> Establish an annual programme of awareness campaigns at the beginning of each year. Undertake a minimum of 4 awareness interventions per year.
Finances and Tariffs	To ensure that residents and businesses are charged in a fair manner, according to the service they receive	<ul style="list-style-type: none"> Undertake a full review of tariffs charged and collections services delivered to ensure that businesses are not undercharged. Repeat every 5 years Undertake a full cost accounting exercise for waste management, by 2018 Include the IWMP targets into the municipality's IDP by 2021 to ensure that sufficient budget can be allocated to the waste management services department

OTHER INTERVENTIONS

- Compilation of waste management study
- Filling of critical posts as per approved organogram

4.3. SOCIAL ANALYSIS

4.3.1. INTEGRATED HUMAN SETTLEMENT

A very high percentage of households (95%) in the municipal area are accommodated in formal dwellings despite the rural nature of the area. The housing backlog is estimated at 3000 houses. The chart here below depicts the types of housing structures people are accommodated in, as per Community Survey results;

Table.20: Distribution of households by types of main dwelling- 2001, 2011 and 2016

Type of Facility	Formal Dwellings			Traditional Dwellings			Informal Dwellings			Flat/Apartment and Townhouses	Cluster House in Complex	Formal Backyard Dwelling	Other
Year	2001	2011	2016	2001	2011	2016	2001	2011	2016	2016	2016	2016	2016
Lepelle-Nkumpi	45 513	56 429	51293	4 439	1 495	2717	1 293	1758	2452	70	775	2043	2497

Total Households	51 245	59682	61305	51 245	59682	61305	51 245	59682	61305	61305	61305	61305	61305

Data Source: Community Survey 2016

There is a very strong relationship between housing, land use and economic development. Large portion of land in the municipal area is in the hands of traditional leaders and development paths there cannot be fully determined by local government. Very little can be done in these areas to ensure that land is available for housing developments and other economic activities where there is a need and where the SDF and LED strategy propose that they should go.

Housing Chapters were compiled for all municipalities during 2009, including Lepelle-Nkumpi. However, the Municipality intends to update its Housing Sector Plan so that it aligns with the NDP and MTSF. CoGHSTA compiled a Provincial Multi-year Housing Development Plan 2014 – 2019. Municipality is not prioritised in the near future for subsidies for informal settlement upgrading, CRU, social housing, PHP or other rental stock. However, the municipality is included for IRDP prioritisation in respect of the housing projects.

The tenure status and dwelling types comparing the trend between 2001 and 2011 show that the majority of households own their houses whilst rental tenure increased over the period. It could illustrate the potential of Lebowakgomo to be a place of stay for people working in adjacent urban nodes (Polokwane, Burgersfort and Mokopane).

Bp.  LA

The housing demand, according to the Limpopo MYHDP 2014-2019 is estimated at 2668 units. It is indicated in the plan that Lebowaikgomo town has the potential to accommodate a total of 16,703 housing units for future housing development. This can be accommodated as follows,

- Vacant proclaimed stands (existing potential) - 4,155 housing units;
- Infill development - 4,155 housing units;
- Expansion areas - 8,355 housing units.

The Housing Development Agency (HDA) assessed the following projects/area for the development of housing opportunities during 2015/16. The interventions or investment required to address the projects are primarily infrastructure provision, as well as housing top structures. Planning processes are required in respect of Lebowaikgomo Extension H. These projects are currently included in the pipeline for IRDP subsidy in the Limpopo MYHDP 2014-2019.

Table 21: Housing Projects for the Municipality Identified and to be funded by the Housing Development Agency

Project location	Number of dwelling units	Requirements/Interventions
Lebowaikgomo B	1,342	Road network and top structures
Lebowaikgomo C	1,142	Water, sanitation, road network and top structures
Lebowaikgomo P	582	Road network and top structures
Lebowaikgomo H	293	Town planning, EIA, water and sanitation, road network and top structures.
Lebowaikgomo Q	289	Road network and top structures
Lebowaikgomo R	533	Road network and top structures
Total	4,181	

Table 22: Distribution of households with a radio, television, refrigerator, computer, cellphone, landline / telephone and access to internet- 2001, 2011 and 2016

Year	Radio		Television		Computer		Refrigerator		Landline		Cellphone		Internet	
	Number	Perc.	Number	Perc.	Number	Perc.	Number	Perc.	Number	Perc.	Number	Perc.	Number	Perc.
2001	35 759	80%	21 787	49%	631	1%	22 370	50%	4 711	11%	12 026	27%	-	-
2011	37 168	62%	44 400	74%	6 523	11%	45 518	76%	2 789	5%	51 562	86%	13 325	22%
2016	40290	66%	52704	86%	7598	12%	52258	85%	1312	2%	57292	93%	17350	28%

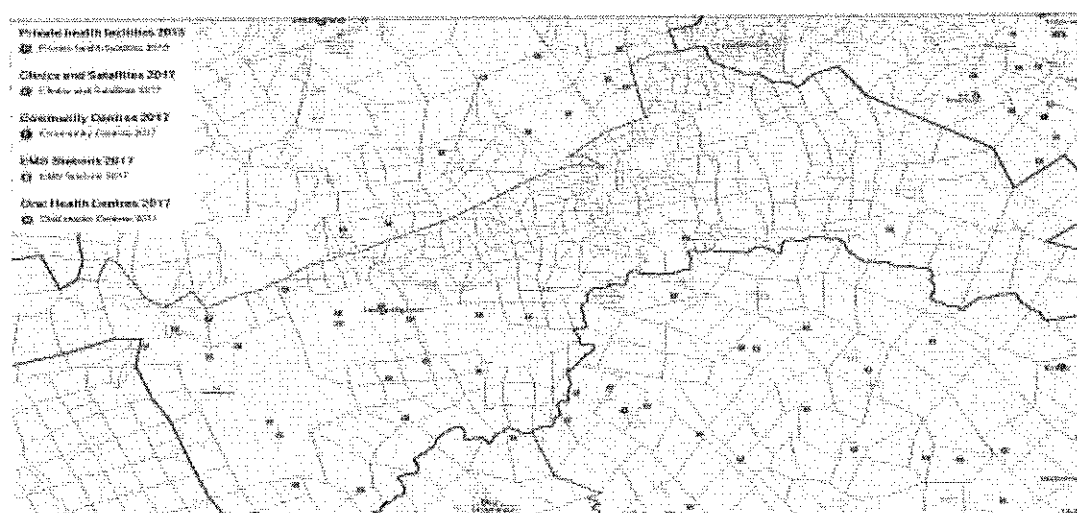

Data Source: Community Survey 2016

The table indicates households' increased access to television (86%), cellphone (93%), computer (12%) and radio (66%) and whereas household access to telephone landlines (2%) has decreased. Access to internet increased from 22% in 2011 to 28% in 2016. However, the challenge as identified during ward based community consultations is that certain parts of Mafeke and of Gampahlele villages continue to experience some problems with access to cellphone networks.

4.3.2. HEALTH AND SOCIAL DEVELOPMENT

4.3.2.1. HEALTH FACILITIES

Map 22. Health Facilities

The map above depicts mobile clinic services and the following clinics;

- Malatane
- Magatle
- Zebediela Estates
- Mogoto
- Moletlane
- Groothoek
- Rakgwatha
- Ledwaba
- Zone B
- Mamaolo/ Zone A
- Hwelereng
- Tooseng
- Dithabaneng
- Malemati
- Mphahlele
- Mashite
- Mathabatha
- Mafefe

There are 27 public health facilities within the municipality (23 primary health care clinics, 1 health centre and 3 hospitals). Lebowakgomo Hospital is a District Hospital while Thabamoo Hospital is a Provincial Tertiary Hospital dealing mainly with mental health. A private hospital is recently opened at Lebowakgomo Township.

Table.23: Health facilities

Municipal Area	Hospitals	Health Centres	Clinics (PHC)	Mobile Clinics Teams
Lepelle-Nkumpi	3	1	21	9
Capricorn District	11	4	90	

Source: Limpopo Department of Health Report-2012

4.3.2.2. HIV/AIDS AND CAUSES OF DEATHS

The AIDS-related deaths among the District Locals ranged between about 24 people and 30 people per 10 000 people in 2017, which indicates that the AIDS-related deaths for Lepelle-Nkumpi Local Municipality was at the lower end of the range, giving it a rank of 3. Amongst the District Locals, Polokwane had the most AIDS-related deaths, while Blouberg had the least AIDS-related deaths.

The AIDS-related deaths annual growth rates among the District Locals ranged between about 4,58% and 4,89%, which indicates that the AIDS-related deaths growth rate for Lepelle-Nkumpi Local Municipality was at the lower end of the range, giving it a rank of 3. Amongst the District Locals, Polokwane had the highest AIDS-related deaths growth rate, while Blouberg had the lowest AIDS-related deaths growth rate.

Table 18 shows the HIV infections on a National, Provincial and District level as well as the Municipal's HIV infections per 1 000 people. As illustrated in the table, Lepelle-Nkumpi's infection rate is lower than the district, province and the Nation. However, the rate is rather high and can be improved through the relevant interventions such as health awareness programmes.

Table.24: HIV Infections per 1 000 people at a National, Provincial and District Level 2001

	2001	2011	2017
South Africa	94	133	137

Mortality Rate, Crude Death Rate & Other Deaths

The health profile of Lepelle-Nkumpi Local Municipality indicates that the crude death rate increased slightly between 2013 and 2017 to about 11 out of every 1000 people, increasing at an annual growth rate of about 0,64%. Other deaths in Lepelle-Nkumpi Local Municipality had increased from about 8 out of every 1 000 people in 2013 to about 9 people in 2017 at an annual growth rate of 0,20%.

Table.25: Health Overview for Lepelle-Nkumpi and District Locals.

2017	Rank	Lepelle-Nkumpi	Blouberg	Molemole	Polokwane

Pulmonary tuberculosis	Pulmonary tuberculosis	Acute renal failure

Limpopo Department of Health, 2016

4.3.2.3. EMERGENCY MEDICAL SERVICES

Emergency Medical Services (EMS) refers to the treatment and transport of people in crisis health situations that may be life-threatening. There are two EMS facilities in Lepelle-Nkumpi Local Municipality. This translates into one facility for about 118 909 people and covering about 1731,723 82 km² in Lepelle-Nkumpi Local Municipality in 2016.

4.3.2.4. SOCIAL DEVELOPMENT

82828 grants are paid monthly by SA Social Security Agency (SASSA) in the municipal area, which is 21% of the total social grants issued within the district.

Table.27: Types of Social Grants Paid; Lepelle-Nkumpi and Capricorn District

Social Grant	Lepelle-Nkumpi	Capricorn District
Old Age Pension	22312	94823

Limpopo Department of Social Development, 2016

4.3.3. SAFETY AND SECURITY

4.3.3.1. PUBLIC SAFETY STRATEGY

The municipality has approved an Integrated Public Safety Strategy in 2003 whose focus covers the following areas:

- Coordination: To facilitate the development and implementation of the strategy with other sectors- inside and outside government.
- Social crime prevention: Facilitate tapping of provincial and national grants to fund crime prevention activities and crime prevention campaigns

4.3.3.2. SAFETY AND SECURITY

A crime is defined as the number of serious offenses per 10 000 population. The serious offences include crimes against a person such as assault and robbery, as well as contact-related crimes such as arson and malicious damage to property which relates to property related crime.

The number of crimes reported per 10 000 people in Lepelle-Nkumpi Local Municipality had increased from about 197 reported crimes in 2013 to about 253 reported crimes in 2017 at an annual growth rate of about 6,45%.

The number of murders reported per 10 000 in Lepelle-Nkumpi Local Municipality had increased from about 1,7 in 2013 to about 2,1 in 2017 at an annual growth rate of about 4,91%.

Table.29: Crime Overview for Lepelle-Nkumpi and District Locals

4.3.3.3. SAFETY AND SECURITY FACILITIES

There are four police stations and one permanent magisterial court within the municipality. Magatle and Malipsdrift magistrate courts sit twice a week as satellite courts of Mokerong and Thabamopo Magistrate Courts, respectively.

Table.31: Safety and Security Facilities

Location	Police Stations	Satellite Police Stations	Mobile Police Centre	Trauma Centre	Victim support centre	Magistrate's Courts	Traffic Testing Station
Lepelle-Nkumpi	4	1	-	1	-	1	1

South African Police Services is the one responsible for policing, crime prevention and public safety within the municipality. It works with Community Policing Forums and other community formations

4.3.3.4. TRAFFIC POLICE AND LICENSING

Municipality is running a licensing centre with the Provincial Department of Roads and Transport at Lebowakgomo. The aim is to finally see the entire function transferred to the municipality. There are eleven traffic officers who ensure traffic law enforcement and public road safety within the municipal area. The licensing division provides services for licensing of vehicles and drivers. There is a cattle pound where stray animals are impounded and owners penalized with a fine before they are returned, or otherwise they are auctioned to the public. The Provincial Government's Department of Roads and Transport also conducts traffic law enforcement on the District and Provincial roads.

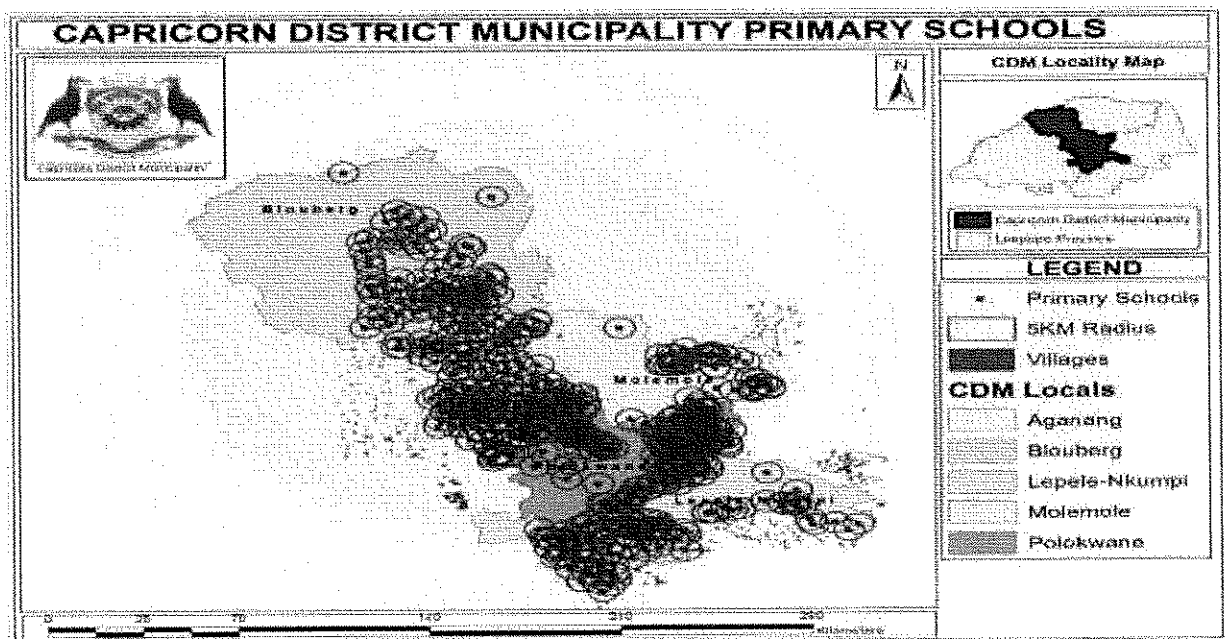

4.3.4. EDUCATIONAL FACILITIES

There are 105 primary schools, 75 secondary schools and 1 TVET College within the Municipality (Limpopo Department of Education). At the moment the "learner/educator" ratios at all levels are well within the norms of the Department of Education, i.e. 1:40 for primary schools and 1:35 for secondary schools.

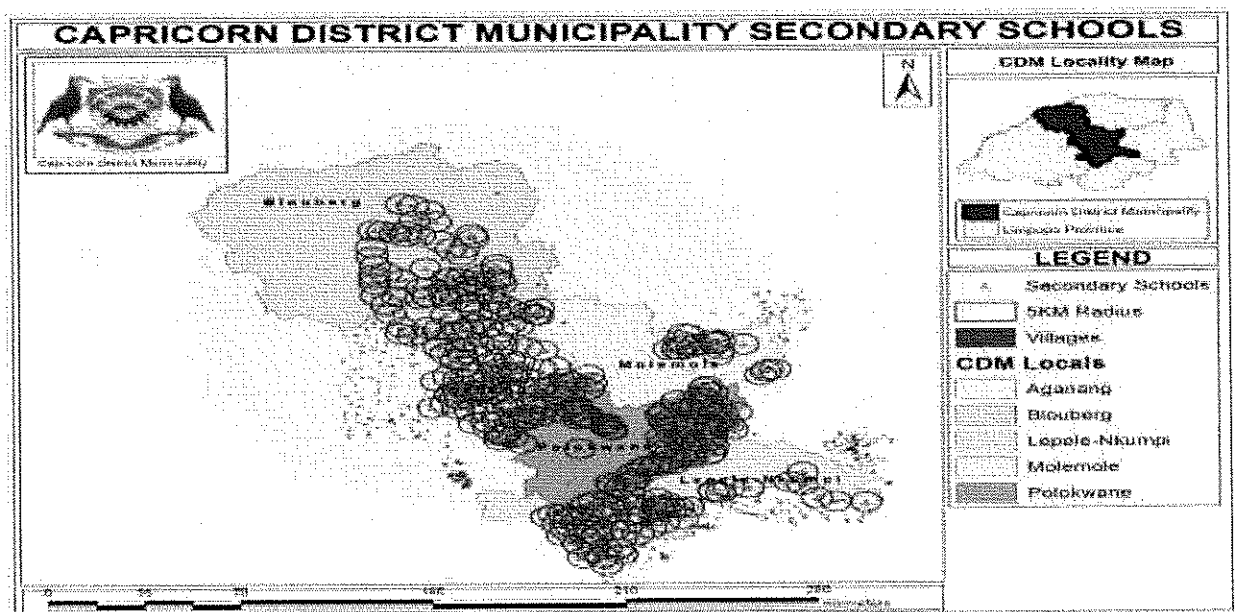

Table.32. Schools and Enrollment

4.3.5. PUBLIC FACILITIES

▪ HALLS

There are nineteen community halls in the municipality at Mahlatjane, Mogodi, Lesetsi, Dithabaneng, Majane, Mamaolo, Tooseng, Lebowakgomo Civic, Rafiri, GaSeloane, Mehlareng, Hlakano, Mogoto, Moletlane, Makweng, Madikeleng, Lenting, Hweleshaneng and Bolahlakgomo. All the municipal halls are in good conditions for use as they are mostly new, except for Dithabaneng which is showing signs of cracks on its floor and walls. Mashite, Makurung, Rakgwatha, Madisha-Ditoro and Dublin halls are nearing completion.

▪ SPORT AND CULTURE

There is a football stadium at Lebowakgomo Township with capacity to carry 10000 people. Attached to it are four tennis courts, netball court and softball diamond. Another football stadium is Nokotlou in Mafefe. Municipality has also built a softball diamond in Seleteng village. National Lotteries Board has built another stadium in Mafefe. Otherwise, most people use undeveloped grounds in various villages for sporting activities. Even so, the area boasts the presence of four softball clubs that compete provincially and a Premier Soccer League club.

Municipality has a Cultural Centre with an art exhibition area, a gym area with equipment, theatre and a museum hall at Lebowakgomo. This cultural centre is the only one in the district. Two community radio stations are operating in the area; viz: Greater Lebowakgomo and Zebediela Community Radio stations. Otherwise, people also listen to National and Regional radio stations like Thobela FM and Capricorn FM.

There are two libraries in Lebowakgomo and new one is being constructed by Province at Seleteng. Mobile library services are being provided at Mafefe and Seleteng.

▪ CEMETERIES AND PARKS

There are two cemeteries administered by municipality, which are both situated in Lebowakgomo, which include a new one after closure of the old cemetery. All other cemeteries are in traditional authority areas and are managed by communities themselves. Five parks have been developed at Lebowakgomo Zone A, B, F, R and S. Otherwise each Section of the Township has an area demarcated for Park Development.

▪ OLD AGE FACILITIES

There are two formal facilities providing services to the aged, viz; Sekutupu Old Age Home and Kopano Umbrella, which are government-run and partially subsidized, respectively.

▪ CHILD CARE FACILITIES

Table.33: Number of Child Care Facilities

Cluster	Total	%
Zebediela	29	26.61
Mafefe / Mathabatha	27	24.77
Lebowakgomo	8	7.33
Mphahlele	45	41.29
Total	109	100

The child care facilities are run by Non-Profit Organisations who receive subsidies from Provincial Department of Social Development. Municipality has started with construction of creches in 2019. The intention is to hand over these facilities to community based organizations for operation and management.

4.3.6. GUEST HOUSES AND OTHER TOURISM FACILITIES

The following facilities are available within the municipal area for tourism leisure and accommodation;

- Molopyane Guest House
- Alpha Guest House
- Mainline Lodge
- Kutu Lodge
- Master's Guest House
- The Bridge Botique Lodge
- Limpopo Entertainment
- Lucky's Lifestyle
- Molapo-Matebele Motel
- Zebediela Lodge
- Ngwanesho Guest House
- Mafefe Ivory Route
- Makapeng Picnic Site
- Patong Guest House
- Zebediela Golf Estates
- Lekgalametse Game Reserve
- Bevaarskloof Mountains
- Nkumpi dam

- Maliming Lodge
- Mafefe tourism camp

4.3.11. TELECOMMUNICATIONS AND POSTAL SERVICES

The following Post Offices exist in the municipal area;

- Chuenespoort (at Lebowakgomo Zone A)
- Lebowakgomo (at Plaza)
- Mphahlele (at Seleteng)
- Gompies (at Moletlane)
- Koringpunt (at Groothoek)
- Magatle

Capricorn District Municipality has established a free-for-all internet café at Cultural Centre for members of the public to access internet services for free.

4.3.12. PUBLIC FACILITIES SWOT ANALYSIS

STRENGTHS

- Information sources
- Availability of three libraries

WEAKNESSES

- understaffing
- Lack of physical security infrastructure (lights, fence, gate) at the Lebowakgomo and Seleteng Libraries
- Lebowakgomo library needs repairs and further upgrading (in terms of supply of sewer and ventilation systems and roof)
- Poor sewage connection at Lebowakgomom Library
- None adherence to Service Level Agreement by Provincial DSAC
- Lack of office space and communication devices

OPPORTUNITIES

- Improved culture of learning
- Revenue collection

THREATS

- Burglary
- Low turn-up of patrons

INTERVENTIONS

- Transfer of Library function to municipality
- Filling of critical posts as per approved organogram

4.4. ECONOMIC ANALYSIS

4.4.1. MACRO – ECONOMIC INDICATORS

Macro-economic indicators reflect the structure of the economy of the local municipal area and indicate the relative size of economic sectors and trends in relative sizes over time. Lepelle-Nkumpi is the second largest contributor to the district Gross Geographic Product at 13.86%; and it is the first largest contributor to mining, second largest in government, construction, retail and community services.

4.4.1.1. GROSS GEOGRAPHIC PRODUCT

Table.34: Percentage Municipal Contribution to Total GDP of Capricorn

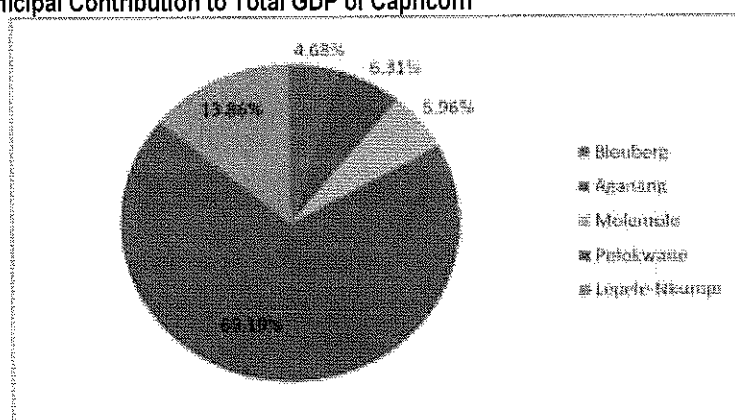

Sector	Blouberg	Aganang	Molemole	Polokwane	Lepelle-Nkumpi
Agriculture,	0.12%	0.15%	0.71%	0.69%	0.21%
Mining and quarrying	0.15%	0.09%	0.13%	1.53%	2.31%
Manufacturing	0.08%	0.22%	0.19%	2.51%	0.48%
Utilities	0.15%	1.29%	0.14%	3.44%	0.55%

Data Source: Quantec Database 2011

Chart 2: Percentage Municipal Contribution to Total GDP of Capricorn

Data Source: Quantec Database 2011

The municipality's economy can be described as diversified because all the sectors contribute more or less equally to the District Gross Domestic Product, except mining which is a little higher than the rest and transport and finance which are lower.

Table.35: Percentage Contribution towards the Sectoral Share of the GDP for Capricorn District for 2011

Sector	Blouberg	Aganang	Molemole	Polokwane	Lepelle-Nkumpi	Total contribution towards sector
Agriculture,	6%	8%	38%	37%	12%	100%

Government services	5%	5%	5%	70%	15%	100%

Data Source: Quantec Database 2011

The local economy has recorded a positive growth which compares well with District and Provincial GDP growth patterns. However, the economy's strongest sector of mining recorded a negative growth, probably due to temporary closure of the local mines.

Lepelle Nkumpi has a moderate to high potential for horticulture developments, hence farms in this area are earmarked for potatoes and seed production respectively. Grain production remains an important agricultural activity for many households in the municipality for subsistence. Though not a competitive commodity of the Province; however, it is important for achieving poverty alleviation objectives.

There are 12 irrigation schemes in the area. Lack of proper infrastructure and water use rights for communities in adjacent areas make it difficult for them to exploit the available resource (cropping land) maximally.

Polokwane and Lepelle Nkumpi Municipalities have a combined total of six Environmental Controlled Poultry Houses (ECPH's) with a total capacity of 400,000 broilers. There are many small broiler projects/ producers in the municipality. The Lebowakgomo Abattoir has a capacity of slaughtering 20,000 chickens per single shift.

Table.36: Percentage GDP Growth for year 2011

Sector	South Africa	Limpopo	Capricorn	Lepelle-Nkumpi

Data Source: Quantec 2011

4.4.1.2. Unemployment rate

The unemployment rate of Lepelle-Nkumpi is close to half of the total economically active population and is higher than those of the District, Provincial and National unemployment rate.

Table.37: Employment status for economically active population for 2001, 2011 and 2017

	South Africa			Limpopo			Capricorn			Lepelle-Nkumpi		
Year	2001	2011	2017	2001	2011	2017	2001	2011	2017	2001	2011	2017
Employed	58	70	72.25	51	61	63.04	50	63	66.62	39	52	54.31

TOTAL	100%	100%	100%	100%	100%	100%	100%	100%	100%	100%	100%	100%

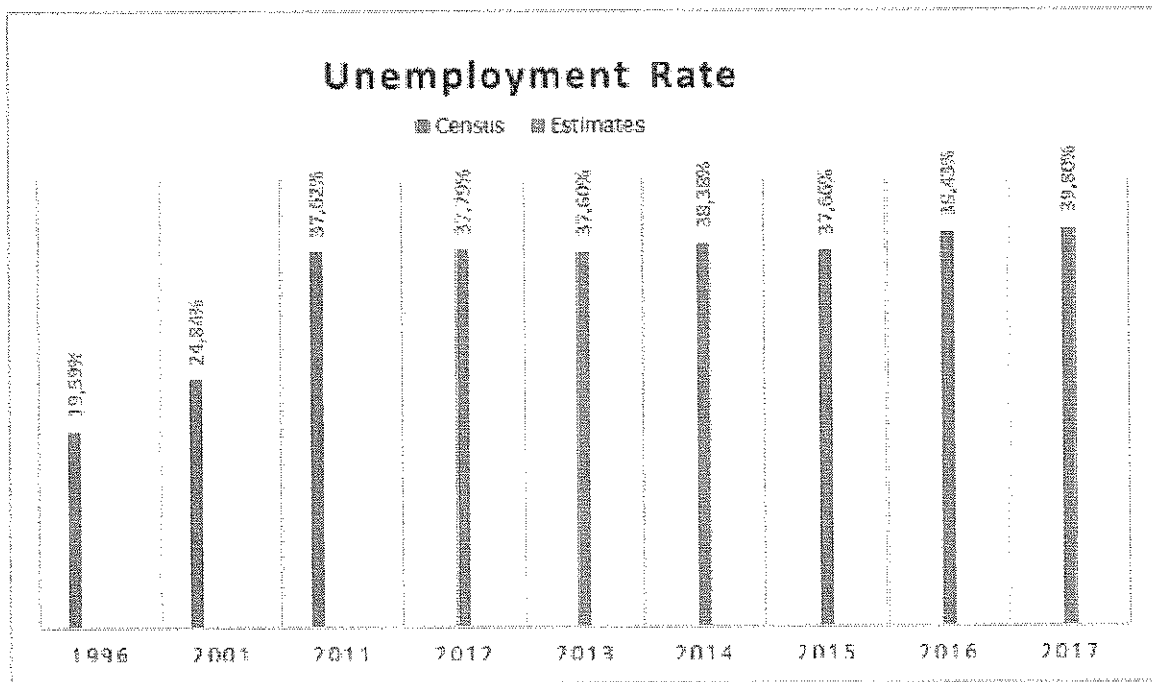

Data Source: Census 2011 and Quantec 2018

The unemployment rate for Lepelle-Nkumpi Local Municipality was about 42,96% in 2013 and 45,69% in 2017, indicating an increase at an annual growth rate of 1,55% over the period.

Figure 21 below shows the changes in the unemployment rate in Lepelle-Nkumpi between 1996 and 2017. As observed in the figure, there was an annual growth of 3.43% between the period which led to a sharp increase in unemployment to 37.62% in 2011. The unemployment rate had remained relatively steady up until 2017.

B.P.

Source: (Quantec, 2018)

4.4.1.3. Labour absorption rate

Labour absorption rate is the proportion of the working-age population, aged 15-64 years, who are employed. The labour absorption rate for Lepelle-Nkumpi Local Municipality was about 22,99% in 2013 and 24,57% in 2017, indicating an increase at an annual growth rate of 1,68% over the period.

Table.38: Labour Overview for Lepelle-Nkumpi and District Locals

2017	Rank	Lepelle-Nkumpi	Blouberg	Molemole	Polokwane

4.4.1.4. Gross Value Added (GVA)

GVA is the measure of the value added to goods and services produced in an area, industry or sector of an economy. In Lepelle-Nkumpi Local Municipality, GVA had increased from about R5 834,19 in 2013 to R6 124,28 in 2017 at an annual growth rate of 1,22%.

Map 22 shows the drive-time to areas where gross value is added. As can be seen in the map, there was better proximity to GVA on the western side of the Municipality. One of the possible reasons is that accessibility on the eastern side is limited via roads.

Map 29: Drive-time to GVA – 60 Minutes

Source: (MapAble®, 2018)

The annual GVA growth rate for Lepelle-Nkumpi Local Municipality's District Locals ranged from -0,07% to 1,71% per annum between 2013 and 2017. This indicates that Lepelle-Nkumpi Local Municipality's annual GVA growth rate was at the upper end of

the range, giving it a rank of 2 compared to the District Locals. Amongst the District Locals, Polokwane's GVA growth rate grew the most, while Blouberg Local Municipality's GVA growth rate declined the most. Table 39 summarises the GVA information provided above and provides a ranking for Lepelle-Nkumpi relative to its District Locals.

Table.39: GVA Overview for Lepelle-Nkumpi and District Locals

2017	Rank	Lepelle-Nkumpi	Blouberg	Molemole	Polokwane
GVR (R mil constant 2010 prices)	2	R 6 124,28	R2 232,64	R2 203,88	R35 947,70
GVR per Capita (R mil constant 2010 prices)	2	R 24 880,68	R 12 814, 93	R18 745,67	R54 275,35
GVR Growth Rate (2013- 2018)	2	1,22%	-0,07%	0,26%	1,71%

Source: (Quantec, 2018)

4.4.1.5. Tress index over 10 industries

The Tress index provides an indication of economic risk within an area. Lepelle-Nkumpi Local Municipality had a tress index of 56, 94 in 2017, compared to 55, 9 in 2013. This indicates that Lepelle-Nkumpi Local Municipality's economy had diversified at a rate of 0, 46% per annum and was therefore becoming more vulnerable against economic threats.

Lepelle-Nkumpi Local Municipality's District Locals' Tress index ranged from 49, 55 to 58, 56 in 2017. This indicates that Lepelle-Nkumpi Local Municipality's Tress index was at the upper end of the range, giving it a rank of 2 compared to the District Locals. Amongst the District Locals, Blouberg had the most diversified economy while Polokwane had the least diversified economy.

4.4.2. KEY ECONOMIC SECTORS ANALYSIS

4.4.2.1. AGRICULTURE SECTOR

Maize, sorghum, millet, vegetables, runner crops like watermelons, cow peas and dry beans are the main crops grown in Lepelle Nkumpi Local Municipality. The Zebediela estate is well known to produce citrus fruits and macadamia nuts. The municipality is suitable for both large-scale and small-scale livestock farming activities. The small-scale farming activities entails goats, sheep and pigs, while large stock are beef cattle and both broilers and layers are produced in Lepelle-Nkumpi.

Between 1996 and 2001 agriculture GVA increased at a growth rate of 5,025 over the period between 1996 and 2001. The period between 2001 and 2011 showed a decline in GVA at a rate of -0,50%. From 2011 to 2017 agriculture activity has slightly been fluctuating at growth rate of -0,21%. The decline in agriculture activity can be attributed to the Zebediela estate that has not been fully functional for the past years and the challenges of water that has affected the entire Capricorn district. There was a decline in employment in agriculture from 1996 to 2001 at rate of -1,48%. From 2001 to 2011 employment in agriculture further declined at a rate of -5,76% illustrating that less people were employed in the agriculture sector. However, from 2011 to 2017 employment in agriculture increased by 6,79% in Lepelle-Nkumpi. This shows that that agriculture constitutes slightly a larger proportion of the economy on a local level. The location quotient for agriculture was 0,6 in 2013 and 0,57 in 2017 compared to the provincial LQ. The LQ was 0,8 in 2013 and 0,78 compared to the district LQ in 2017. This indicates that municipality's productivity within this industry was lower than the provincial LQ and lower than the district LQ.

Agriculture Key findings and issues

- The expansion and development of citrus processing facilities will mainly benefit emerging and small-scale producers to prevent post-harvest loss and wastage (Limpopo Provincial Government, 2012)
- There is potential for the agritourism at the Zebediela Estate Farm which would be key towards tourism development
- The development and expansion of the citrus production will enable the province to compete nationally with other companies
- Most of the youths in this area are unemployed and only few youths are involved in agriculture activity

4.4.2.2. MINING AND QUARRYING SECTOR

Mining production activities increased from 1996 to 2001 at a growth rate of 4,92 during the post-apartheid period. The period from 2001 to 2011 reflected a decline in mining at a growth rate of -0,98% and further to -0,12% for the period between 2012 and 2017. Mining productivity has been on a downward scale and there hasn't been much growth in mining sector.

Table 40. Mining activities in Lepelle-Nkumpi

Mine	Location	Description
LONMIN Mine	Hwelereng	Platinum Mining

BP

LP

Mine	Location	Description
Boynton Mine	Mphahlele	Platinum Mining
Tameng Mine	Mphahlele	Platinum Mining
Aquarius Platinum Mining	Mphahlele	Platinum Mining
Slate Slabs	Mafefe, Mashadi, Komantjas, Hoegenog	Slate slabs mining
Klipspringer Mine	Zebediela	Diamond Mining
Cement Mine	Zebediela	Cement mining
Lesego Mining	Mphahlele	Platinum Mining

Employment in mining between 1996 and 2011 increased at a growth rate of 2,46% and declined between 2012 and 2017 at a growth rate of 0,87%. Employment in the sector has been on a downward scale which can be attributed to most mines adopting automated machinery and some championing green mining initiatives to preserve and protect the environment. Productivity within this industry was lower than the provincial LQ and significantly higher than the district LQ.

Mining and Quarry Key findings and issues

- Dilokong mining corridor is a key enabler for Lebowakgomo and Zebediela areas.
- Mining skills development is required to provide more support in mining initiatives.
- Illegal mining still is a challenge that is being experienced in the area.
- Funding still needs to be attained for the establishment of small-scale excavation and tile manufacturing of slate in Mafefe.

4.4.2.3. MANUFACTURING SECTOR

GVA for manufacturing increased from 1996 to 2001 at a growth rate of 1,11%, and at a growth rate of 2,05% between 2001 and 2011. It can also be noted that GVA growth for manufacturing between 2011 and 2017 declined and has been fluctuating at a growth rate of 0,65%. The manufacturing industry contributed between 1,56% to 7,12% of the competitors overall GVA in 2017, which indicates that Lepelle-Nkumpi Local Municipality's manufacturing industry's proportionate share in GVA was at the lower end of the range.

Employment in manufacturing contributed between about 2,33% in 2017. The location quotient for employment in manufacturing in Lepelle-Nkumpi Local Municipality was 1,06 in 2013 and 1,05 in 2017 compared to the provincial LQ. The LQ was 0,58 in 2013 and 0,53 compared to the district LQ in 2017. This indicates that Lepelle-Nkumpi Local Municipality's productivity within this industry was higher than the provincial LQ and lower than the district LQ. This implies that municipality has a competitive advantage compared to other local municipalities within the province and does not have a competitive advantage compared to other local municipalities in the district.

The LQ for employment in manufacturing in Lepelle-Nkumpi Local Municipality, compared to all local municipalities in South Africa, was 0,66 in 2013 and 0,66 in 2017, declining by -0,09% per annum. This indicates that Lepelle-Nkumpi Local Municipality's productivity within this industry was lower than the national LQ and had been declining.

Market Opportunities for Manufacturing

Market opportunity	Development constraints
Agro-processing	<ul style="list-style-type: none"> • Infrastructure development and rehabilitation • Inadequate technical skills • Information and technology
Mineral and beneficiation	<ul style="list-style-type: none"> • Machinery and equipment • Poor infrastructure • Weak forward and backward linkages
Industrial Park facility	<ul style="list-style-type: none"> • Industrial park facility is not operational • Lack of finance • Information and technology • Leakages in the economy (manufactured good need buying power locally)
Textile and clothing	<ul style="list-style-type: none"> • Advanced machinery • Information and Technology

Manufacturing Key findings and issues

- The processing of raw materials from mining will contribute significantly in expanding the manufacturing sector within the Municipality

Bip.

LA

- Agglomeration of mining and manufacturing activities will result in economies of scale that would increase both economic development and employment opportunities
- Poor service infrastructure at the industrial park
- The industrial area has turned into a ghost town with underutilised buildings

4.4.2.4. CONSTRUCTION SECTOR

Construction in Lepelle-Nkumpi Local Municipality was worth about R 167,44 million in 2017 and contributed about 2,73% to the overall GVA generated by the municipality. In Lepelle-Nkumpi Local Municipality, construction output has increased from R 166,46 million in 2013 to R 167,44 million in 2017 at an annual growth rate of 0,15%. From 1996 to 2001 GVA decreased at a growth rate of -1,76% and recovered in terms of performance between 2001 and 2011 at a growth rate of 4,86%. Between 2011 and 2017, the growth rate was 0,70 which was a decline from the previous periods. Employment in the construction sector between 1996 to 2001 decreased at a growth rate of -1,42%. The period between 2001 and 2011 showed an increase in terms of employment in the sector at a growth rate of 5,11%. Employment in the sector decreased between 2011 and 2017 at a growth rate of 5,03%.

The location quotient for employment in construction in Lepelle-Nkumpi Local Municipality was 0,89 in 2013 and 0,90 in 2017 compared to the provincial LQ. The LQ was 1,09 in 2013 and 1,05 compared to the district LQ in 2017. This indicates that Lepelle-Nkumpi Local Municipality's productivity within this industry was lower than the provincial LQ and higher than the district LQ. This implies that Lepelle-Nkumpi Local Municipality does not have a competitive advantage compared to other local municipalities within the province and has a competitive advantage compared to other local municipalities in the district.

Construction Key findings and issues

- Natural disasters may affect construction activities and operation of basic services infrastructure
- Construction and maintenance of Public facilities is still required
- Need for the construction of roads to improve the connectivity of Lepelle-Nkumpi and other areas

4.4.2.5. TRANSPORT, STORAGE AND COMMUNICATIONS SECTOR

The transport industry in Lepelle-Nkumpi Local Municipality contributes 6,09% to the overall GVA generated by the municipality. The transport output has increased from R 333,52 million in 2013 to R 373,23 million in 2017 at an annual growth rate of 2,85%. The figure below shows the GVA overtime for transport and communications. Lepelle-Nkumpi Local Municipality has a significantly smaller transport industry but has grown significantly faster compared to its competitors.

Transport, storage and Communications Key findings and issues

- There is need for the establishment of an effective, affordable public transport.
- Roads are poorly maintained with no specific attention given to storm water drainage in rural area.
- Proximity to Polokwane makes it easy of locals in Lepelle-Nkumpi to travel considering that Polokwane has well-established suppliers and support services which are within reach.
- Proximity to Polokwane creates the perception that there is no need for further the development of the municipal area which results in leakages out of the economy.
- The municipal area is still lagging behind in terms of signage on the road
- Revitalization of the railway line from Zebediela Citrus Estate to Johannesburg for the exportation of oranges
- Municipality is also constrained by inadequate public transport, and the bad road conditions aggravate the shortage of transportation
- Municipality is situated in a mountainous area which inhibits development, and causes physical obstruction on transport routes

4.4.2.6. TRADE (WHOLESALE AND RETAIL TRADE) SECTOR

GVA in the trade sector between 1996 to 2001 increased at a growth rate of 0,89% and 6,05% between 2001 and 2011. The period between 2011 and 2017 signified a decrease at a growth rate of 3,405. This shows that trade activity within the municipality has declined which can be linked to the poor economic linkages (forward and backward) in the area. The trade sector in Lepelle-Nkumpi Local Municipality employed about 1 217 people in 2017 and contributed about 4,30% to the overall employment in the municipality. In Lepelle-Nkumpi Local Municipality, employment in wholesale, retail and trade has increased from about 1076 in 2013 to 1217 in 2017 at an annual growth rate of 2,20%.

Trade (wholesale and retail trade) Key findings and issues

- The retail and trade sector in Lepelle-Nkumpi is key towards employment in the area
- There are opportunities for recycling projects and initiatives in the area
- Municipality area is served only by small retail shops, which are scattered throughout the villages
- Trade sector needs to expand as there are limited activities found within Lepelle-Nkumpi Local Municipality
- Trade services do not sufficiently cater for the rural settlements

4.4.2.7. GOVERNMENT SERVICES SECTOR

The government services in Lepelle-Nkumpi Local Municipality was worth about R 2 116,04 million in 2017 and contributed about 34,55% to the overall GVA generated by the municipality. The Government services GVA between 1996 to 2001 recorded a

BIP
LA

growth increase of 3,83% and a growth rate of 3.04% between 2001 and 2017. Government services GVA has also decreased at a growth rate of 1,59% between 2011 and 2017.

The government services industry in Lepelle-Nkumpi Local Municipality employed about 8 244 people in 2017 and contributed about 24,61% to the overall employment in the municipality. Employment for Government services has grown overtime and decreased at a growth rate of -1,19% for the period between 1996 and 2001 and 2,76 for the period between 2001 and 2011. Employment between 2011 and 2017 has been at a growth rate of 0,01%.

The location quotient for employment in government services in Lepelle-Nkumpi Local Municipality was 1,70 in 2013 and 1,70 in 2017 compared to the provincial LQ. The LQ was 1,16 in 2013 and 1,15 compared to the district LQ in 2017. This indicates that Lepelle-Nkumpi Local Municipality's productivity within this industry was significantly higher than the provincial LQ and higher than the district LQ. This implies that Lepelle-Nkumpi Local Municipality has a competitive advantage compared to other local municipalities within the province and has a competitive advantage compared to other local municipalities in the district.

Government services Key findings and issues

- Relocation of the legislator would have a negative impact on the economy of Lepelle-Nkumpi as it has been key towards the history and development of the municipality area
- The municipality's dependency on the government services are very high
- There is need for greater focus on creating other sectoral employment opportunities
- The economy is rather centred on the government services sector, leaving the local economy vulnerable for any significant changes in this industry
- The municipality should be aiming to diversify its economy into other sectors

4.4.2.8. TOURISM SECTOR

Tourism is prominent among local municipalities within Capricorn and its strategic location off the national and provincial movement corridors is of prime advantage. Of key importance is the potential international and national cross boundary linkages and marketing with the N1, The African Ivory Route (Open Africa) including the Blouberg and Mafefe Camps. The Olifants and Nkumpi Rivers in the municipality area play a major role in terms of strategically locating Lepelle-Nkumpi towards tourism potential.

4.4.2.8.1 POTENTIAL TOURISM DEVELOPMENT AREAS

Location/ Site	Tourism Opportunities
Lekgalameetse reserve	Has potential to be developed into one of the seven biodiversity hot spots in South Africa.
Thabina reserve	Link to the other reserves, Wolkberg, Lekalameetse and Bewaarkloof could optimise the nature experience that this reserve can offer.
Bewaarkloof reserve	Link to the other reserves, Wolkberg, Lekgalameetse and Thabina could optimise the nature experience that this reserve can offer.
Strydpoort mountains	This escarpment is located in the north-eastern parts of Lepelle-Nkumpi, next to the Lekgalameetse Conservancy linkage to the reserve
Donkerkloof Caves	Together with the Wolkberg reserve and caves can be developed into a historical attraction. They are reported to have been used by the locals during tribal wars.
The African Ivory Route	This route passes through the Mafefe area and should be linked to the nature reserves in the area, as well as the Mafefe Village Camp.
The Former Lebowa Government Offices	The former Lebowa homeland used these offices as the headquarters of the Lebowa homeland. These offices were considered a masterpiece during those times and could be further developed into a historical attraction.
Royal Houses	Most of the tribal areas in Lepelle-Nkumpi have potential to be developed into the pillars of cultural tourism in Lepelle-Nkumpi.
Zebediela Farm stay	The potential exists to develop farm stay accommodation linked to the large citrus estate in Zebediela.
Unique butterflies and wetlands	There is reportedly a unique butterfly specie situated in Lepelle-Nkumpi which has already attracted numerous tourists to the area. Increased marketing of this uniqueness would assist in attracting greater number of tourists.
Mafefe Miraculous tree	This tree exists in Mafefe and has been known to be a source of miracles. Reportedly, photographs of the tree cannot be taken and anyone whom takes a picture of the tree has always been left with flaws. This tree is also used for praying by a local 'cult'. The tree has some historical value as and may present an opportunity for historical and cultural tourism if marketed adequately.
Mafefe Village Camp	Accommodation facilities have been built in the Mafefe Village, but are not in operation at the moment. This Village Camp is situated in close proximity to the Miracle Tree, which creates potential to link them to ensure a unique experience.
MEC Residences	These residences hold vast potential to be further developed and used as accommodation for delegates, business professionals and tourists.
Construction of new stadium at Zebediela and Mphahlele	Zebediela and Mphahlele are home to numerous soccer, softball and other clubs who do not have adequate sporting facilities. The Tribal authorities has in cooperation with the municipality, already put aside land for such a venture.

Location/ Site	Tourism Opportunities
Sporting fields for Lebowakgomo, Mathibela and Mamaolo	There is a need for sporting fields to accommodate the many sporting activities in these urban/semi-urban areas. Only major games will take place in the stadia.
Upgrading of Lebowakgomo Stadium	The Lebowakgomo stadium is falling short of the required standard to host major events such as athletics, games and other activities.
Revitalisation of the Zebediela Golf Club	Currently the Zebediela Golf Club is not maintained or open to the public. Through revitalising the Golf Club, local residents and neighbouring communities can enjoy golfing and socialising.
Lebowakgomo Municipal swimming pool	Lebowakgomo is one of the hottest areas and in summer temperatures can easily reach around 40°C. Most of the sites here are too small even for affording residents. There is therefore a need to establish a municipal swimming pool to benefit the poor residents.
Renovation of old fire station into Disaster centre and community hall, sports centre and event centre	The municipality does not have a disaster centre. A suitable structure for such a function exists in the form of the old and disused fire station. This structure never actually worked for the purpose for which it was created since its inception some 15 to 20 years back, but served all along as military base. Due to its state of vandalism, the Capricorn district Municipality opted to build a new fire station next to the civic centre which is now fully functional. The station can be renovated to serve as a disaster centre, multi-purpose centre such as community hall-cum indoor/outdoor sports centre with tennis courts and soccer field, mini conference centre, training centre for emergency/fire personnel and with the spacious staff quarters being utilized as lodge or for accommodation for conference or training delegates.
Kruger to Canyon Biosphere	Oris- Baragwanath Path

4.4.2.8.2. STRATEGIC TOURISM CONSTRAINTS

1. Inadequate Transportation Infrastructure

- Accessibility in the eastern side requires upgrade for non 4x4 vehicles.
- Distribution of tourism related, and other signage is not always visible, especially at night.
- Tarred portions of the roads in a fair to good condition.

2. Uncompetitive Products

- Accommodation establishments provide satisfactory facilities.
- Few accommodation establishments are graded.
- Most current establishments in the central and eastern side are underdeveloped.
- Online marketing is non-existent for some establishments, while other establishments could improve on their current marketing strategies.

3. Inadequate investment in marketing

- Some establishments are present on social media, but still lack general information about the establishment.
- There is a lack of private websites.
- Establishments signage not always clear enough on the road sides.
- Marketing campaigns not fully developed or non-existent.

4. Insufficient trained skilled staff

- Lack of English communication skills.
- Lack of telephone etiquette.

5. Inadequate safety and security

- Some locals are not aware of tourism activities in their surroundings and may treat tourist as trespassers.

6. Lack of activity diversity

- Limited attractions and activities throughout the LNL
- Western side does not offer much recreational activities.
- Eastern side lacks accommodation establishments

7. Inadequate provision of tourism information, ICT and amenities

- No visitor information centre
- Reception and signal are very poor in some of the destinations in the eastern side.
- Lack of ATM's, medical facilities and roadside stalls in the eastern side.

8. Lack of implementation of tourism development

- Implementation of tourism development in the past have been slow and reduces the competitiveness of the LNL

9. Unsustainable destination and site environments

- Lack of infrastructure such as parking, ablutions, electricity and water.
- The roadside resting/view/picnic points do not have sufficient litterbins and litter is scattered everywhere making the area very unappealing.

BIP

LA

- Areas in Lebowa kgomo have scattered litter.

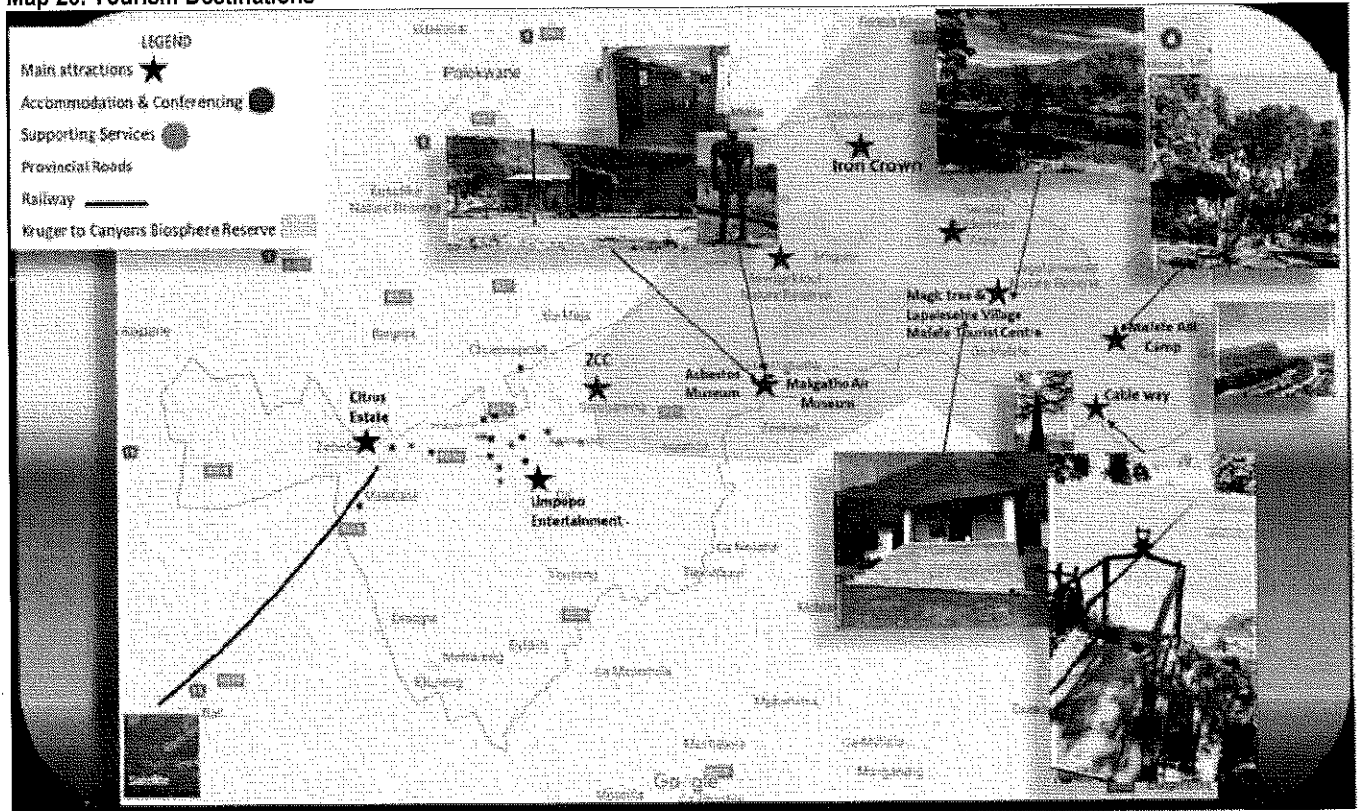

10. Lack of maintenance

- Lebowa kgomo stadium has potential to be a multifunctional establishment but is in dire need of an upgrade.
- The benches at roadside resting/view/picnic points are not maintained regularly.

4.4.2.8.3. TOURISM STRATEGIC DIRECTIONS

- Improve access and connectivity to strategic areas in the local municipality
- Enhance the environment attractiveness of the main tourist development areas
- Enhance institutional structures and quality of skilled manpower
- Increase investment in product development and marketing
- Benchmark with competitors
- Enhance tourist safety and security

Map 26. Tourism Destinations

4.4.2.8.4. FIVE CATALYTIC TOURISM PROJECTS IMPLEMENTATION

- Iron Crown Hiking Adventures
- Eastern Adventure Node
- Bewaarkloof Nature Reserve
- Visitor Information Centre
- Route Development

4.4.2.8.5. TOURISM KEY FINDINGS AND ISSUES

- The natural scenic beauty creates a feeling of escapism and isolation.
- The rivers and mountains offer great potential for adventure tourism such as river rafting, 4x4 routes, cable way trips, quad biking, mountain biking, hiking, abseiling and rock climbing.
- The climate reduces seasonality slightly due to the pleasantly warm temperatures in winter.
- There is insufficient information available on the internet and no tourism information centre in the municipality. Increasing the spread of information will help with awareness and marketing efforts, thus increasing the number of tourists to the area.

4.4.3. ECONOMIC OPPORTUNITIES AND CONSTRAINTS

The reviewed LED strategy identifies the following constraints and opportunities in the municipality;

4.4.3.1. ECONOMIC DEVELOPMENT CONSTRAINTS AND WEAKNESSES

i. Market Growth and Conditions: LNLM has the third highest unemployment rate in the area. Based on the GVA, LNLM has the lowest annual growth rate for formal employment.

ii. Agriculture: Based on the GVA, LNLM has the smallest agriculture industry compared to all the local municipalities in the district. Compared to competitors, it does not have a competitive industry based on GVA LQ (0,63) and employment LQ (0,81). Municipality has the smallest work force amongst competitors employing 1800 people, poor road conditions and connectivity. Most part of the land is owned by traditional authorities and municipality. There is also low water supply in the area.

iii. Mining: LNLM has the slowest growth in the mining industry amongst its competitors and low annual employment growth rate in the mining industry. Inadequate signage in the area. Green mining has a potential threat to affect employment opportunities for the workforce in the mining industry.

iv. Manufacturing: Proportionately LNLM has the least skilled and semi-skilled workforce amongst the competitors. Compared to its competitors, municipality does not have a competitive manufacturing industry based on GVA LQ (0,10) and employment LQ (0,66). Lack of infrastructure development. Limited infrastructure and services provided. Lack of finance hindering the development. Accessibility of roads. Land ownership issues.

V. Utilities (Electricity, Gas and Water): Limited water supply in the district. Lack of formal housing. Poor infrastructure

vi. Construction: Based on the GVA, LNLM is ranked 7th compared amongst its competitors in the construction industry. The LNLM construction industry annual GVA growth rate is 0,15%, which is ranked 8th amongst the competitors. Compared to its competitors, it does not have a competitive construction industry based on GVA LQ (0,65). Inadequate development planning. Water shortages.

vii. Wholesale and Trade: Compared to its competitors, LNLM does not have a competitive wholesale and trade industry based on GVA and employment LQ of (0,80). A payment fee to use the toilets at the mall. Hawkers close to the mall. Lack of an ambush system around the mall

viii. Transport and Communication: LNLM has the least competitive transport and communication industry based on the GVA LQ amongst the competitors. Poor road conditions. Very few signage

ix. Finance Services: The LNLM has the 2nd largest semi-skilled workforce amongst the competitors.

x. Government services: The LNLM government industry annual GVA growth rate of (1,29%) is the ranked 9th amongst its competitors. Moving the Legislator offices to Polokwane

xi. Tourism: Plenty of litter. Lack of facility maintenance (stadium & rest points). Lack of signage along roads. Lack of tourist information (physically & online). Lack of medical facilities. Poor communication and telephone skills. Insufficient water provision for residents. Competitors (Polokwane and surrounding areas development rate). Political instability and manipulation. Tourist safety and security. Implementation temp

4.4.3.2. KEY ECONOMIC DEVELOPMENT OPPORTUNITIES/ STRENGTHS

i. Market Growth and Conditions: LNLM is ranked first on the durable goods share amongst its competitors. LNLM has the fifth largest household size income amongst its competitors. Based in informal employment it is ranked fifth amongst its competitors. LNLM has the fourth largest skills workforce amongst its competitors. Household income growth is ranked seventh amongst its potential but has the potential to grow.

ii. Agriculture: The growth rate in the agriculture industry for LNLM is relatively better than other local municipalities in the district. The annual GVA growth in the agriculture industry rate for municipality is ranked third highest amongst its competitors. Compared to its competitors LNLM has a proportionately skilled and a semi-skilled work force in the agriculture industry. Zebediela Citrus. Potential for forestry farming in the Eastern side. Converting small scale farmers to commercial farmers. Co-operative farming. Commercialising individual farms. Agriculture tour-based walks

iii. Mining: Based on GVA, LNLM has the second largest mining industry amongst the competitors. LNLM has the second largest workforce amongst the competitors. Proportionately, it does have skilled and semi-skilled workforce amongst the competitors.

LNLM has the most competitive industry based on GVA LQ and the employment LQ amongst the competitors. Beneficiation of raw mineral resources and mining materials has the potential to contribute significantly in expanding the manufacturing sector.

iv. Manufacturing: LNLM is strategically located. Lebowakgomo Showground can host activities for both commercial and emerging enterprises. Manufacturing industry has potential to grow as it is ranked sixth amongst other municipalities, provided there is an improvement in agriculture production. Agro Processing

v. Utilities (Electricity, Gas and Water): Based on the GVA, LNLM has the fourth largest industry amongst its competitors. The municipality's utilities industry annual GVA growth rate is fifth amongst the competitors and has the fourth largest workforce amongst the competitors. The utilities industry has the third most competitive utilities industry based on employment LQ (1,14) amongst the competitors. Proportionately, LNLM has the third most skilled workforce amongst the competitors. Amongst its competitors, LNLM has potential to improve on the competitiveness of the utility industry based on the GVA LQ.

vi. Construction: Strategically located. Residential construction. Road infrastructure improvement will be a key enabler for the growth in construction.

vii. Wholesale and Trade: Based on GVA, LNLM is ranked 5th with a GVA size of R 773,91 (million) amongst industry amongst the competitors. The LNLM wholesale and trade industry annual GVA growth rate is the third 5th highest amongst the competitors. The wholesale and trade industry play a significant role in the workforce amongst its competitors. Proportionately, LNLM has the 3rd most skilled workforce amongst the competitors.

viii. Transport and Communication: Based on GVA, LNLM is the 4th largest transport and communication industry amongst the competitors. The LNLM transport and communication industry annual GVA growth rate is the 3rd highest amongst the competitors. Proportionately, LNLM has the 4th skilled and semi-skilled workforce amongst the competitors. Road connectivity

ix. Finance Services: Based on GVA, LNLM has the 4th largest finance service industry amongst the competitors and finance service industry annual GVA growth rate is the 2nd highest amongst the competitors. Municipality has potential to improve in the competitiveness for the finance service industry based on GVA and employment LQ which is (0,94) and (0,64) respectively.

x. Government services: Based on GVA, LNLM has the 4th largest government service industry amongst its competitors. Compared to its competitors, it has a competitive industry based on the GVA and employment LQ of (2,10) and (1,97) respectively.

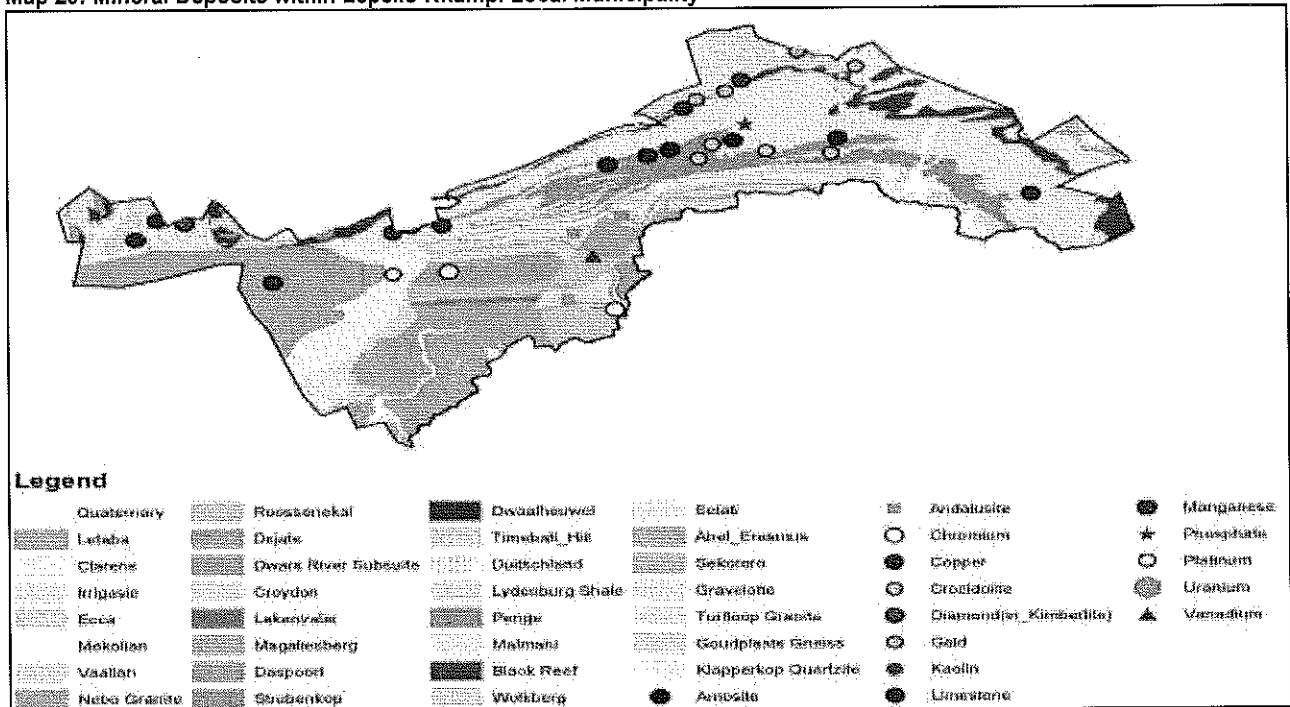

xi. Community services: LNLM has the most skilled workforce in the community service industry amongst the competitors. LNLM has the 4th largest community service workforce amongst competitors employing about 363,57 people. Proportionately, LNLM has the most skilled community service workforce amongst competitors. Compared to its competitors, LNLM does have a competitive community service industry based on GVA LQ (1.00) and employment LQ (1.25). Education awareness

xii. Tourism: Kruger to Canyons Biosphere. Escapism. Adventure potential. Warmer winter climate. Scenic beauty (Wet lands). Marketing (Kruger to Canyons Biosphere. Iron Crown. Agritourism/Citrus route. Pre- and/or post business events tours. Adventure & Ecotourism (Zipline, hiking, quad biking, river rafting etc). View/Rest points with historical/environmental information. Culture exposure. Donkey tourism. Limpopo Entertainment Centre. Wedding/Other Cultural celebrations. Sport events 4.4.3. Economic Development opportunities

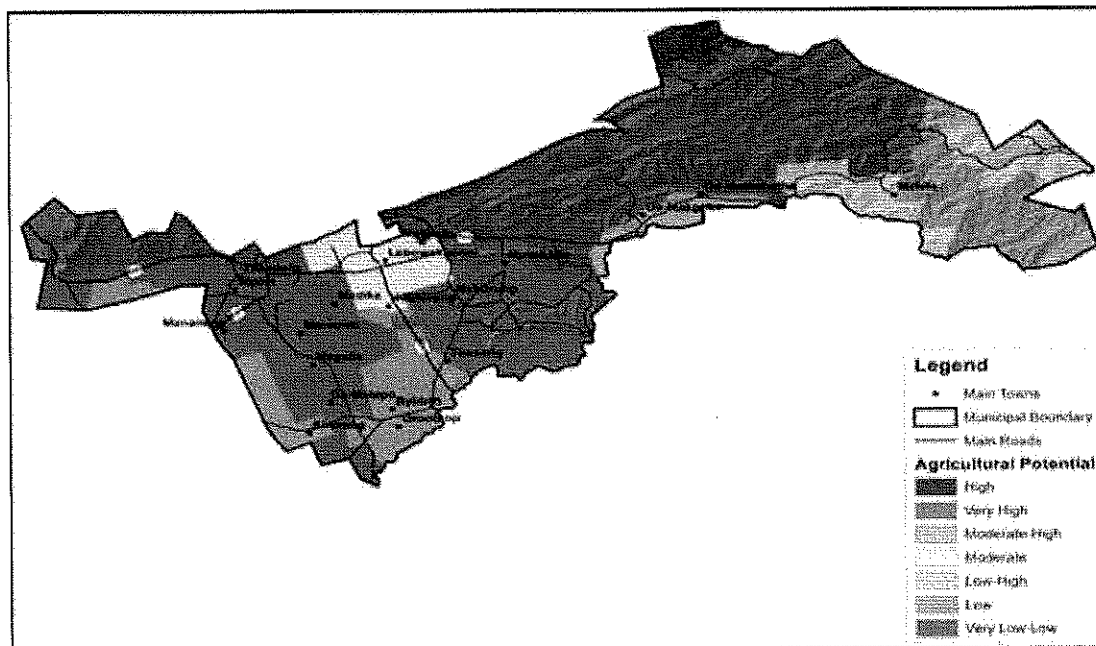

The map illustrates the Limpopo province, a large landlocked region in the northeastern part of South Africa. To the north, it shares a border with Zimbabwe, with the Limpopo River forming a significant part of this boundary. To the east, it borders Mozambique, and to the west, it meets Botswana. The province's capital, Polokwane, is centrally located. Other notable cities include Tlokweng, Mopani, and Makhado. The map also depicts the Kruger National Park, a major wildlife reserve, and the Mopani Game Reserve. The Mopani Corridor, a key transportation route, is shown connecting the province to the rest of South Africa. The map includes various geographical features such as rivers, lakes, and game reserves, providing a comprehensive overview of the region.

[illegible]

Map 29: Mineral Deposits within Lepelle-Nkumpi Local Municipality

Map 30 Areas with Agricultural potential within Lepelle-Nkumpi Local Municipality

4.4.5. LOCAL JOBS THAT HAVE BEEN CREATED

1200 CWP jobs were created during 2016/17 plus 294 EPWP jobs (2016/17 Annual Report). 1200 CWP jobs plus 603 EPWP temporary jobs were also created in 2017/18 and 1200 jobs were created for CWP and a further 369 for EPWP during 2018/19 financial year (2018/19 Annual Report).

CHAPTER 5: INFRASTRUCTURE/ BASIC SERVICES ANALYSIS

The engineering infrastructure analysis includes the provision of water, sanitation, roads, energy, and transport within the municipal area.

5.1. WATER SUPPLY

Census 2011 shows that 75% of households had access to water above RDP standard compared to 62% in 2001, whereas 70% was recorded to have access to portable water above RDP standard in Community Survey 2016. A backlog of 18300 households still has to be served. It is possible that within near future all households can be served with reliable and uninterrupted portable water supply at yard level, or at least within 200 meters from their yards. This is because District as Water Service Authority has managed to put up reticulation infrastructure in all settlements and has now committed funding to ensuring that these become functional and uninterrupted water supply to residents is sustained.

Free Basic Water is provided to all households outside Lebowakgomo Township who can be estimated at 51000 or 194800 individuals. Furthermore, there are 356 more households in Lebowakgomo who received Free Basic Water during 2019/20 financial year.

Table.41: Households by access to piped water-1996, 2001 and 2011

Municipality	Piped (tap) water inside dwelling / yard				Piped water (tap) on communal stand				No access to piped (tap) water			
	1996	2001	2011	2016	1996	2001	2011	2016	1996	2001	2011	2016

Data Source: Census 2011

5.1.1. WATER SOURCES

Groothoek RWS Cluster, Specon RWS Cluster and Mphahlele RWS Cluster

The scheme is composed of three clusters, namely; Groothoek RWS cluster, Specon RWS Cluster and Mphahlele RWS Cluster. These clusters combined consist of sixty-eight settlements. They include the main town of Lebowakgomo, Zebedelia citrus estates and a number of rural settlements.

Domestic water source for this cluster is the Olifants River via the Olifantspoort Water Treatment Works.

Lebowakgomo and surrounding area has only one source of domestic supply, the bulk purchase of water from Lepelle Northern Water. Water is supplied via the Olifantspoort Water Treatment Works, which acquires its raw water from the Olifantspoort weir on the Olifants River, which runs along the eastern boarder of the cluster. Water is pumped from the Olifantspoort weir through a rising pipe, to the water treatment works which has a full design average capacity of 11 Million m3/a rising to a peak treatment of 15.30 Million m3/a. The Olifantspoort Water Treatment Works also supplies to areas outside of the cluster, including Polokwane, its largest consumer. The current raw water use entitlement out of the Olifants River for the treatment works is 13 Million m3/a. This allocation comprises of 5.40 Million m3/a for the Polokwane area and the 7.60 Million m3/a for the Lebowakgomo area, which includes the GSM RWS.

The overall blue drop score for the treatment works is 87.13% according to tests done in 2011 and 76.05% in 2012 (Blue Drop Report, DWA, 2012).

Mafefe Individual GWS Cluster

The cluster covers an area of 134.6km2 and has 9000 inhabitants. The scheme services thirty one rural settlements Domestic water for this region is sourced from local ground water sources.

Mathabatha Individual GWS Cluster.

The scheme consists of nine rural settlements. Domestic water for this region is sourced from local ground water sources. Mathabatha Individual GWS covers an area of approximately 70.2km2 and has 9650 inhabitants.

The Water Services database indicates that 17 equipped boreholes are located within the cluster. 7 boreholes have combined yield 0.438 Million m3/a (13.9l/s) although not all of the yields estimated may be utilised. The water usage for these boreholes is not specified; however, their proximity to local settlements implies that they are used for domestic purposes.

The water quality of Mphogodima River is deemed good. The groundwater potential for the cluster is estimated as 1.2 million m3/a based on the Dry Utilisable Groundwater Exploitation Potential (UGEPdry) over the cluster area. The Mphogodima River feeds the Koedoeskop Irrigation Scheme while Tongwane River supplies water for irrigation as well.

5.1.2. Blue Drop Risk Ratings

Table.42: Ratings per Scheme

WSA	System Name	2013 Risk Rating	2012 Risk Rating	Progress Indicator
CDM	Olifantspoort	56.76	73.43	Improve
CDM	Lebowakgomo	63.24	0	Improve
CDM	Zebediela	55.37	0	Improve

DWAS, 2015

5.2. SANITATION FACILITIES

62% of the households have sanitation facilities, in reference to toilets, from RDP standard and above. Only Lebowakgomo area has sewer system, although the sewer plant for waste water treatment is operating far above its design capacity. The sanitation backlog is very huge (29827 households) in the municipality and its MDG goal was not met by 2014. The District is busy with a project to upgrade the Lebowakgomo WWTW.

There are 356 households in Lebowakgomo who received Free Basic Sanitation during 2019/20 financial year. However, the District Municipality and CoGHSTA provide VIP Toilets to indigent households in rural areas to meet basic sanitation up to RDP standard.

Table.43: Distribution of households by type of toilet facility-1996, 2001 and 2011

TYPE OF FACILITY	Flush / chemical toilet				Pit toilet				No toilets

Data Source: Community Survey 2016

Electricity has been provided to 98% of the households. All villages within the municipality have access to electricity grid. Current electricity projects by Municipality and ESKOM are aimed at electrifying new settlements or villages' extensions and are funded mainly by INEP Fund and municipal own revenue. The current backlog of post-connection extensions is estimated at 1261. The MDG target would have been reached if it were not that the number of new houses is growing each year. Other major sources of energy used by households in the municipality are wood, solar, paraffin and gas. Municipality promotes use of alternative energy sources as per National Energy Plan. About 300 households received subsidized solar geysers in LebowaKomo in 2011. Energy saving bulbs are being used to replenish old ones in maintenance of electricity infrastructure of the municipality, including those on municipal buildings, public facilities and high mast/streets lights. ESKOM has also previously provided free energy saving bulbs to households.

3754 households were provided with Free Basic Electricity by municipality during 2019/20 financial year. ESKOM is the electricity provider in the whole of municipal area, as the municipality has no licence to supply electricity.

ELECTRICITY SWOT ANALYSIS

STRENGTHS

- There is plant and equipment for maintenance of electricity infrastructure
- Municipality has skilled personnel who perform maintenance of electricity infrastructure and also manage performance of service providers for construction/maintenance of electricity infrastructure
- There is a service provider appointed on term contract for maintenance electricity infrastructure
- Public Illumination Audit Report was compiled
- 98% of households have electricity. All villages have access to electricity grid and current projects deal with extensions of settlements

WEAKNESSES

- Poor intergovernmental relations/ communication
- There is shortage of staff to deal with current backlogs and work load
- Shortage of plants and equipment
- Insufficient budget

OPPORTUNITIES

- Municipality has potential to acquire electricity distribution licence and generate revenue
- Energy efficiency programs

THREATS

- Vandalism and cable theft
- Community unrests

INTERVENTIONS

- Prioritization of critical posts as per the approved Organogram
- Purchase of additional plant and equipment
- Establishment of local intergovernmental relations structure
- Increase annual budget for maintenance of electricity infrastructure
- Expedite placement of staff

Table.49: Distribution of households by access to electricity and water Services

Table.50: Distribution of households by access to sanitation and refuse removal services

YEAR	SANITATION							REFUSE REMOVAL	
	Flush toilet (connected to sewerage system)	Flush toilet (with septic tank)	Chemical toilet	Pit toilet with ventilation (VIP)	Pit toilet without ventilation	None	Other	Yes	None
2011	10955	468	273	10479	34893	1883	732	12600	47082
2016	11090	856	989	12233	34043	934	1072	13717	47588

Data Source: Community Survey 2016

618 households received subsidy for refuse removal during 2019/20 financial year. These are households in Lebowakgomo. Rural waste collection was yet to be billed as all households receive free service regardless of household income. Municipality has added more rural villages to receive waste removal services during 2020/21 financial year. A budget allocation for construction of three waste transfer stations has been made available to manage waste collection better in these new areas.

Table.51: Summary of backlogs of households' access to basic services

Service to Households	2011		2016	
	Total backlog	Percentage	Total backlog	Percentage
No electricity	4809	8%	1261	2%
Water below RDP standard	14501	24%	18300	30%
Sanitation below RDP standard	29827	50%	37604	38%
No weekly/bi-weekly refuse removal services	47082	79%	47588	78%

5.4. TRANSPORT AND ROADS

5.4.1. Transport

The CDM prepared an Integrated Transport Plan (ITP) for its area. The ITP addresses public transport and private mode, infrastructure, facilities and services. It shows that the major public transport modes are bus and taxi operations for the municipality. Lepelle-Nkumpi developed its ITP during 2019/20 financial year.

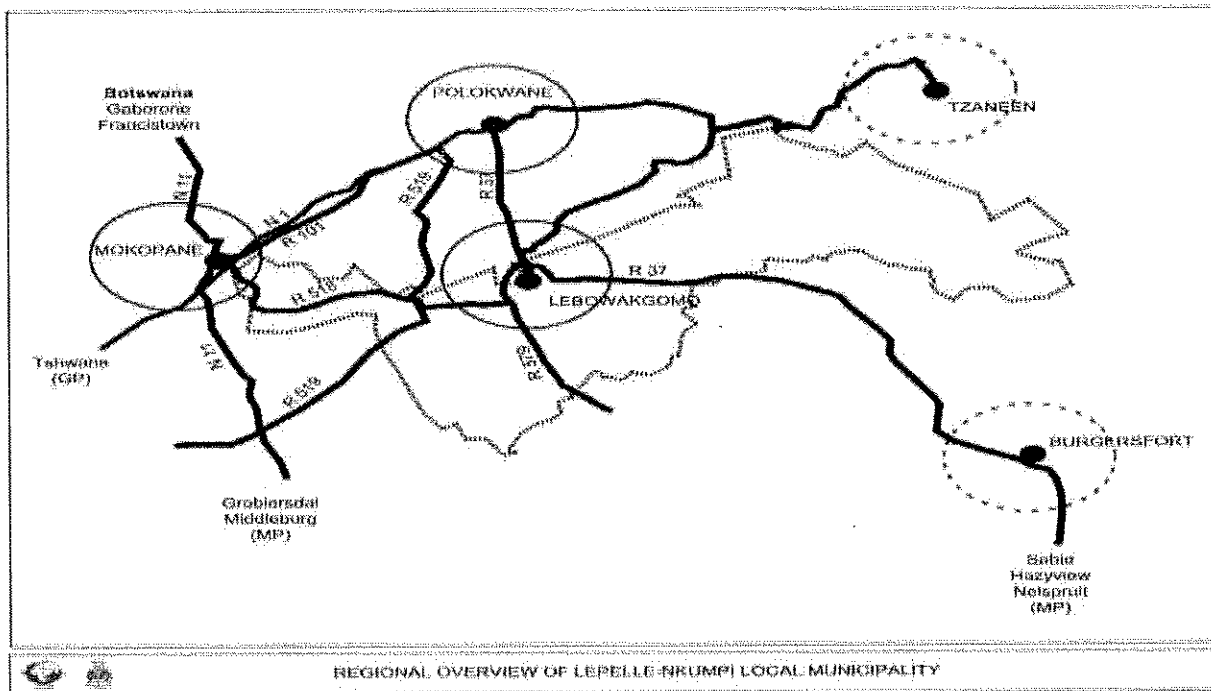

According to the Integrated Transport Plan (ITP), Municipality is a key through-fare to major larger towns and possesses the potential for tourism, forestry and industry development, given its location. The ITP also provides a map to show road linkages for the Municipality:

B.p.

Map 31: Main Road Linkages for Lepelle-Nkumpi

Source: (Lepelle-Nkumpi Local Municipality)

5.4.2. FREIGHT TRANSPORT

Moving South Africa identified three significant freight corridors through Limpopo, of which one is traversing through Lepelle-Nkumpi, i.e. the R37 from Polokwane to Mashishing. There is significant potential for freight transport due to mining activities in Lepelle-Nkumpi and adjacent municipal areas.

The ITP also identified several issues in the Municipality and their implications on the ITP as given in Table here below

Table 52: Issues in LNLM and the Implications on the ITP

Issue	LITP Implication
Agricultural land conversion process.	- Transport networks need to be assessed to explore the extent to which they could enable industry, storage and distribution activities.
Lack of skills and their importance to development.	- The transportation implication of this direction implies that the transport plan should serve to reconnect key development zones, and account for strategies and projects that will serve to support their activation.
Topographic limitations in development as a result of biodiversity needs.	- In this particular case transport plays a complex role of access to the biodiverse zones, at the same time may enable tourism, and the continuation of traditional uses of such land. - High regional
High regional mobility but low municipal access.	- Airport may serve as a key mechanism to attract and enable storage, distribution activities at an international scale (i.e. SADC, AGOA Agreement in fresh produce).
Utilisation of Airstrip	- Airport may serve as a key mechanism to attract and enable storage, distribution activities at an international scale (i.e. SADC, AGOA Agreement in fresh produce).

Source: (Lepelle-Nkumpi Local Municipality, 2018)

The ITP also identified four transport and movement networks:

1. Road Network
2. Rail Network
3. Airports and Airfields
4. Freight Network and Corridors

Source: (Lepelle-Nkumpi Local Municipality, 2018)

5.4.3. LAND TRANSPORT STATUS QUO

Buses and minibus taxis are the most popular modes of transport. In some sections of the municipality, the rural roads are poorly maintained with no specific attention given to storm water drainage and this discourages bus and taxi operators to go to these roads.

5.4.3.1. PUBLIC TRANSPORT

The Limpopo SDF points out that motor vehicle ownership in Limpopo is low due to relative low income levels which means that people are making use of public transport commuting between areas. The public transport by households mainly includes bus (+23%) and taxi operations (+46%).

The main long distance taxi route is between Polokwane and Lebowakgomo, whilst the bus route from Polokwane goes to Zebediela via Lebowakgomo. The focus of these public transport services are only in the major growth points (eg Lebowakgomo). The rural areas to the south-west and east of the municipal area are excluded and without any formal services as illustrated in the map on the right. There are 12 taxi ranks in the Lepelle-Nkumpi area of which 5 are informal. In terms of bus routes, a total of 180 bus routes are within the Capricorn District, of which 19 of these routes are within the Lepelle-Nkumpi Municipality. All commuter networks lead to Lebowakgomo CBD although there are no formal bus rank facilities in the area.

5.4.3.2. TAXI OPERATIONS

There are 12 taxi ranks in the Lepelle-Nkumpi area and five of which are informal.

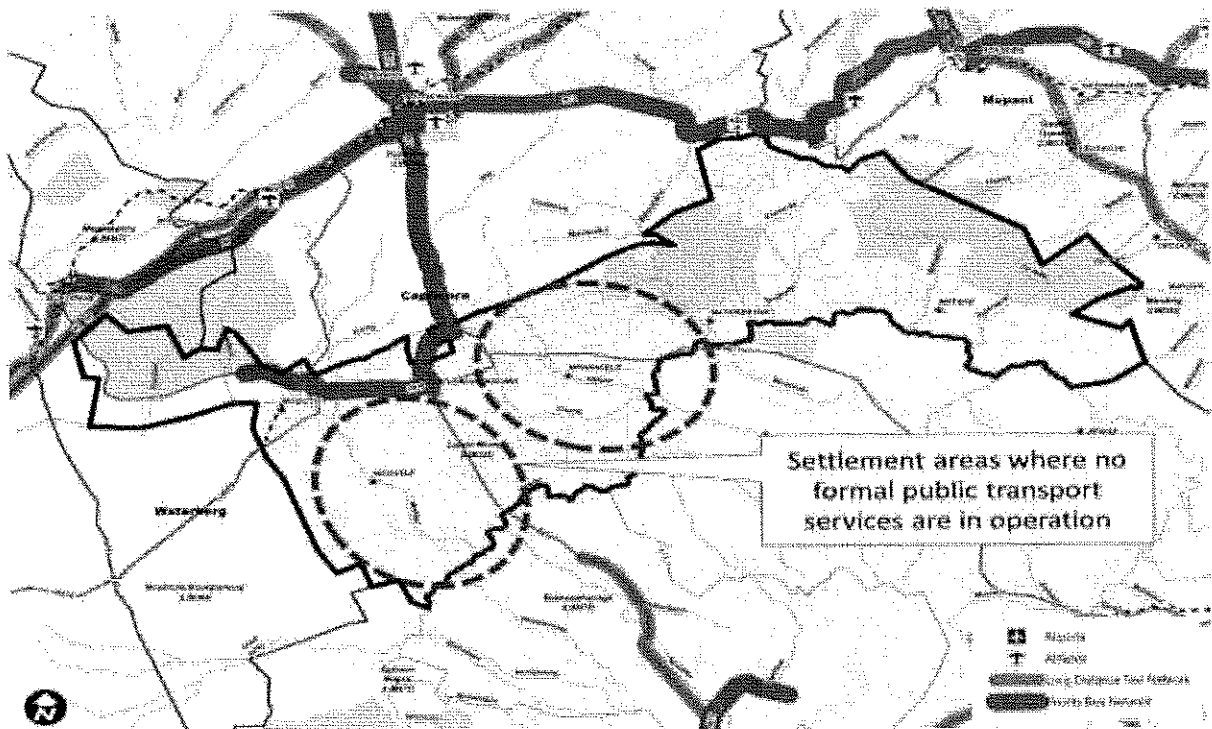

5.4.3.3. BUS OPERATIONS

Kopano Bus Services is the major provider of daily commuters transport services in the area. The company is state owned and subsidized. There are 180 daily bus routes in the district of which 19 routes are in Lepelle-Nkumpi. The challenge is that road conditions are generally poor and this has a significant impact on the operating life of the rolling stock (buses), operating costs, and level of service to the passenger. All commuter networks lead to Lebowakgomo CBD although there are no bus rank facilities and commuters' safety seems to be at greater risk with current arrangement.

B.p.

LA

Map 32: Public Transport Services

5.4.3.4 TRAFFIC AND LICENSING SWOT ANALYSIS

STRENGTHS

- Municipality has a Traffic and Licensing Department with a testing station
- National Road Traffic Act and the Pound Act from National Parliament are being enforced
- Municipal By-laws are approved by council and promulgated
- Electronic Fines Management system
- Electronic Cash Counting system.
- Computerised learners license testing system.
- National road Traffic Act

WEAKNESSES

- Understaffing
- Reduction, withdrawal and non-payment of traffic fines.
- Understaffing
- Regular interruptions of E-Natis system (off-line)
- Poor route test roads

OPPORTUNITIES

- Road Safety
- Revenue collection
- Upgrading of Vehicle Testing Station (VTS) to Grade A.
- Extension of licensing services to weekends.
- Extension of licensing services stations to other areas in the municipality
- Revenue collection

THREATS

- Loss of lives due to road accidents fatalities
- High rates of motor vehicle accidents
- Loss of revenue
- Possible suspension/closure of the station

B.P.

LA

- Burglary
- Driving license Tests appeal.
- Competition of Public VTS (LNM) and Private VTS
- Loss of revenue

INTERVENTIONS

- Expansion/ Establishment of Scholar patrol programme, especially next to Primary Schools that qualify
- Improve security measures for licensing services
- Construction of multi-purpose centers (Thusong Service Centres) to improve access to municipal/ government services
- Erection and maintenance of traffic signs and markings
- Filling of critical posts as per approved organogram

5.4.4. ROAD NETWORK AND CLASSIFICATIONS

5.4.4.1. NATIONAL ROADS

The S.A. National Roads Agency Limited (SANRAL) is the custodian for the National Road Networks and there is no National road transversing the municipality. However, the N1 road is just within 5km radius outside the border of the municipality on the Western side.

5.4.4.2. PROVINCIAL AND DISTRICT ROADS

Table.54: The following strategic roads traverse the municipality;

Road Nr	Length (km)	Road Description	Linkages
P33/1	31	Polokwane-Tubatse	Polokwane to Tubatse/Mbombela
D 885	8.6	D1430 - P18/1	Groothoek to Roedtan/Mookgophong and N1

Source: Limpopo DoRT

258 kilometres of Provincial, District and access roads have been tarred has been tarred thus far with a backlog of 411 km of these roads still to be tarred.

B.P.

LA

Map 33: Transport Networks

5.4.4.3. MUNICIPAL ROADS

The municipality has started with a programme for the development of Municipal Infrastructure Investment Plan where municipal and access roads/streets will be determined and classified. Backlog on these roads is also not known yet. A service provider is appointed on a term contract for maintenance of gravel road. In addition to its internal unit to deal with maintenance of tarred municipal roads and storm water, municipality has appointed service providers to reseal or renew its tarred roads and storm water control systems.

The Roads Master Plan highlighted several areas that need immediate intervention, which include the following areas:

- Ga-Mampa
- Kappa
- Matinkane
- Lebowakgomo-A
- Lebowakgomo-B
- Lebowakgomo-S
- Lebowakgomo-R
- Mapatjakeng
- Mathibela
- Matome
- Staanplaas

5.4.4.4. RAIL SERVICES

There is a disused railway line from Zebediela Citrus Estate that used to connect with Johannesburg for exportation of oranges.

Challenges and key issues identified in these areas included:

- High levels of soil erosion mainly on untarred roads due to a lack of infrastructure for better stormwater management.
- Several roads had the issue of water accumulation predominantly on untarred internal roads, which is likely the cause of soil erosion. These roads are likely to also be muddy and not in a state for normal vehicles to use.
- Several drains and culverts were blocked and restricted the flow of water, resulting in water accumulation on roads and within parts of the community areas.
- Several kerb inlets were broken with some blocked, restricting water movement and causing water accumulation around the inlets.
- Several roads had clusters of stones which can potentially damage vehicles.
- Certain areas, like the Matinkane area, require the construction of a bridge for access across rivers.
- Blockages are likely caused by extensive littering into drains and kerb inlets or by extensive amounts of soil.
- Several areas had 'home-made' bridges and culverts mostly done by community members.

5.4.5. ROADS AND STORM WATER SWOT ANALYSIS

STRENGTHS

- Municipality has skilled personnel (with qualifications in roads engineering/technology)
- There is plant and equipment for construction and maintenance of roads
- Roads and Storm water Maintenance Plan was developed
- There is a service provider appointed on term contract for maintenance of roads
- Lebowakgomo is a District Growth Point with National and Provincial roads that transverse the municipality

WEAKNESSES

- There is shortage of staff (including technical/engineering professionals and driver operators) to deal with current backlogs and work load
- Shortage of plants and equipment
- Poor intergovernmental relations/ communication
- Insufficient budget to deal with current backlogs
- Backlog of road maintenance is huge

OPPORTUNITIES

- Available donor/grant funding sources to finance construction of development infrastructure
- Job creation through EPWP/ labour intensive methods for construction and maintenance of roads infrastructure

THREATS

- Withdrawal of powers and functions regarding construction and maintenance of roads and storm water

INTERVENTIONS

- Prioritization and filling of critical posts as per the approved organizational structure
- Purchase additional plant and equipment
- Establishment of local intergovernmental relations structure
- Increase annual budget for maintenance of roads and storm water
- Expedite placement of staff

CHAPTER 6: FINANCIAL ANALYSIS

6.1. KEY FINANCIAL MANAGEMENT POLICIES

Council has approved the following policies for proper financial management in the municipality;

6.1.1. CREDIT CONTROL AND DEBT COLLECTION AND CUSTOMER CARE POLICY

The continuous provision of municipal services to residents and communities poses a risk of poor collection if there are no credit control and debt collection policies to assist council to execute its constitutional obligations in terms of Chapter 7 of the Constitution of the Republic of South Africa. The Debt Collection and Credit Control by-laws have been gazetted in March 2008, Gazette No. 1454.

Council approved a reviewed policy in June 2020. The main purpose of the policy is;

- To distinguish between those who can pay for services and make them pay and those who genuinely cannot
- To get those who cannot pay for services to register with the municipality as indigents
- To enable the municipality to determine and identify defaulters

6.1.2. TARIFF POLICY

Section 74 of the Local Government: Municipal Systems Act, Act 32 of 2000 as amended, contains guidelines regarding the compilation of and principles for a tariff policy. An extract reads as follows: -

"Sec 74 (1) A Municipal council must adopt and implement a tariff policy on the levying of fees for municipal services provided by the municipality itself or by way of service delivery agreements, and which complies with the provisions of this Act and with any other applicable legislation."

The purpose of this tariff policy, which was reviewed in June 2020, is to prescribe the accounting and administrative policies and procedures relating to determining and levying of tariffs by Lepelle - Nkumpi Municipality.

6.1.3. BAD DEBTS AND WRITE-OFF POLICY

Section 96 of Municipal Systems Act 32 of 2000 provides that a municipality must collect all money that is due and payable to it, subject to the provisions of that Act and other applicable legislation. Municipality reviewed its policy in June 2020.

The purpose of Bad Debt and Write-Off policy is;

- to provide the principles and procedures for writing off irrecoverable debt.
- to ensure that recovery would not cause undue hardship to the debtor or his/her dependants.
- to determine circumstances leading to the write-off of debts
- to provide framework for procedures for writing off of debts

6.1.4. INDIGENTS SUPPORT POLICY

Section 27(1) (b) of the South African Constitution Act, 1996 (Act 108 of 1996) states that everyone has the rights to access to sufficient food and water.

The policy, reviewed in June 2020, has been developed in line with Section 74.2(C) of the Local Government Municipal Systems Act, 32 of 2000 and is intended at addressing the following;

- Poor households must have access to at least basic services through
- Tariffs that cover only operating and maintenance costs;
- Special tariffs for basic levels of services; and
- Any other direct or indirect method of subsidization of tariffs for poor households

The purpose of the policy is

- to determine how the municipality will assist members of the community who cannot afford basic municipal services as enshrined in the Constitution
- And to ensure that lives of the underprivileged members of the community are improved through provision of affordable and quality services.

6.1.5. PROPERTY RATES POLICY

In terms of Section 229 of the Constitution of the Republic of South Africa, 1996 (No.108 of 1996), a municipality may impose rates on every property in its area. This policy, reviewed by Council in 2019, is mandated by Section 3 of the Local Government: Municipal Property Rates Act, 2004 (No. 6 of 2004), which specifically provides that a municipality must adopt a Rates Policy. The policy was reviewed in June 2020.

6.1.6. ASSETS MANAGEMENT POLICY

This policy is intended to define and provide a framework for the Asset Management within the guiding principles of sections 62(1)(a), 63(1)(a) and 63(2)(a) of the Municipal Finance Management Act (MFMA), National Treasury Guidelines, Generally Recognised Accounting Practices (GRAP), Accounting Standards and to promote good financial management practices.

Its aims are;

- To ensure the effective and efficient control, utilization, safeguarding and management of LNM's Property, Plant and Equipment (PPE)
- To set out the standards of physical management, recording and internal controls to ensure PPE are safeguarded against inappropriate loss or utilization
- To ensure that Fixed Assets are not written off and disposed off without proper authorization.

The Municipality keeps an asset register that is largely compliant to GRAP standards. The asset management policy and procedures which encompass the asset disposal have been developed and are reviewed on an annual basis. Asset management and disposal committees have been appointed and a unit established to ensure that there is prompt disposal of redundant assets. The challenges on the assets register are that it needs to be updated with regards to some of the municipality's immovable assets. The policy was reviewed in June 2020.

6.1.7. CASH AND INVESTMENT MANAGEMENT POLICY

Council approved a reviewed Cash and Investment Policy in June 2020 in terms of MFMA section 13(2) which states that each municipal council and governing body shall adopt by resolution on investment policy regarding of its monies not immediately required. The primary goal of the investment of funds is to earn the returns on investment principal, an amount invested whilst managing liquidity requirements and providing the highest return on investment at minimum risk, within the parameters of authorised instruments as per the MFMA.

The municipality does all its investments in line with MFMA and Municipal Investment Regulations.

6.1.8. BUDGET AND VIREMENT POLICY

The objective of the budget policy is to set out:

- Principles which the municipality will follow in preparing each medium term revenue and expenditure framework budget
- Responsibilities of the Mayor, the accounting officer, the chief financial officer and other senior managers in the process of compiling the budget and
- To establish and maintain procedures to ensure adherence to Lepelle-Nkumpi Municipality's IDP review and budget processes.

Municipality compiles its budget in line with the following principles;

- The municipality shall not budget for a deficit and should also ensure that revenue projections in the budget are realistic taking into account actual collection levels.
- Expenses may only be incurred in terms of the approved annual budget (or adjustment budgets) and within the limits of the amounts appropriated for each vote in the approved budget.
- The capital budget should be based on realistically anticipated revenue, which should be equal to the anticipated capital expenditure in order to result in a balanced budget.
- Lepelle-Nkumpi Municipality shall prepare three-year budget (medium term revenue and expenditure framework "MTREF" and that will be reviewed annually and approved by council.
- Lepelle-Nkumpi budgets shall have clear and unambiguous linkages to the IDP, LED and the Turnaround Strategies.

The policy was reviewed by council in June 2020 in line with Municipal Finance Management Act, No.56 of 2003, and Chapter 4 Subsection (16) on the Municipal Budgets.

6.2. REVENUE MANAGEMENT AND CREDIT CONTROL

The main sources of own revenue are sale of sites, property rates, traffic and licensing services and refuse removal. Municipality collects revenue on water and sewerage services on behalf of CDM, which is the Water Services Authority, as per Service Level Agreement signed. Other than these own revenue sources, the municipality receives the following major grants;

- Equitable Share
- Municipal Infrastructure Grant
- Municipal System Improvement Grant
- Financial Management Grant
- Integrated National Electrification Fund
- EPWP Incentive Grant

Table.55: Trends of the Rate of Revenue Collection

Year	Billed	Actual Collected	%
2014/2015	R 29. 2 m	R4.6 m	16
2015/2016	R83.8 m	R12.2m	14.5
2016/2017	R37.9 m	R7.2m	19
2017/2018	R42 m	R9.7 m	23
2018/2019	R33m	R9.m	27

2018/19 Annual Report

The poor revenue base and none collection makes the municipality 80% dependent on grants. Plans are underway to expand revenue base through collection in identified rural villages, starting with property rates, water and refuse removal. The challenge has also been boycott of payment of services by a certain sector of the residents of Lebokwagomo Township, which is the only area where rates are being collected. Council has developed a credit control policy to deal with the defaulters and is being implemented. A Venus billing system is being used for revenue management.

Municipality developed a Revenue Enhancement Strategy in 2019/20 financial year to deal with debt collection and the elimination of leakages and the increase in revenue coverage. The objective of the plan is to provide a roadmap into the municipality's financial recovery and sustainability. In particular, the plan define ways and means by which the municipality will take to ensure consistency in the completeness of its revenue collection, reduce leakages in the revenue management operations, as well as investigate possible sources of new revenue streams which will improve its revenue base.

In addition, the Strategy will outline key initiatives that will improve the revenue management organisation with the view to turn it around into an effective organisational machinery that helps the municipality deliver an effective revenue operation. The desired outcome from these initiatives is stable financial position for the municipality, and therefore an improved service delivery position.

The medium to long-term interventions are incorporated in this IDP, as these also have material impact in regards to improving the long-term sustainability of the municipality.

The focus of the plan cuts across the following four components,

- Completeness of Revenue
- Elimination of Leakages
- Increase in Revenue Coverage
- Organisational enablers (including policies, strategy, processes, people and supporting IT systems)

6.3 BUDGET AND EXPENDITURE PATTERNS

Each year the municipality compiles three-year budget that is aligned to IDP, compliant with Treasury Budget Framework and is approved by council and submitted to Provincial and National Treasury. By 1st July 2017, all municipalities were expected to have compiled an mSCOA compliant budget for 2017/18-2019/20 MTREF period. The municipality has appointed Sebata Consulting in 2017 to administer its mSCOA compliant integrated financial and non-financial technological system, including compilation of mSCOA compliant budget. However, due to poor performance, and hence the municipality did not fully comply with National Treasury expectations, Sebata Consulting was replaced by Business Connexion in 2019.

The following expenditure patterns are recorded for previous financial years on municipal budget as per audited Annual Financial Statements;

Table.56: Budget and Expenditure Patterns: Received Grants

GRANT	2016/17 Budget	2016/17 EXP	%	2017/18 Budget	2017/18 EXP	%	2018/19 Budget	2018/19 Expenditure	%
Municipal Infrastructure Grant	37 102 000	36 699 345	98.9%	53 134 000	53 134 000	100%	42 002 991	24 881 295	59%
Financial Management Grant	1 810 000	1 810 000	100%	1 645 000	1 145 000	70%	2 645 000	1 645 000	62%
Equitable Share	202,532,621	202,532,621	100%	212 141 656	212 141 656	100%	222 970 000	222 970 000	100%

BP  *LA*

DME Electricity Grant	-	-	-	6 580 000	-	0%	9 998 000	8 271 053	83%
EPWP	1 295 000	1 295 000	100%	1 160 000	1 160 000	100%	1 758 000	1 758 000	100%
Total % Spending			99.7%			92.5%			81%

Overall spending has decreased annually for last three years and took a huge dip on MIG which recorded just fifty-nine percent spending for 2018/19 financial year.

6.4 SUPPLY CHAIN MANAGEMENT

The Municipality is implementing the Supply Chain Management policy as prescribed by MFMA and approved by council in June 2020 in line with the newly prescribed framework issued in 2018. An SCM unit has been established and bid committees (specification, evaluation and adjudication) also appointed. The SCM policy is reviewed annually to align with new legislative framework and the changing needs of the municipality.

Some of the challenges with respect to SCM processes at Lepelle-Nkumpi are delays that are a result of uninformed budgets from user departments that do not get favourable quotes from service providers. Also some suppliers commit to contracts that they are unable to honour. This leads to readvertisements of tenders and poor spending and therefore deferred service delivery to the residents.

Furthermore, council also in May 2019 approved the Model SCM Policy for Infrastructure Procurement and Delivery Management in line with MFMA Circular 77 of 2015.

6.5 CASH FLOW MANAGEMENT

Council reviewed a Cash and Investment Policy in 2019 in terms of MFMA section 13(2). Long-term Investment is vested with the municipal council in terms of section 48 of the MFMA. Short-term Investment lies with Municipal Manager or Chief Financial Officer or any other senior financial officer authorised by the Municipal Manager or Chief Financial Officer/ relevant assignee.

6.6. FINANCIAL VIABILITY CHALLENGES

- Low rate of revenue collection and limited revenue base
- Lack of powers and functions on water services
- Ageing water supply and billing infrastructure that lead to contested bills
- Poor and none responsive bids during procurement of goods and services
- Lack of electronic suppliers' database
- Shortage of funds for service delivery programmes
- High levels of poverty and unemployment among consumers

6.7. FINANCIAL VIABILITY SWOT ANALYSIS

STRENGTHS

- Budget Related Policies are in place as approved by council and reviewed regularly (as and when necessary/required)
- Procedure Manual
- Municipality has qualified skilled personnel
- Municipality does in-house compilation of its Annual Financial Statements
- Insurance

OPPORTUNITIES

- Financial systems
- GRAP Compliant FAR
- Revenue enhancement strategy and implementation

WEAKNESSES

- Non Compliance to SCM regulations & Legislations
- Loss of Assets
- Low revenue collection
- Shortage of personnel
- Unavailability of storage facility
- Incomplete FAR
- Turnaround time on procurement(delay)

THREATS

- Withdrawal of grants
- Negative audit opinion

B.P.  

- Non-payment of services (which will affect municipality's Going concern and Financial viability)
- Poor network coverage may hamper/disrupt provision of services and revenue collection
- Termination of contracts with service providers

6.8. FINANCIAL VIABILITY IDENTIFIED KEY INTERVENTIONS

- Enforce adherence to regulations and legislations
- Filling of vacant position
- Expansion of capacity within BTO unit.
- Enforcement of debt collection policy and By-Laws
- Expenditure Management and enforcement of cost containment measures
- Regular awareness of Asset Management Policy
- Regular awareness on budget planning process and implementation
- Registration of Municipal Properties
- Enhance Communication and control over procurement processes
- Enforce adherence to SCM turnaround time for submission of requisitions and procurement of goods and services.

CHAPTER 7: GOOD GOVERNANCE AND PUBLIC PARTICIPATION ANALYSIS

7.1. ESTABLISHMENT, CATEGORY AND TYPE OF MUNICIPALITY

The Municipality was established in terms of the Municipal Structures Act (Act No. 117 of 1998) on 05 September 2000 - Provincial Government Notice No. 275 of 2000. It is a Category B municipality as determined in terms of Chapter 1 of the Municipal Structures Act, 1998 and has a Collective Executive System as contemplated in Section 2(a) of the Northern Province Determination of Types of Municipalities Act, 2000 (Act No. 2 of 2000).

7.2. COUNCILLORS

Council of the municipality consists of 30 proportionally elected councillors and 30 ward councillors as determined in Provincial Notice No. 62 of 2005. Council has designated the Mayor, Speaker, Chief Whip, three Portfolio Chairpersons and MPAC Chairperson as full-time councillors in terms of Section 18(4) of the Municipal Structures Act, 1998.

The African National Congress is in the majority and the Economic Freedom Fighters is the official opposition party. The composition of political parties' representation within the municipality is as reflected by the table here below.

Table.57: Political Parties Representation in Lepelle-Nkumpi

Political Party	Male	Female	Number of Councillors	Vacancies	Total Seats	Percentage
African National Congress (ANC)	20	20	40	0	40	66.6%
Economic Freedom Fighters (EFF)	6	9	15	0	15	25%
Democratic Alliance (DA)	2	1	3	0	3	5%
Lebowakgomo Civic Organisation (LEBCO)	1		1	0	1	1.6%
Lepelle-Nkumpi Development Party (LNDP)	1		1	0	1	1.6%
Total Municipal Councillors	30	30	60	0	60	100%
Percentage	50%	50%	100%	0%	100%	100%

Source: IEC

The following traditional leaders are participating in the council the Lepelle-Nkumpi municipality as ex-officio in terms of Section 81(2) (a) of the Municipal Structures Act, 1998 and Provincial Government Notice No. 55 of 2001:

- Kgoshigadi Seloane
- Kgoshi Kekana III
- Kgoshigadi Ledwaba
- Kgoshi Mathabatha
- Kgoshigadi Mphahlele
- Kgoshi Thobejane
- Kgoshigadi Chuene

The municipality enjoys a healthy working relationship with all the seven traditional authorities. Council Executive Committee, chaired by the Mayor, has nine portfolio committees with the following gender representation among their chairpersons;

Portfolio	Councillor's Name	Gender
Chairperson (Mayor)	Cllr. M.M Molala	Female
Budget and Treasury	Cllr. M.M. Ramokolo	Female
Community Services	Cllr. M.A Makgati	Male
Roads, Transport and Electricity	Cllr. M.D Themane	Male
Corporate Services	Cllr. A Mogashoa	Male
Health and Social Development	Cllr. F.D Tsela	Male
Land, Local Economic Development, Planning and Housing	Cllr. R.L Mphahlele	Female
Sport and Recreation	Cllr. I.G Ratau	Male
Water and Sanitation	Cllr. S.M Mphofela	Male
Chairperson without Portfolio	Cllr. S Rababalela	Female

Executive Committee is further divided into three clusters that are being chaired as follow;

- Economic Cluster- Cllr. Maria Ramokolo (Female)
- Infrastructure Cluster- Cllr Moraka Themane (Male)
- Social Cluster- Cllr. Mabote Makgati (Male)

Mayor, cluster portfolio chairpersons, Speaker, Chief Whip and MPAC Chairperson are appointed as full-time councillors by Council.

7. 3. BY-LAWS

The following municipal by-laws have been approved by council and promulgated;

- Advertising Signs and Hoarding
- Building Regulations
- By-Law Relating to Meeting and Processions
- By-Law Relating to Streets
- Cemeteries and Crematoria
- Hiring of Community Halls - Building and other Facilities
- Informal and Street Trading
- Land Use Application
- Noise Abatement and Prevention of Nuisance
- Public Amenities
- Refuse Removal
- Standard Child Care Facilities
- Traffic
- SPLUMA By-Law

7. 4. Internal Audit and Audit Committee

The Municipality has established internal audit office which monitors and ensures compliance of the Municipality to legislation and policy guidelines. An audit committee was appointed in June 2020 to advise council on compliance and performance management issues. An internal audit charter was approved by the audit committee as required.

7.5. Communication and Community Participation

The Municipality has a communication unit that facilitates internal and external communication of municipal programs to stakeholders on a continuous basis. Communication in the Municipality is done through municipal newsletters, public notices and meetings, local radio stations and regional stations, regional and national newspapers, website and phones to local and external stakeholders. All the 30 wards have been allocated Community Development Workers, appointed from Provincial Department of CoGHSTA, who serve as conduits between the municipality and the community on public participation messages and services delivery matters. Council has also appointed a Spokesperson in the Mayor's office to this effect. Communication and Public Participation Strategy was reviewed by council during the 2017/18 financial year.

The major challenge with regard to public participation has been poor turn-out of community members during public/community meetings, even though transport is being arranged by municipality to ferry people from their respective villages to meetings venues.

7.6. Complaints Management and Customer Care

A customer call centre has been established with a Toll Free number (0800222011) for the communities to raise issues on service delivery. This is an electronic Complaints Management System supported by Fujitsu to deal with matters that community members would like to see resolved while also being afforded a chance to register complaints that are followed up by management. WhatsApp and short message system line is also in place to provide customer care. Municipality conducted a Customer Satisfaction Survey in 2018 to understand the general attitude of the community towards the services of the municipality and areas that require improvements.

7.7. Ward Committees

Ward committee members support the work of an elected ward councillor and report on the work of their respective portfolios on a monthly basis. Together with CDW's, they serve as conduits between the community and the municipality. Ward committee members receive a monthly stipend of R1500, 00 to compensate the work that they do in their respective wards and the municipality. New ward committees were elected for all the 30 wards in 2016/2017 financial year after local government elections.

Ward committees hold monthly committee and community meetings in their wards and a ward forum at municipal level is convened by the Speaker at least once each quarter (i.e. every three months).

7.8 Oversight Committee

Council has established a Municipal Public Accounts Committee (MPAC) and appointed members in 2016. The committee plays oversight over the work of council, its committees and administration.

7.9. Financial Reporting

The Municipality endeavours to comply with the prescriptions of MFMA and MSA for financial reporting at all times. Monthly, quarterly and annual reports are submitted to council and sent to Treasury Department and other legislative bodies. Annual financial statements are also submitted with the annual reports and later on subjected to audit by the office of the Auditor General. The municipality received a qualified audit opinion report for 2018/19 financial year, which is the sixth in a row.

Table.58: Audit Opinion for Last Five Financial Years

Financial Year	2014/15	2015/16	2016/17	2017/18	2018/19
Audit Opinion	Qualified	Qualified	Qualified	Qualified	Qualified

2018/19 Annual Report

7.9.i. Basis for qualified opinion

- Property, plant and equipment

The municipality did not recognise items of property, plant and equipment in accordance with GRAP 17, Property, plant and equipment. Land amounting to R49 645 000 was not included in financial statements and the underlying records. Consequently, property, plant and equipment was understated by R49 645 000 and revenue from non-exchange transactions was understated by the same amount.

- Revenue

The municipality did not recognise revenue in accordance with GRAP 23, Revenue from non-exchange transactions. There are properties in the underlying records that do not include the name of the registered owners, for which the municipality did not fully assess ownership. The municipality did not charge property rates on certain properties. The full extent of the understatement of property rates revenue stated R26 927 677 disclosed in note 23 to the financial statements could not be determined. Additionally, there was a resultant impact on the surplus for the year.

- Receivables from exchange transactions

The municipality calculated the provision for bad debts based on a percentage of the total debtor age analysis and did not account for the provision for bad debts as the difference between the receivables carrying amount and the present value of estimated future cash flows discounted at the effective interest rate in terms of GRAP 104 financial instruments. Furthermore, the municipality did not disclose the age analysis per category of debtors as required in terms of the above accounting standard. The correctness of impairment of receivables amounting to R80 495 557 as disclosed in the financial statements could not be determined.

The municipality did not have accurate systems in place to maintain records of receivables from exchange transactions. Differences amounting to R11 629 742 between receivables on the financial statements and underlying records were identified.

- Receivables from non-exchange transactions

The municipality did not have accurate systems in place to maintain records of receivables from non-exchange transactions. Differences amounting to R4 156 655 between receivables from exchange transactions disclosed in note 5 to the financial statements and the underlying records were identified. Consequently, receivables from non-exchange transactions were overstated by R4 156 655.

- Payables from exchange transactions

The municipality did not have accurate systems in place to maintain records of payables from exchange transactions. Differences amounting to R3 882 135 between the financial statements and underlying records of debtors with credit balances were identified. Differences amounting to R4 931 379 between the financial statements and underlying records were identified. The municipality did not accurately capture the journal amount when correcting an error on water transactions. Consequently, payables from exchange transactions disclosed in note 13 were overstated. Additionally, there was a consequential impact on surplus for the period.

- Aggregation of immaterial uncorrected misstatements

In addition to the individually material uncorrected misstatement on payables from exchange, payables from exchange was materially misstated by R3 758 838 due to the aggregated uncorrected misstatements on retention, provision for leave and accruals.

- Cash flow statement

The municipality did not prepare the cash flow statement in terms of GRAP 2, Cash flow statements. An unexplained difference of R12 891 424 between the cash flow statement and the Auditor's recalculations was identified. Consequently, the cash flow statement as at the end of the year was misstated by R12 891 424.

7.9.ii. Matters of emphasis

- Restatement of corresponding figures

As disclosed in note 35 to the financial statements, the corresponding figures for 30 June 2018 were restated as a result of errors in the financial statements of the municipality at, and for the year ended, 30 June 2019.

- Material losses

As disclosed in note 30 to the financial statements, material losses to the amount of R34 340 536 (2018: R192 531 266) were incurred as a result of impairment of trade receivables.

7.10. Anti-Corruption and Fraud Prevention Strategy

Council has approved a reviewed Anti-Corruption and Fraud Prevention Strategy in June 2012. It is a policy and a plan of the municipality guiding it on how to deal with issues around fraud risk management; proactive defence of assets; and fraud response plan. Risk Unit is responsible for implementation of the municipal anti-fraud plan although it remains the role of all stakeholders to combat fraud and corruption.

A District Fraud and Corruption Hotlines was relaunched in November 2012 to provide tool to anybody who might have to report fraud and corruption activities taking place in the municipality. The Hotline (0800205053) is managed by the District Municipality with whom campaigns on the subject are conducted on an ongoing basis.

7.11. Risk Management

Municipal council has approved a reviewed Risk Management Strategy in June 2012 and a Risk Committee was appointed in 2017 with an independent Committee Chairperson from outside municipality. A Risk Unit has been established and a Risk Officer appointed to operationalise the risk management strategy.

The following are strategic risks of the municipality;

- Inability to achieve Municipal objectives due to Covid 19 pandemic
- Inability to reach positive audit opinion
- Inadequate revenue collection
- Non Compliance with Mscoa Regulation
- Inability to attract and retain potential investors
- Inability to provide services in case of disaster
- Illegal Land occupation and land use
- Inadequate Provision of integrated waste management services to unserved areas
- Poor individual performance
- Labour Unrest
- Inability to provide basic services or failure to implement projects in the IDP
- Political Instability

The above risks were identified in 2020. The mitigation measures were developed for the risks and are contained in the risk profile of the municipality. All the municipal departments further identified operational risks to form part of the risk profile of the municipality.

7.12. Performance Management System (PMS)

The Municipality reviewed its PMS framework during the 2017/18 financial year. Individual performance assessments were done to senior managers in line with the Performance Regulations during the 2016/17 financial year. Senior managers do sign performance agreements at the beginning of the financial year, outlining what is expected of them as acceptable standards of performance. To this effect, assessment panel was appointed to conduct the individual performance assessments of municipal manager and managers reporting to him for in-year and annual performance. Performance bonuses were not paid for 2018/19 financial year performance.

Quarterly and annual organisational performance reviews are conducted and reports submitted to council and other legislative bodies to track progress on the IDP and budget implementation. An audit committee appointed by council in February 2017 has a sub-committee of Performance Audit Committee that is responsible for performance management related issues. MPAC conducts oversight on the annual report and in-year reports.

A Service Providers' Performance Management Policy was also developed during 2017/18 financial year. Monthly evaluation of the performance of service providers is conducted and a report submitted on a monthly basis.

Table 59. Summary of Previous Years' Performance

Financial Years	Targets	KPA 1-Basic Service Delivery	KPA 2-Municipal Transformation	KPA 3-LED	KPA 4-Financial Viability	KPA 5- Good Governance	KPA 6-Special Rational	Total Annual Targets
2016/17	SDBIP Targets set	54	48	18	22	41	33	216
	Targets Achieved	14	35	13	21	27	19	129
	% Target achieved	26%	73%	72%	95%	66%	57.5%	59.7%
2017/18	SDBIP Targets set	55	34	13	13	53	17	185
	Targets Achieved	13	18	11	12	38	10	102
	% Target achieved	24%	53%	85%	92%	72%	59%	55%
2018/19	SDBIP Targets set	59	16	4	7	35	5	126
	Targets Achieved	6	12	1	6	27	1	53%
	% Target achieved	10%	75%	25%	86%	77%	20%	42%

Table 60. REASONS FOR POOR PERFORMANCE FOR 2018/19 FINANCIAL YEAR AND PROPOSED CORRECTIVE MEASURES/ INTERVENTIONS

Challenges	Proposed Interventions
Delays in registration of properties due to limited budget and poor performance	Review budget allocation on registration of properties and put the service provider on terms
Poor performance of service providers	Impose penalties and terminate on time and further monitor performance.
Ineffective Bid Committees	Establish two bid Evaluation committee system to speed up procurement processes.
Non implementation of projects due to budget constraints and National Lockdown	Prioritise the 2019/20 projects during 2020/21 budget approval without loading new projects.
None compliance to approved procurement plans	Consequence Management
Project scope not aligned to approved budget	Review budget to align with the projects scope and reprioritise.

7.13. GOOD GOVERNANCE SWOT ANALYSIS

7.13.I. COMMUNICATION SERVICES

- STRENGTH

- Council has appointed a spokesperson
- There is an events coordination committees composed of representatives from all departments
- There is a communication Strategy recently reviewed
- Municipality has a good relationship with Media
- There are tools and equipment for Municipal Branding during municipal events
- Timeous publication of quarterly news letter

- WEAKNESSES

- Non-attendance of Event committee meetings.

- Understaffing
- Internal communications need improvement

- OPPORTUNITY

- Municipality's reputation /image will improve
- Decrease in community protest

- THREATS

- Communication breakdown will lead to municipality's reputation being tainted.
- Community protests.

- INTERVENTION

- Consider appointment of a Communications Manager
- To appoint service provider/s on a term contract for Communication and Marketing services
- Adopt CDM monitoring tool for service providers' assessment.
- Establishment of Social Media Accounts (including twitter and facebook)

7.13.ii. PUBLIC PARTICIPATION AND INTEGRATED DEVELOPMENT PLANNING

- STRENGTHS

- Approved IDP/Budget review process plan
- Functional IDP Steering Committee appointed by council
- There is stakeholders' participation (including traditional leaders and business) in the review activities/ process

- WEAKNESSES

- Huge service delivery backlogs
- Poor performance and inability to achieve set targets in implementation of approved IDP projects
- Poor public participation (low levels of attendants by communities) during IDP/Budget consultation meetings
- Low level of integration with Provincial and National departments

- OPPORTUNITIES

- Funding available from private and international donors and government agencies and departments for service delivery programs
- SLP's/CSI programmes of local businesses/ mines

- THREATS

- Violence and disruptions during public meetings
- Negative audit opinion due to non-compliance to review process plan
- Community impatience regarding expected delivery of services
- Bad reputation of municipality in the face of the public

- INTERVENTIONS

- Forward planning
- Mobilization of funds through for service delivery programmes from public and private sector donors
- Conduct regular report back meetings to communities through respective ward councillors.
- Extensive efforts should be made to publicize meetings to improve attendance through involvement of the Public Participation Officer in the IDP Review Process.
- Support from internal staff should be maximized, more especially management. Instruction should come from the office of the Municipal Manager.
- Conduct IDP awareness workshops among municipal officials and councillors

7.13.iii. INTERNAL AUDIT

- STRENGTH

- Unit has qualified and skilled personal
- There is an Audit Charter and Audit Methodology
- Risk Basement
- There is an Audit Plan developed to guide annual audit activities

- WEAKNESSES

- There is Shortage of staff (Internal Auditor)
- There are times when the Unit is unable to complete Audits on time
- Municipality seems to be unable to address internal audit finding as required

- THREATS

- Negative audit opinion

- INTERVENTION

- Continuous professional development
- Compile annual corporate calendar

7.13.iv. RISK MANAGEMENT

- STRENGTH

- There is an approved Risk strategy
- There is a Risk Charter and policies
- Council has appointed a Risk Committee with Chairperson from outside
- There is a Risk Management Framework

- WEAKNESSES

- There is a problem of shortage of staff (only Risk Officer is appointed in the unit)
- Creditability of Risk Management Assessment is deficient.
- Lack of Risk Awareness among municipal officials

- THREATS

- Inability to provide services
- Lack of business continuity plan

- OPPORTUNITIES

- Business continuity
- Service delivery

- INTERVENTIONS

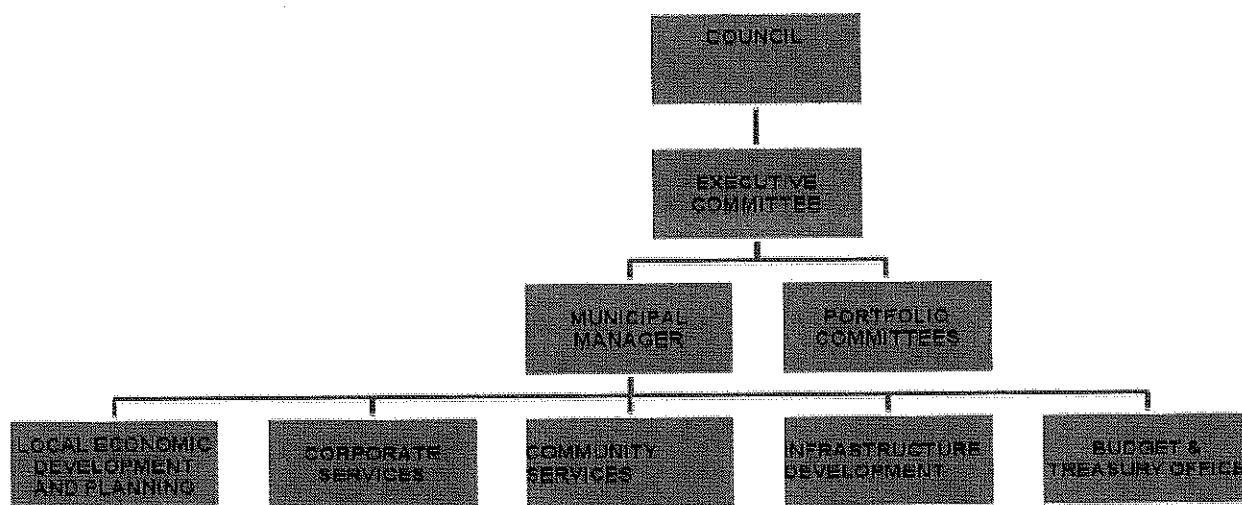

- Develop Business continuity plan
- Appoint Chief Risk Officer

CHAPTER 8: INSTITUTIONAL ANALYSIS (MUNICIPAL TRANSFORMATION AND ORGANISATIONAL TRANSFORMATION)

8.1. ADMINISTRATIVE STRUCTURE

The Municipal Manager is the municipality's accounting officer and head of its administrative component. The administrative structure is divided into five departments, i.e. Local Economic Development and Planning, Corporate Services, Social Development and Community Services, Infrastructure Development and Budget and Treasury. Council has approved an organizational structure with 304 positions in 2018/19 and is attached hereto as an Annexure. Each department is headed by an Executive Manager appointed by council and reporting to Municipal Manager. The organizational structure is aligned to powers and functions of the municipality.

Diagram 1. Organogram

Council has recognised the skills shortage in terms of specialised fields like town planning, financial management and engineering that are essential to enable it to respond to development needs of the area. Assistance has been sought and received from MISA and MIG to appoint a town planner and engineers for the municipality on a full-time contract basis.

8.2. Staff Composition and Employment Equity Plan for 2019/20 Financial Year

Table.61: Staff Composition

DEPARTMENT	FILLED POSTS			VACANT POSTS	FROZEN POSTS
	MALE (58.8%)	FEMALE (41.2%)	TOTAL (100%)		
Municipal Manager's Office	8	9	17	3	3
Infrastructure & Development	30	4	34	7	22
Budget & Treasury	10	18	28	7	0
LED & Planning	10	6	16	2	4
Corporate Services	21	25	46	10	5
Community Services	47	26	73	5	22
TOTAL POSTS (304)	126	88	214	34	56

LNM 2019/20 Mid-Year Report

Table.62: Senior Management Composition for 2019/20 Financial Year

POSITION	FILLED POSTS= 2 (100%)		VACANT POSTS
	MALE (100%)	FEMALE (0%)	
Municipal Manager	-	-	1
Chief Finance Officer	-	-	1
Corporate Services Executive Manager	-	-	1
LED & Planning Executive Manager	-	-	1
Community Services Executive Manager	1	-	-
Infrastructure Development Executive Manager	1	-	-
TOTAL POSTS (6)	2	0	4

LNM 2019/20 Mid-Year Report

Vacancy rate has risen in terms of filling of posts in Senior Management and critical positions, especially in the Infrastructure Department. One other serious challenge that the municipality is struggling with though is the issue of equitable representation of previously disadvantaged groups in all levels of municipal structure, especially representation of people with disability.

Table.63: Employment Equity Targets Numerical goals for 2018/2019

Occupational Levels	Male				Female				Foreign Nationals		Total
	A	C	I	W	A	C	I	W	Male	Female

Council reviewed its Employment Equity Plan during 2018/19 financial year with revised targets.

B.P.

LA

8.3. MANAGEMENT SYSTEMS

8.3.1. Information and Communication Technology

An ICT Unit has been established to effectively support and coordinates the municipality's information management systems and technology needs. The municipality has implemented the following ICT systems for the purpose of enhancing its institutional capacity;

- E-mail
- Website
- Internet and intranet
- Disaster Recovery Plan
- Wireless Technology Network
- Financial Management System
- ICT Kiosk, in the Library for community use
- Disaster Recovery Switching Centre
- Customer Care Call Centre
- EnviroRac
- Electronic Fleet Management

8.3.2. Code of Conduct

The code of conduct for councillors is as per the prescription of the Municipal Structures Act. Code of conduct for employees has been drawn and adopted deriving from the framework of the Municipal Systems Act 23 of 2000. It clarifies on the description of misconducts, processes to be followed and sanctions to be meted in attending to disciplinary procedures.

8.3.3. OCCUPATIONAL HEALTH AND SAFETY

Municipality has a functional OHS unit and OHS Committee to look into issues of health and safety at the workplace in compliance with OHS Act 181 of 1983.

8.3.4. HUMAN RESOURCES DEVELOPMENT AND MANAGEMENT

- Workplace Skills Development Plan: Council compiled a WSDP for 2019/20 and annually submits it to relevant authorities as a basis for training and development of staff under its employment.
- HR Policies: Among others, council developed policies on overtime, car and travel allowance, smoking, cellphone, telephone, recruitment and selection, staff code of conduct, staff bursary and performance management in compiling the 2019/20 IDP/Budget which were reviewed in 2018/19 financial year .

8.3.5. DELEGATIONS

In October 2011 Council approved delegations to devolve certain powers and functions to organs, functionaries and/or officials of Lepelle-Nkumpi Municipality in terms of Section 59 of the MSA.

The purpose of delegations is to inform the Executive Committee and Council of the statutory powers and functions of certain organs, functionaries and/or officials of Council and to obtain approval from Council for revised devolution of other powers and functions to anyone or more of the organs, functionaries and/or officials of the Council.

8.4. INSTITUTIONAL ANALYSIS SWOT

8.4.1. COUNCIL SUPPORT WEAKNESSES

- Under staffing in council support unit
- Lack of office space and working tools
- Non-enforcement of Rules of Order during council meetings
- Non adherence to Council Schedule of meetings (including portfolio committees and Exco meetings)
- Communication between Council and the public needs to be improved

THREATS

- Dissolution of Council and appointment of Administrator
- Disruptions of Council sittings and its activities
- Council unable to perform its functions:
- Violent meetings that may lead to injuries
- Non-delivery of services to community that may also lead to community protests

INTERVENTIONS

- Review of organizational structure to beef up council support
- Filling of vacant positions
- Completion of new office building and provision of resources for municipal personnel and councillors
- Enforcement of Rules of Order
- Consequence management to both Councillors and officials
- Implementation of the Communication Strategy

8.4.2. HUMAN RESOURCES

STRENGTHS

- Approved Human Resources and related policies
- Skilled Human Resources personnel
- Resourcefulness
- Staff wages/salaries and benefits are within post provisioning norm of annual budgeting
- Functional governance structures/ committees
- Employee wellness program is in place
- Compliance to Human Resources legislative framework
- Sound labour relations

OPPORTUNITIES

- Staff competent and skilled workforce
- Market related salaries for higher positions

WEAKNESSES

- Slow recruitment processes
- No recruitment strategy in place
- Performance Management System (PMS) not cascaded to employees below Section 56 Managers
- Salary disparities among levels/ notches
- Low staff morale
- Poor implementation of the Workplace Skills Development Plan

THREATS

- Delays and poor service delivery due to work overload

INTERVENTIONS

- Develop Recruitment Strategy
- Develop and implement annual recruitment plans
- Cascade PMS to employees below Section 56 Managers
- Finalise Placement & job evaluation
- Hold team building workshops
- Proper implementation of the WSP
- Implementation of Consequent Management
- Implementation of Retention Strategy

8.4.3. LEGAL SERVICES

STRENGTHS

- Approved Contracts Management Policy
- Established panel of attorneys

OPPORTUNITIES

- Improved Sourcing of Attorneys
- Improved Service delivery

WEAKNESSES

- Under staffing. Unit is meant by only one person
- Insufficient funds for legal services
- Late response to litigations
- By-laws not reviewed

THREATS

- Excessive legal fees
- Removal and attachment of municipal property

D.P.

LA

- Litigations against municipality

INTERVENTIONS

- Provision of sufficient funds for legal services during budget processes
- Review of Municipal by-laws in consultation with user departments
- Appointment of additional staff to mitigate late response to litigations

8.4.4. INFORMATION COMMUNICATION TECHNOLOGY

STRENGTHS

- Approved ICT policies
- Disaster Recovery Plan (DRP) has been developed
- ICT Corporate Governance Framework is in place
- Effective updates system, Firewall, Anti-virus on municipal network

OPPORTUNITIES

- Improved internal and external communication
- Cloud computing
- Municipality will move to E-governance and Fourth Industrial Revolution; and reduce the use paper

WEAKNESSES

- Poor network connectivity
- DRP site is close in proximity
- Short life cycle of ICT equipment

THREATS

- Disruption of provision of services due to power failure

INTERVENTIONS

- Procurement of solar panels
- Implementation of DRP through SITA

8.4.5. ADMINISTRATIVE SUPPORT

STRENGTHS

- Approved policies
- Approved SLA for security services

OPPORTUNITIES

- Improved customer service
- Improved service delivery
- Value for money
- Reduced operational costs

WEAKNESSES

- Under staffing
- Lack of office space
- Poor management of contracts
- Abuse and misuse of municipal vehicles
- Lack of Record Management System

THREATS

- Excessive operational costs (vehicles)
- Excessive accidents
- Theft of vehicles

INTERVENTIONS

- Records Management training
- Consequence Management
- Provision of office space.
- Expedite completion of new offices at the Civic centre

CHAPTER 9: CROSS-CUTTING ISSUES

Cross cutting issues refer to those issues, which require a multi-sectoral response and thus need to be considered by all role players including all government departments and municipality's departments.

9.1. Local Agenda 21

Lepelle-Nkumpi municipality is concerned about effective use of natural resources to benefit current population while being preserved for future generations. This is in line with the decisions of Kyoto Protocol, World Summit on Sustainable Development, Rio De Janeiro, and COP 17 among others. See also environmental analysis here above.

9.1.1. Climate Change

Capricorn District Municipality compiled a Climate Change Adaptation strategy that looks at climate change response, improving the district's social, economic and environmental resilience and climate change response. Climate change is a change of the average weather over **very long** periods (+10 years). Conditions include temperature, humidity, rainfall, wind, and severe storms.

The strategy focuses on the following issues in the District and its local municipalities:

- Energy efficiency and demand side management;
- Renewable Energy;
- Infrastructure Projects including transport, buildings, water management, waste water treatment and waste management;
- Economic Development
- Natural Resource Management including Agriculture;
- Disaster Management;
- Water Resource Management.

Map 34: Climate Hazards

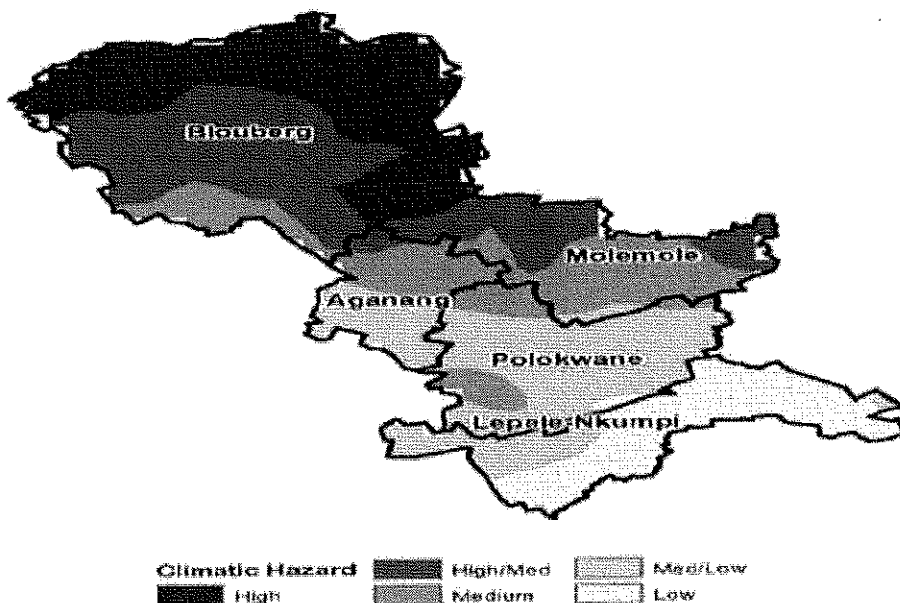

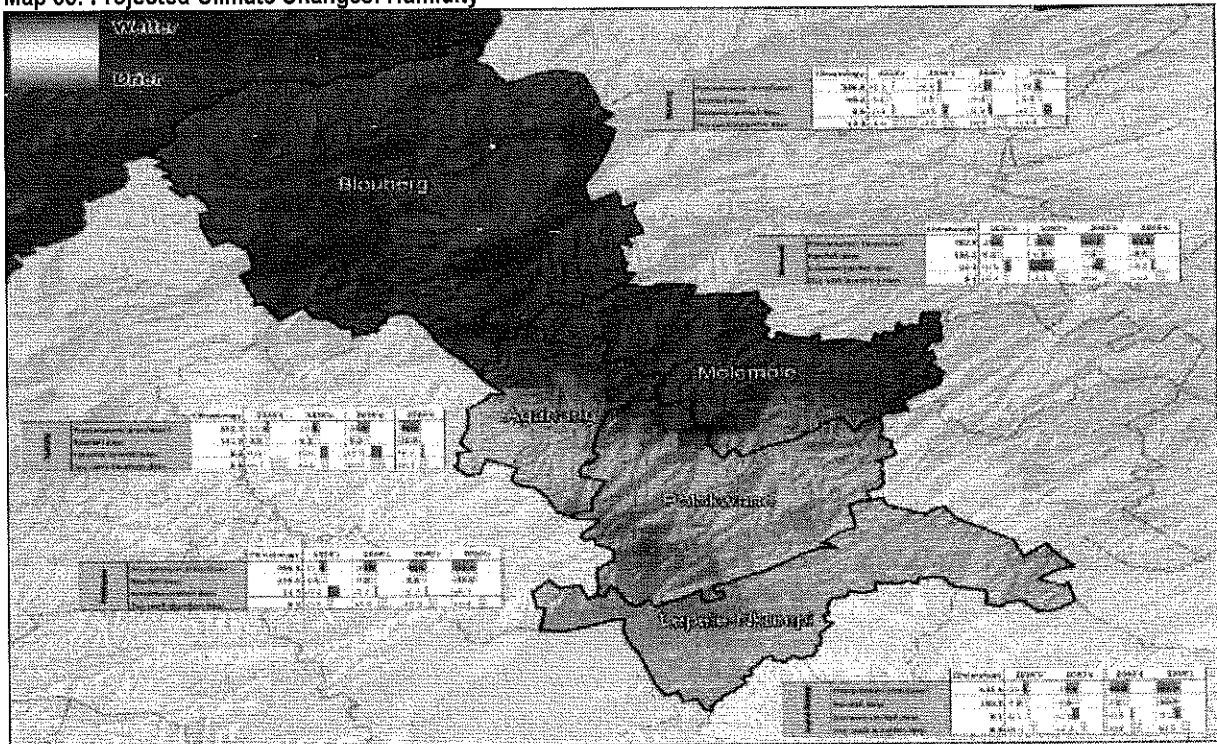

Table.65: Projected Climate Changes

	Capricorn	Climatology	2020's	2030's	2040's	2050's	Focus area
	Precipitation	610.1	-9.5	24.9	36.3	43.5	
	Day temperatures	25.3	+1.2	+1.5	+1.7	+1.9	
	Night temperatures	13.3	+1.3	+1.6	+1.8	+2.1	
Aganang	Precipitation	593.7	-10.4	-19.3	-26.3	-43.0	General drying with a focus in the northern areas of the LM. Summer shows and increase in PPT in the southern areas of the LM.
	Rainfall days	141.0	-8.8	-6.2	-9.2	-11.5	
	Extreme rainfall days	6.2	+0.0	+0.5	+0.3	+0.2	
	Dry spell duration	9.9	+0.7	+0.4	+0.6	+0.3	
	Day temperatures	24.0	+1.2	+1.6	+1.8	+2.0	The focus of the temperature changes will be to the west of the LM in all seasons.
	Night temperatures	12.3	+1.3	+1.6	+1.8	+2.0	
	Extreme Temperature days	0.0	+0.4	+1.2	+1.7	+2.6

	Nights < 10 °C	110.8	-10.5	-12.0	-17.5	-21.3	

Map 35: Projected Climate Changes: Humidity

Map 36: Projected Climate Changes: Temperatures

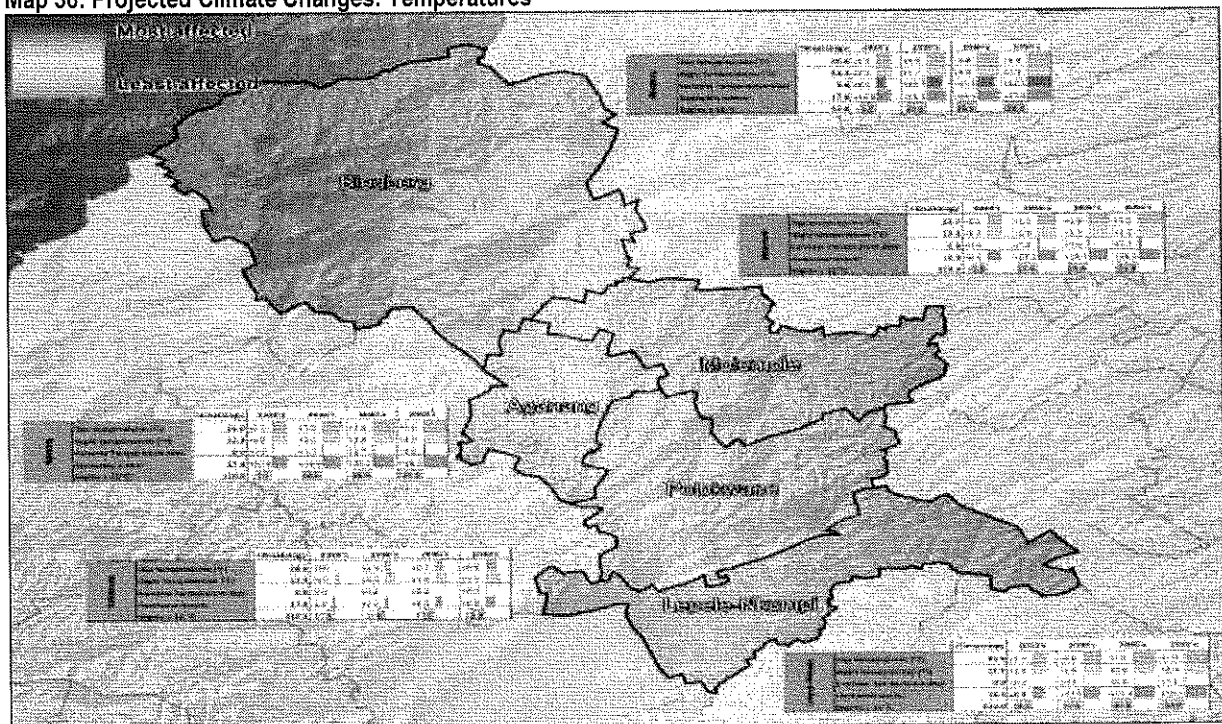

Table.66: Climate Change Risk Profile

Energy Sector	Local Municipality Risk Profile					
Climate change impacts	Aganang	Blouberg	Lepelle-Nkumpi	Molemole	Polokwane	Risks and impacts
Increased rainfall intensity in summer	Minimal Risk	Moderate risk	Major risk	Moderate risk	Minimal Risk	• Increased flooding potentially damaging electrical infrastructure
Increased temperatures	Minimal Risk	Catastrophic Risk	Minimal Risk	Major risk	Insignificant Risk	• Increased temperatures negatively impact solar power production

Energy Sector	Local Municipality Risk Profile					
Climate change impacts	Aganang	Blouberg	Lepelle-Nkumpi	Molemole	Polokwane	Risks and impacts
						<ul style="list-style-type: none"> Increased electric cooling demand increasing pressure on already stretched energy supply reliability
Increased extreme temperature days	Major risk	Catastrophic Risk	Minimal Risk	Moderate risk	Insignificant Risk	<ul style="list-style-type: none"> Increased temperatures negatively impact solar power production Increased electric cooling demand increasing pressure on already stretched energy supply reliability
Increased heat wave incidence	Minimal Risk	Catastrophic Risk	Moderate risk	Minimal Risk	Minimal Risk	<ul style="list-style-type: none"> Increased temperatures negatively impact solar power production Increased electric cooling demand increasing pressure on already stretched energy supply reliability

Table.67: Consequences of an Unstable Climate

System	Consequences
Water	<ul style="list-style-type: none"> - Water stress - potential water shedding/rationing - Reduced water security - Potential increased frequency of extremes - Exploitation and overexploitation of groundwater resources - Potential increased evaporation and decreased water balance - Decreased water quality - Impacts on rivers and wetland ecosystems
Agriculture	<ul style="list-style-type: none"> - Most scenarios suggest adverse, impacts, particularly for small-scale farmers. - Ability to be self sufficient compromised. - Soil moisture changes due precipitation shifts and evaporation rates. - Increased heat stress on humans and livestock - Decreased crop yields and rangeland productivity
Human health	<ul style="list-style-type: none"> - Strong interactions with environmental quality and current disease burden - Decreased chill unit accumulation from fewer cold days - Increased incidence of pests/disease/discomfort due to higher mean temperature or reduced precipitation - Increased incidence of heat-related illnesses, mortality and serious illness, particularly in older age groups
Extreme events	<ul style="list-style-type: none"> - Weather-related extremes are exacerbated by poor land management. - Increased threat to infrastructure exceeding design specifications relating to temperature (e.g. road surfaces, electrical equipment, etc.) - Flood potential increased. - Heatwave potential increased.
Natural resources	<ul style="list-style-type: none"> - Degradation trends likely worsen without addressing sustainable resource management issues; opportunities for increasing resilience of rural and urban communities - Protect and increase existing ecosystems services buffering against climate change impacts. - Increased heat stress on wildlife
Human settlements and Livelihoods	<ul style="list-style-type: none"> - Emerging understanding suggests and livelihoods significant and adverse impacts. - Increased electric cooling demand increasing pressure on already stretched energy supply reliability; - Exacerbation of urban heat island effect
All systems and Sectors	<ul style="list-style-type: none"> - Increased societal vulnerability and lowered personal and institutional coping capacity
Health impacts	<ul style="list-style-type: none"> - Heat stress - Decreased water quality
Competition for resources	<ul style="list-style-type: none"> - Search for arable land - Drinking water prioritised over irrigation
Reduced	<ul style="list-style-type: none"> - Some options no longer viable

System	Consequences
livelihood opportunities	
Migration/urbanisation	- Searching for sustained income in urban areas - Increased pressure on urban services
Female headed household.	- Women, children and elderly remain in rural areas and have increased vulnerability

9.1.2. CLIMATE CHANGE RESPONSE (ADAPTATION AND MITIGATION)

Adaptation: (The process of adjustment to actual or expected climate change and its effects, in order to moderate negative impacts or exploit potential opportunities.)

- Building resilience
- Risk assessment
- Integration of climate change into decision making.
- Catchment Management
- Provincial Green Economy Plan
- Building codes
- Agricultural Practices
- Bulk water and irrigation schemes (including use of grey water)

Mitigation: (A human intervention to reduce the sources of greenhouse gases.)

- Energy efficiency
- Renewable energy
- Air quality monitoring
- Energy demand management (mostly Eskom)
- Water conservation
- Nature Conservation and Environmental Management
- Use of independent power producers using renewable sources
- Recycling initiatives

9.2. POVERTY ALLEVIATION

The high levels of poverty are apparent as shown by the statistics from Census 2011 where about 79% of households have an income of less than R3500 per month (the household subsistence level) or no income at all. Poverty alleviation is a central issue for the municipality and is addressed, within the available resources, through various IDP programmes and projects. Examples of these include the municipality's LED programme, EPWP, War on Poverty, Community Work's Programme, labour intensive infrastructure and social programmes and provision of free basic services to qualifying households.

Table.68: The following Monthly Free Basic Services were provided to households as per approved indigents register during 2019/20 financial year;

Free Basic Service	Number of Households Provided With Free Basic Services		
	2017/18	2018/19	2019/20
Free Basic Water	420	356	618
Free Basic Electricity	11750	2318	3754
Free Basic Sanitation	420	356	618
Refuse Removal	420	356	618
Property Rates	420	356	618

Data Source: 2019/20 Mid-Year Report

A reviewed indigent policy was approved by council in June 2020 with an intention to provide subsidy to households with an income of up to R3 500.00 per month to access basic services. This guided the review of the indigent register by council in 2018/19 financial year to subsidize those who qualify.

B.P

LA

9.3. GENDER EQUITY

Gender inequalities exist in the social, economic, physical and institutional environment of the municipality. Women constitute 55% of the population (Community Survey 2016). Women constitute 50% of municipal councillors and 40% of its Executive Committee while the Mayor of the municipality is a woman councillor.

In terms of employment equity, the municipality has put in place an employment equity plan with monitoring indicators that are gender disaggregated. They show that women comprise fifty percent of senior management, 39% of management (i.e. level 0-3) and 42% of the total staff. Within the municipality, several initiatives have been undertaken to advance the national gender agenda. Amongst others, a gender desk has been established in the Mayor's office, a gender procurement scoring system is in place to encourage the economic empowerment of women entrepreneurs and companies. Moral Regeneration Movement was launched during 2011/12 financial year.

9.4. CHILDREN & YOUTH

According to Community Survey 2016, approximately 70% of the municipality's population can be categorized as either children or youth (below 35 years old). This group is the most vulnerable and is greatly affected by the social ills facing our society today. The municipality is experiencing a number of youth-related problems, namely HIV/AIDS; crime; teenage pregnancy; alcohol and substances abuse; unemployment; and the non-completion of schooling. Children's Forum and Youth Council have been established to deal with issues that affect young people in the municipality. Service delivery programmes are also mainstreamed to benefit the youth at various levels.

In August 2012 Municipality put in place youth development policy with the purpose to:

- Mainstream issues of youth development as central cross-cutting issues in all Municipal programmes.
- Ensure that all young men and women are given meaningful opportunities to reach their full potential both as individuals and as active participants of society;
- Address the major concerns and issues that are critical to young men and women;
- Implement youth programmes and provide services that are relevant and beneficial to the youth;
- Highlight the importance of youth development to building and sustaining a productive, democratic and equitable Municipality;
- Provide a framework with common goals for development and promoting a spirit of co-operation and co-ordination among departments, non-government organizations, community based organizations, youth organizations and the business sector;
- Recognize that young men and women are active contributors to the society and not merely as a major resource and inheritors of a future society.
- Sensitize government institutions, departments and organs of civil society towards youth development as well as to acknowledge the initiatives of young men and women;
- Ensure that government authorities work in a co-operative, harmonious and co-ordinated manner when designing and delivering programmes and services which address youth development needs and opportunities, and
- Encourage an understanding amongst young men and women of the processes of governance and provide opportunities for their participation in local programmes

The following strategic thrusts have been identified for youth development

- Strategic Thrust 1: Sound Well-being of Young People
- Strategic Thrust 2: Education and Training
- Strategic Thrust 3: Economic Participation and Empowerment
- Strategic Thrust 4: Justice and Safety
- Strategic Thrust 5: Social Mobilization, Capacity Building and Advocacy

9.5. PEOPLE LIVING WITH DISABILITIES

According to Community Survey 2016, 4.5% of the population is living with some form of disabilities. A Disability Forum was relaunched in 2016 and is actively advocating for the needs and rights of persons with disabilities within Lepelle-Nkumpi. A disability strategy is currently being developed.

9.6. OLDER PERSONS

7% of the population of Lepelle-Nkumpi is older than 64 years (Community Survey 2016). A forum for the aged was relaunched in 2016 to promote the needs and interests of this important sector of our society.

9.7. SPECIAL PROGRAMMES SWOT ANALYSIS

STRENGTHS

- Coordination of Special Programme is placed in the Mayor's Office. Issues in respect of gender, youth, children, and disabled are being addressed through a well staffed special focus unit within the municipality and through the involvement of community based structures in the wards.
- There are strong partnerships with local CBO's, local mines and government departments to implement HIV / AIDS community outreach programmes of education, training and counselling.

OPPORTUNITIES

- Strengthen Special focus programmes

WEAKNESS

- Under staffing in the unit
- Low spending patterns of allocated of budget

THREATS

- Failure to mainstream may lead to community protest

INTERVENTIONS

- Council should consider establishment of a Portfolio Committee on Special Programmes and appoint its Member of Executive Committee to deal with special focus
- Joint coordination of economic activities (coordinate summits where stakeholders will be invited to present on available opportunities)
- Mainstream/align organisational strategies to be aligned to special focus (e.g how many youth to be appointed during a particular financial year- Employment Equity)
- Improve coordination of youth development
- Develop Policy for Youth coordination
- Inclusion of Special Programmes Activities in the SDBIP of all departments
- Performance agreements of section 56 managers to include special focus programmes

9.8. DISASTER MANAGEMENT

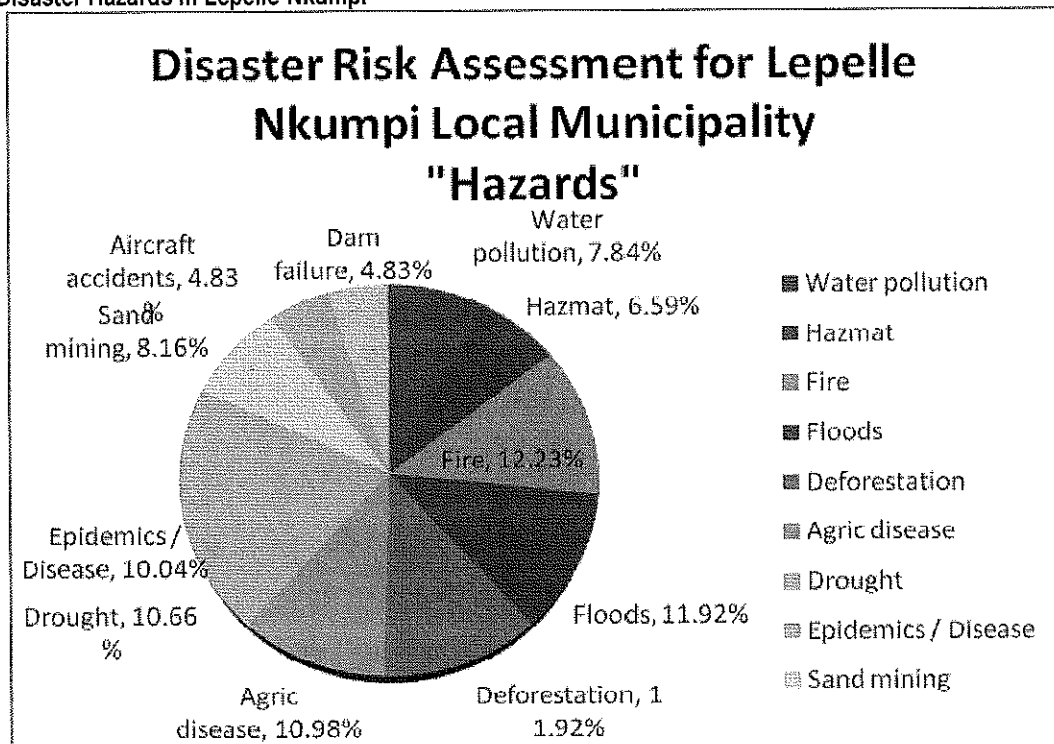

Municipality has developed a Disaster Management Plan in 2013. The District Municipality is the one with powers and functions on Disaster Management. However, according to National Disaster Management Framework, there are eight requirements that must be applied and documented by all spheres of government. These are;

- Use disaster risk assessment findings to focus planning efforts
- Establish an informed multidisciplinary team with capacity to address the disaster risk and identify a primary entity to facilitate the initiative
- Actively involve communities or groups at risk
- Address multiple vulnerabilities wherever possible
- Plan for changing risk conditions and uncertainty, including the effects of climate viability
- Apply the precautionary principle to avoid inadvertently increasing disaster risk
- Avoid unintended consequences that undermine risk avoidance behavior and ownership of disaster risk
- Establish clear goals and targets for disaster reduction initiatives, and link monitoring and evaluation criteria to initial disaster risk assessment findings

Capricorn District Municipality has, in accordance with Chapter 5 of Disaster Management Act, established Disaster Management Centers throughout the whole of its area, including one in Lepelle-Nkumpi which is at Lebowakgomo. Through this the District provides support and guidance to Lepelle-Nkumpi in the event of a disaster occurring or threatening to occur. The centre is equipped with the necessary equipment and personnel in order to deal promptly with disasters. The challenge is that the municipal area is vast with settlements of small populations scattered throughout. This makes it difficult to respond to disaster as quickly as desired by the National Disaster Management Framework.

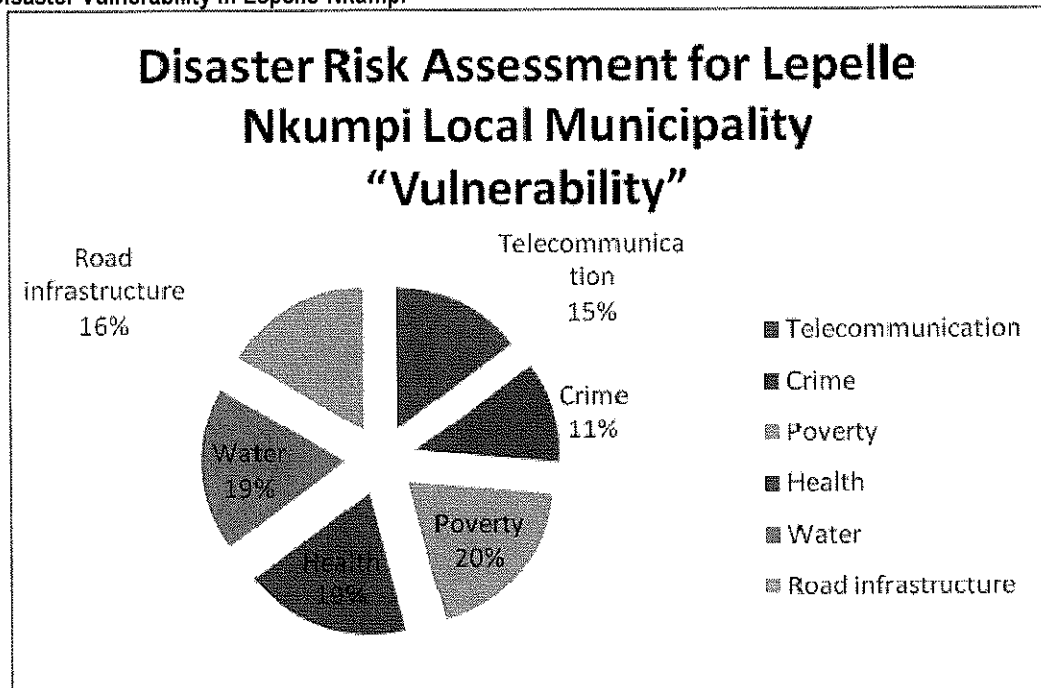

9.8.1. Disaster Risk Assessment

Chart.1: Disaster Hazards in Lepelle-Nkumpi

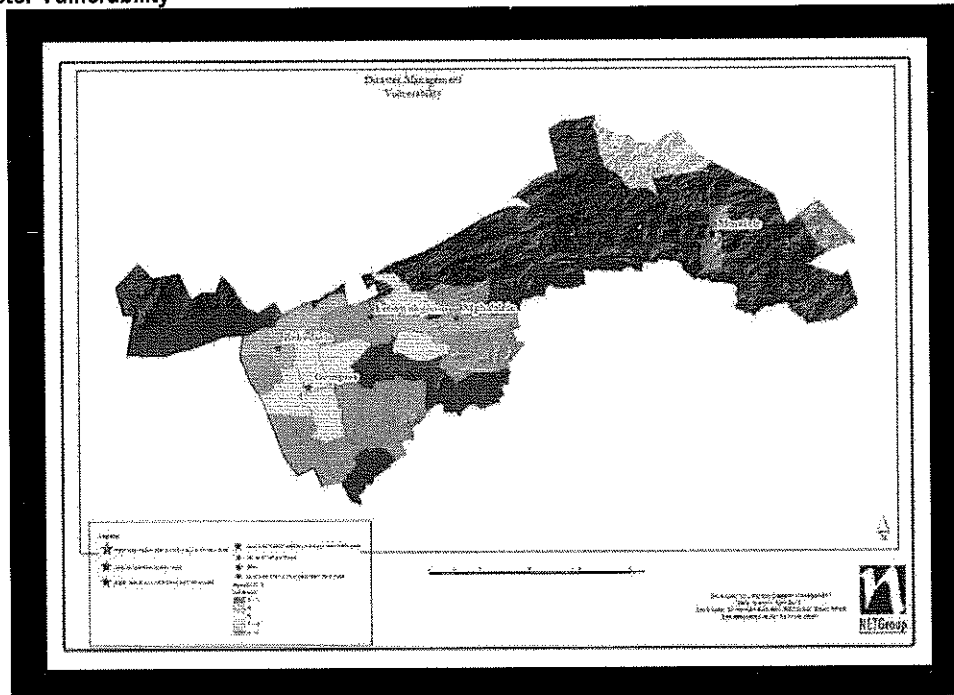

Veld fires, floods, deforestation, potential agricultural diseases, drought and epidemics are the highest priority threats in Lepelle-Nkumpi.

Chart.2: Disaster Vulnerability in Lepelle-Nkumpi

The map here below shows the spatial distribution of vulnerability in Lepelle-Nkumpi Local Municipality. Green indicates low vulnerability and orange indicates higher vulnerability. This information can be used to prioritise geographical areas in the local municipality that needs disaster management planning and resources.

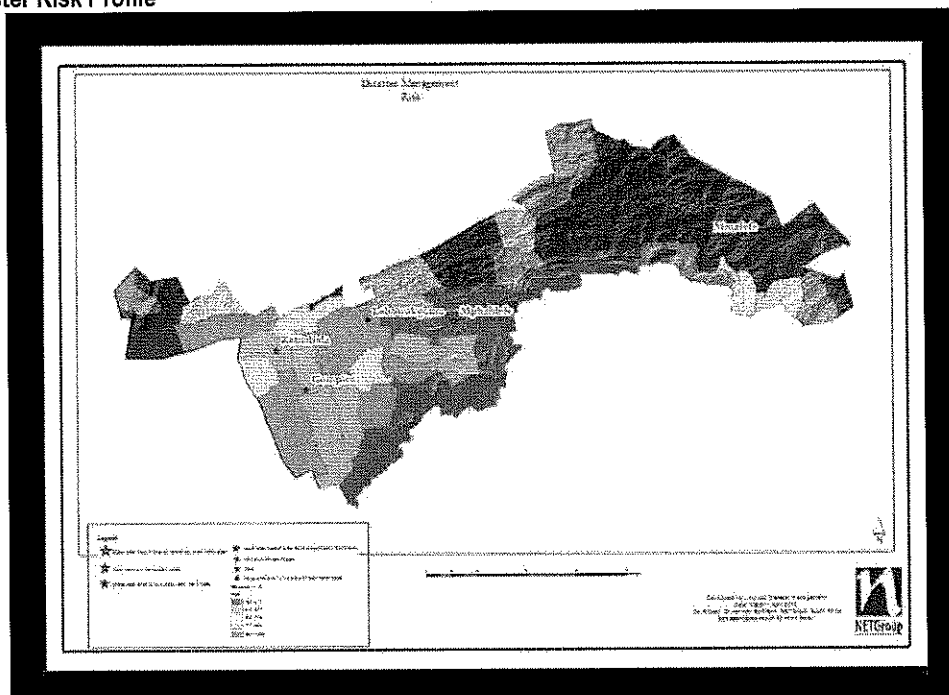

Map 37: Disaster Vulnerability

9.8.2. Disaster Risk Profile

According to the map here below, it is clear that the central and southern region of the municipality has the highest risk for disasters.

Map 38: Disaster Risk Profile

Poverty and lack of basic services are the main contributors to the high vulnerability of people and are higher priorities for all municipalities in Capricorn. Appropriate poverty alleviation programmes, health, water, road infrastructure, telecommunication programme are required to reduce the vulnerability status of communities and to help build community resilience. High crime rate in the area also requires appropriate prevention programmes.

9.8.3. DISASTER RISK SWOT ANALYSIS

STRENGTHS

- Local Disaster Advisory Forum has been launched
- Disaster Management Plan has been approved
- Indigent policy was approved and an indigents register compiled and updated
- Municipality provides indigents households with free basic services (property rates, electricity and refuse removal). Free basic water is provided to qualifying households by Capricorn District Municipality

WEAKNESSES

- Lack of disaster relief materials
- Understaffing
- Some households do not update/renewal their status on indigent beneficiaries' list
- Poor road infrastructure
- Lack of Indigent committee

OPPORTUNITIES

- Establishment of Local Disaster Management Centre
- Involvement of Disaster volunteers
- Increased funding from stakeholders

THREATS

- Loss of lives and properties due to disasters
- Increase in crime levels
- Mushrooming illegal occupation of land and informal settlement
- Lack of provision of free basic services

INTERVENTIONS

- Establishment of Indigent Committee
- Establishment of Ward Based Disaster Volunteers
- Filling of critical posts as per approved organogram
- Maintenance of traffic signs and markings

9.9. Key Findings of Cross-cutting Issues.

i. Weaknesses and Threats

- There is lack of facilities and staff to deal with HIV / AIDS testing, counselling, treatment and care. Government's Health Department is strained with understaffing at clinics and hospitals, home based care facilities are under- resourced and non-existence in some areas.
- There is no employee assistance programme to deal with those affected by HIV/AIDS within the municipality.
- There are high levels of poverty and unemployment
- There is too little budget available from the municipality to fund coordination of special focus programmes
- The municipality does not have an integrated strategy or plan to deal with matters relating to gender, youth, children and disabled

ii. Strengths and Opportunities

- Coordination of Special Programme is placed in the Mayor's Office. Issues in respect of gender, youth, children, and disabled are being addressed through a well staffed special focus unit within the municipality and through the involvement of community based structures in the wards.
- There are strong partnerships with local CBO's, local mines and government departments to implement HIV / AIDS community outreach programmes of education, training and counselling.
- An opportunity with regard to the Local Agenda 21 lies in the devolution of environmental management function and transfer of environmental officers from Province to municipalities. This was further strengthened with the approval of Environmental Management Plan.

CHAPTER 10: PRIORITISATION

COMMUNITY DEVELOPMENT PRIORITIES WHICH WERE IDENTIFIED BY COMMUNITY MEMBERS DURING WARD CONSULTATION MEETINGS (IN THEIR ORDER OF PRIORITY);

1. Water and sanitation
2. Roads and storm water
3. Electrification
4. Health
5. Housing

These top five priority needs were obtained and prioritised by communities during 2018/19 financial year's ward consultation meetings.

Table.70: Difficulty faced by Individuals According to 2016 Community Survey (Statistics South Africa)

DIFFICULTY FACED BY INDIVIDUALS	TOTAL PERSONS	PERCENTAGE
Lack of safe and reliable water supply	135599	58
Cost of water	9816	4
Lack of reliable electricity supply	4160	2
Cost of electricity	7848	3
Inadequate sanitation/sewerage/toilet services	2507	1
Inadequate refuse/waste removal	608	0
Inadequate housing	3302	1
Inadequate roads	35418	15
Inadequate street lights	5417	2
Lack of/inadequate employment opportunities	18716	8
Lack of/inadequate educational facilities	712	0
Violence and crime	1134	0
Drug abuse	153	0
Alcohol abuse	92	0
Gangsterism	47	0
Lack of/inadequate parks and recreational area	328	0
Lack of/inadequate healthcare services	1618	1
Lack of/inadequate public transport	335	0
Corruption	1990	1
Other	904	0
None	3220	1
Unspecified	-	-
Total	233925	100

The above were obtained from Census 2011 by Stats SA in its households visits.

Table.71: MUNICIPAL INTERVENTION PRIORITY AREAS

FOCUS AREA	PRIORITIES
1. Roads and storm water	i. Lobby for construction of access roads for regional and settlements integration
	ii. Construction of storm water control infrastructure
	iii. Maintenance of existing roads and storm water control systems and infrastructure
	iv. Improve roads and storm water provision planning
2. Energy	i. Provision of alternative energy sources (energy saving/ solar)
	ii. Provision of households electrification
	iii. Apply for electricity provider status
3. Water and sanitation	i. Lobby for operation and maintenance of existing sanitation and water supply systems and infrastructure
	ii. Lobby for development of bulk water supply infrastructure

FOCUS AREA	PRIORITIES
	<ul style="list-style-type: none"> iii. Lobby for additional capacity of waste water treatment plant iv. Lobby for provision of household sanitation infrastructure v. Apply for water and sanitation authority status
4. Environment and waste	<ul style="list-style-type: none"> i. Expansion of waste removal services to households ii. Prevention and combating of illegal mining iii. Asbestos mining rehabilitation iv. Prevention and combating of illegal dumping
5. Sport, arts, recreation, heritage and culture	<ul style="list-style-type: none"> i. Upgrading of Lebowakgomo Stadium ii. Establishment of Sport and Recreation coordination office iii. Construction of sport and recreation facilities iv. Conservation and promotion of cultural and heritage sites
6. Local economic development	<ul style="list-style-type: none"> i. Local SMME's empowerment ii. Tourism attraction iii. Creation of job opportunities iv. Lobby for opening of mining activities and beneficiation v. Lobby for opening of manufacturing activities and light industries operations
7. Human settlement and spatial planning	<ul style="list-style-type: none"> i. Development of residential and business sites ii. Prevention and combating of illegal occupation of land iii. Lobby for provision of low-middle income housing
8. Transport/ traffic and licensing services	<ul style="list-style-type: none"> i. Upgrading of vehicle testing station ii. Upgrading and maintenance of taxi ranks iii. Roads safety campaigns iv. Development of bus ranks
9. Health and social development	<ul style="list-style-type: none"> i. Lobby for construction of clinics ii. Prevention and combating of substances abuse (nyaope, drugs and alcohol) iii. Coordination of local AIDS Council iv. Crime prevention
10. Community and social amenities	<ul style="list-style-type: none"> i. Construction of public crèches ii. Establishment of Thusong Service Centres iii. Public lighting iv. Provision of free Wi-Fi spots at public places v. Development of parks
11. Financial viability	<ul style="list-style-type: none"> i. Improve revenue collection and revenue base ii. Improve budget spending iii. Prioritise procurement from local SMME'S
12. Institutional transformation	<ul style="list-style-type: none"> i. Job evaluation and staff placement ii. Staff and councillors training iii. Filling of vacant positions iv. Litigations and recovery of legal costs v. Cascade performance management to all levels employees
13. Disaster risks management and indigents support	<ul style="list-style-type: none"> i. Provision of free basic services and indigents support ii. Disaster prevention and provision of disaster relief material
14. Good governance and public participation	<ul style="list-style-type: none"> i. Conduct regular community/ stakeholders feedback meetings ii. Improve audit opinion iii. Conduct ward/ Community based planning iv. Improve and maintain functionality of ward committees v. Mainstreaming of special focus
15. Education	<ul style="list-style-type: none"> i. Lobby for establishment of a satellite university or university of technology ii. Lobby for construction of libraries iii. Lobby for construction of a 'Dinaledi' School iv. Lobby for opening of access to primary and secondary education

The above priorities are a result of municipality's internal process to look at what was received from public and stakeholders' consultation and analysis of municipality's sector plans.

CHAPTER 11: STRATEGY PHASE

11.1. STRATEGIC ORGANISATIONAL OBJECTIVES

- To provide sustainable basic services and infrastructure development.
- To plan and manage spatial development within the municipality.
- Promote shared economic growth and job creation.
- To protect biodiversity and cultural heritage, enforce environmental compliance and mitigate the impact of climate change.
- To enhance financial viability and management.
- To increase the capability of the municipality to deliver on its mandate.
- Promote good governance and active citizenry.

11.2. ALIGNMENT OF MUNICIPAL STRATEGIC OBJECTIVES TO IUDF

IUDF STRATEGIC GOALS	IUDF POLICY LEVERS	MUNICIPAL STRATEGIC OBJECTIVE
Spatial Integration	Policy lever 1: Integrated urban planning and management	<ul style="list-style-type: none"> ▪ To plan and manage spatial development within the municipality.
	Policy lever 2: Integrated transport and mobility	
	Policy lever 3: Integrated sustainable human settlements	
Inclusion and Access	Policy lever 4: Integrated urban infrastructure	<ul style="list-style-type: none"> ▪ To provide sustainable basic services and infrastructure development. ▪ To protect biodiversity and cultural heritage, enforce environmental compliance and mitigate the impact of climate change.
Growth	Policy lever 6: Inclusive economic development	<ul style="list-style-type: none"> ▪ Promote shared economic growth and job creation.
Governance	Policy lever 5: Efficient land governance and management	<ul style="list-style-type: none"> ▪ To plan and manage spatial development within the municipality.
	Policy lever 7: Empowered active communities	<ul style="list-style-type: none"> ▪ To increase the capability of the municipality to deliver on its mandate. ▪ Promote good governance and active citizenry.
	Policy lever 8: Effective urban governance	<ul style="list-style-type: none"> ▪ To increase the capability of the municipality to deliver on its mandate. ▪ Promote good governance and active citizenry.
	Policy lever 9: Sustainable finances	<ul style="list-style-type: none"> ▪ To enhance financial viability and management.

Table 72: alignment of municipal strategies with national development programme

NDP CHAPTER	NDP OBJECTIVE	NDP ACTION	MUNICIPAL STRATEGIC OBJECTIVE	IDP STRATEGIES
Economy and employment	Public employment programmes should reach 1 million people by 2015 and 2 million people by 2016	Broaden the expanded works programme to cover 2 million fulltime equivalent jobs by 2020	Promote shared economic growth and job creation	Coordinate creation of jobs through Community Works Programme and Expanded Public Works Programme
				Coordinate business support, tourism development and job creation programs
Economic infrastructure	The proportion of people with access to the electricity grid should rise to at least 90% by 2030, with non-grid options available to the rest	The proportion of people with access to the electricity grid should rise to at least 90% by 2030, with non-grid options available to the rest	To provide electrical connections to households in all wards	Electrify households on a project per area basis
				Improve on maintenance of current lighting infrastructure
Economic infrastructure	Ensure that all people have access to clean, potable water and there is enough water for a agriculture and industry, recognising the trade-offs in the use of water	Ensure that all people have access to clean, potable water and there is enough water for a agriculture and industry, recognising the trade-offs in the use of water	To provide lighting infrastructure in a cost-effective way	Install new high mast lights
				Install new streetlights
			To provide community, sports/, recreational and child care facilities.	Improve on maintenance of community, sports, recreational and child care facilities
				Provide waste management services
			To improve access to waste management services	Improve on maintenance of roads and storm water infrastructure
Environmental sustainability	The proportion of people who use public transport for regular commutes will expand significantly by 2030, public transport will be user friendly, less environmentally damaging, cheaper and integrated or seamless	Public transport infrastructure and systems, including the improvement of road-based transport services at an affordable rate	To provide roads and storm water infrastructure	Construct new community halls and crèche
				Upgrade gravel roads to surfaced roads
			To improve quality of life for residents	Guide, monitor and control spatial planning, land use management and development within the Municipality
				Conduct operations on enforcement of National Road Traffic Act and Municipal by-laws
			To ensure public safety	Conduct operations on enforcement of National Road Traffic Act and Municipal by-laws

Transforming human settlements	Zero emission building standards by 2030	All new buildings to meet the energy efficiency criteria set out in South African National Standard 2004	To improve quality of life for residents	Guide, monitor and control spatial planning, land use management and development within the Municipality
	Absolute reductions in the total volume of waste disposal to landfill each year	Absolute reductions in the total volume of waste disposal to landfill each year	To ensure access to free basic services	Review and update the indigent register
	Improved disaster preparedness for extreme climate events	Improved disaster preparedness for extreme climate events	To provide effective and efficient Human Resources management and development	Render efficient Human Resources management, optimal development and Organisational strategies.
	Increased investment in new agricultural technologies, research and the development of adaptation strategies for the production of rural livelihoods and expansion of commercial agriculture	Channel public investment into research, new agricultural technologies for commercial farming, as well as for the development of adaptation strategies and support services for small-scale and rural farmers	Promote shared economic growth and job creation	Coordinate business support, tourism development and job creation programs
	Strong and efficient spatial planning system, well integrated across the spheres of government	Reforms to current planning system for improved co-ordination	To Improve quality of life for residents	Guide, monitor and control spatial planning, land use management and development within the Municipality
		Provide incentives for citizen activity for local planning and development of spatial compacts	To strengthen capacity to prevent and combat fraud and corruption	Provide municipal accountability and strengthen local democracy
	Upgrade all informal settlements on suitable, well located land by 2030	Develop a strategy for densification of cities and resource allocation to promote better local housing and settlements	Guide, monitor and control spatial planning, land use management and development within the Municipality	Revise the land use management scheme in terms of Spatial Planning and Land Use Management Act 2013(Act 16 of 2013)(SPLUMA)
	More people living closer to their places of work	Develop a strategy for densification of cities and resource allocation to promote better local housing and settlements	To provide responsive customer care services	Render customer care services
	Conduct a comprehensive review of the grant and subsidy regime for housing with a view to ensure diversity in product and finance options that would allow for more household choice and greater spatial mix and flexibility. This should include a focused strategy on the housing gap market, involving banks, subsidies and employer housing schemes	Conduct a comprehensive review of the grant and subsidy regime for housing with a view to ensure diversity in product and finance options that would allow for more household choice and greater spatial mix and flexibility. This should include a focused strategy on the housing gap market, involving banks, subsidies and employer housing schemes	Guide, monitor and control spatial planning, land use management and development within the Municipality	Revise the land use management scheme in terms of Spatial Planning and Land Use Management Act 2013(Act 16 of 2013)(SPLUMA)

B.P

Better quality public transport		Substantial investment to ensure safe, reliable and affordable public transport	To render and promote efficient Human Resources management, optimal development and Organisational strategies.	Manage sound employment relations, employee health and wellness programmes
	More jobs in or close to dense, urban townships	Introduce spatial development framework and norms, including improving the balance between location of jobs and people	To improve quality of life for residents	Guide, monitor and control spatial planning, land use management and development within the Municipality
Improving education, training and innovation	Make early childhood development a top priority among the measures to improve the quality of education and long-term prospects of future generations. Dedicated resources should be channelled towards ensuring that all children are well cared for from an early age and receive appropriate emotional, cognitive and physical development stimulation	Design and implement a nutrition programme for pregnant women and young children, followed by an early childhood development and care programme for all children under the age of 3	To provide roads and storm water infrastructure	Maintain existing tarred roads
		Increase state funding and support to ensure universal access to two years of early childhood development exposure before Grade 1	To provide roads and storm water infrastructure	Maintain existing tarred roads
		Strengthen coordination between departments, as well as the private and non-profit sectors. Focus should be on routine day-to-day coordination between units of departments that so similar work	To encourage good governance and public participation	Provide strategic and integrated development planning services to council
		Expanding staff and capital resources in policing departments and emergency services to provide improved services to all, especially the most vulnerable communities	To ensure enforcement and compliance with environmental legislation	Conduct environmental compliance inspections
Health care for all	Reduce injury, accidents and violence by 50% from 2010 levels	Provide effective primary health care services	To provide effective and efficient Human Resources management and development	Render efficient Human Resources management, optimal development and Organisational strategies.
	Deploy primary healthcare teams which provide care to families and communities	Provide effective primary health care services	N/A	N/A
Social protection	Everyone must have access to an equal standard of care, regardless of their income	Address problems such as hunger malnutrition and micro-nutrient deficiencies that affect physical growth and cognitive development, especially among children	To provide roads and storm water infrastructure	Install new traffic control lights at traffic intersections
	All children should enjoy services and benefits aimed at facilitating access to nutrition, health care, education, social care and safety	Pilot mechanisms and incentives to assist the unemployed to access the labour market	To provide effective and efficient Human Resources management and development	Render efficient Human Resources management, optimal development and Organisational strategies.

B.P

Building safer communities	In 2030 people living in South Africa feel safe and have no fear of crime. They feel safe at home, at school and at work, and they enjoy an active community life free of fear. Women can walk freely in the street and the children can play safely outside. The police service is a well-resourced professional institution staffed by highly skilled officers who value their work, serve the community, safeguard lives and property without distinction, protect the peaceful against violence and respect the rights of all to equality and justice	All schools should have learner safety plans. Increase community participation and safety initiatives. Safety audits done in all communities focusing on crimes and safety conditions of the most vulnerable in the community	To ensure enforcement and compliance with environmental legislation	Conduct environmental compliance inspections
	A state that is capable of playing a developmental and transformative role	A state that is capable of playing a developmental and transformative role	To provide and advice on legal matters, draft and interpret contracts and legislations, ensure legal compliance.	Provide inhouse legal support to the municipality
			To encourage good governance and public participation	Provide municipal accountability and strengthen local democracy
			To promote the needs and interests of special focus groups	Coordinate, advocate, capacitate, mainstream, monitor and evaluate special focus programmes
Building a capable and developmental state	A state that is capable of playing a developmental and transformative role	A state that is capable of playing a developmental and transformative role	To provide assurance and consulting services to management and Council on internal controls, risk management and governance	Improve risk management systems and protect the municipality from risks
			To Improve municipality's financial planning, expenditure, accounting and reporting capability	Compile Annual GRAP Financial Statements compliant and submit to stakeholders
				Manage and monitor financial resources of the municipality
			To provide responsive customer care services	Render customer care services
				Compile Workplace skills plan and submit to LGSETA
	Staff at all levels has the authority, experience, competence and support they need to do their jobs	Create an administrative head of the public service with responsibility for managing the career progression of heads of department. Put in place a hybrid approach to top appointments that allows for the reconciliation of administrative and political priorities	To provide effective and efficient Human Resources management and development	Render efficient Human Resources management, optimal development and Organisational strategies.

B.P.

	Use differentiation to ensure a better fit between the capacity and responsibilities of provinces and municipalities. Take a more pro-active approach to resolving coordination problems and a more long-term approach to building capacity	N/A	N/A
Relations between national, provincial and local government are improved through a more pro-active approach to managing the intergovernmental system	Develop regional utilities to deliver some local government services on an agency basis where municipalities or districts lack capacity. Make the public service and local government careers of choice. Improve relations between national, provincial and local government	To provide responsive customer care services	Render customer care services
	Adopt a less hierarchical approach to coordination so that routine issues can be dealt with on a day-to-day basis between mid-level officials. Use the cluster system to focus on strategic cross-cutting issues and the Presidency to bring different parties together when co-ordination breaks down	N/A	N/A
	Expand the scope of whistle-blower protection to include disclosure to bodies other than the Public Protector and the Auditor-General. Strengthen measures to ensure the security of whistle-blowers	To improve service delivery by providing high quality ICT services	Implementation of the electronic Integrated municipal system
	Centralise oversight of tenders of long duration or above a certain amount	N/A	N/A
Fighting corruption	A corrupt-free society, a high adherence to ethics through-out society and a government accountable to its people	To provide responsive customer care services	Render customer care services
	Clear rules restricting business interest of public servants should be developed	To improve service delivery by providing high quality ICT services	Implementation of electronic integrated municipal system
	All corrupt officials should be made individually liable for all losses incurred as a result of their corrupt actions	To provide strategic management support to the Municipality	Monitor and manage Institutional issues
	Improving public services and spaces as well as building integrated housing and sport facilities in communities to ensure a sharing of common spaces across race and class	To encourage good governance and public participation	Provide municipal accountability and strengthen local democracy
Nation building and social cohesion	Our vision is a society where opportunity is not determined by race or birth right, where citizens accept that they have both rights and responsibilities.		Effective oversight role of Council through MPAC and other platforms

Most critically, we seek a united, prosperous, non-racial, non-sexist and democratic South Africa	To improve quality of life for residents	Guide, monitor and control spatial planning, land use management and development within the Municipality
	To provide roads and storm water infrastructure	Maintain existing tarred roads

Table 73: Alignment of municipal strategies with Limpopo Development Plan

LDP OUTCOMES	SUB-OUTCOMES	MUNICIPAL STRATEGIC OBJECTIVES
1. Quality basic education	Access to quality early childhood development	To provide community, sports/, recreational and child care facilities.
	Improved quality teaching and learning	To provide community, sports/, recreational and child care facilities.
	Capacity of the state to intervene and support quality education	To provide community, sports/, recreational and child care facilities.
	Increased accountability for improved learning	
	Human resources development and management of schools	Not applicable
2. Long and healthy life	Infrastructure and learning materials to support effective education	To lobby for construction of additional classrooms
	Average male and female life expectancy at birth increased to 70 years	Not applicable
	Tuberculosis prevention and cure progressively improved	
	Maternal, infant and child mortality reduced	
	Prevalence of non-communicable diseases reduced by 28%	
	Health information systems improved	
	Health systems reforms completed	
	Primary health care teams deployed to provide care to families and communities	To lobby for construction of additional clinics
	Universal health coverage achieved	

	Posts filled with skilled, committed and competent individuals	Not applicable
3. All people are safe	Reduced levels of serious and violent crime	Not applicable
	An efficient and effective criminal justice system is established and maintained	To ensure public safety
	Limpopo's borders are effectively safeguarded and secured	Not applicable
	Cyber space is secured	To improve service delivery by providing high quality ICT services
	Domestic stability is ensured	Not applicable
4. Decent employment through inclusive growth	Corruption in the public and private sectors is reduced	To strengthen capacity to prevent and combat fraud and corruption
	Crowding-in productive investment through infrastructure	To stimulate growth and development in the area
	Focus on productive sectors	To stimulate growth and development in the area
	Eliminate unnecessary regulatory burdens	To stimulate growth and development in the area
	Appropriate up-skilling of labour force	To render and promote efficient Human Resources management, optimal development and Organisational strategies.
	Expand employment in Agriculture	To stimulate growth and development in the area
	Reduced workplace conflict	To render and promote efficient Human Resources management, optimal development and Organisational strategies.
5. Skilled and capable workforce	Public employment schemes	To facilitate job creation in the area
	An expanded, effective, coherent, integrated and quality post school system	Not applicable
	Strengthened governance and management of institutions	To provide assurance and consulting services to management and Council on internal controls, risk management and governance
	Improved equity in access and quality of outcomes	To render and promote efficient Human Resources management, optimal development and Organisational strategies.
	Transparency and quality of information	To encourage good governance and public participation
	Strengthened vocational and continuing education and training	To render and promote efficient Human Resources management, optimal development and Organisational strategies.

B.P.

	Integrated work-based learning within the TVEC system	strategies.
	Improved performance of skills development system	
	A new generation of high quality lecturers	Not applicable
	Expanded production of highly skilled professionals and enhanced innovation	To render and promote efficient Human Resources management, optimal development and Organisational strategies.
6. Competitive economic infrastructure	Construction of Mamitwa dam	To lobby for expansion of water bulk supply and reticulation infrastructure
	Raising of Tzaneen dam wall	
	Integrated Mooihoek Water scheme	
	Reticulation from De Hoop and Nandoni dams	
	Purified water supply to Bela-Bela, Modimolle and Mookgopong Local Municipalities	To provide roads and storm water infrastructure
	Rural access roads in support of agriculture and tourism clusters	
	Solar photovoltaic electricity generation	Not applicable
	Information and communication technology	To improve service delivery by providing high quality ICT services
	Nodal infrastructure for the priority growth points	To guide, monitor and control spatial planning, land use management and development within the municipality
	Adequate maintenance for all existing infrastructure	To provide lighting infrastructure in a cost-effective way
7. Comprehensive rural development	Improved land administration and spatial planning for integrated development with a bias towards rural areas Up-scaled rural development as a result of co-ordinated and integrated planning, resource allocation and implementation by all stakeholders Sustainable land reform (agrarian transformation) Improved food security	To provide community, sports/, recreational and child care facilities.
		To provide roads and storm water infrastructure
		To guide, monitor and control spatial planning, land use management and development within the municipality
		To stimulate growth and development in the area

B.P.

	Smallholder farmer development and support for agrarian transformation	Increased access to quality basic infrastructure and services, particularly in education, healthcare and public transport in rural areas	To provide sustainable basic services and infrastructure development.
		Growth of sustainable rural enterprises and industries characterised by strong urban-rural linkages, increased investment in agro-processing, trade development and access to markets and financial services - resulting in rural job creation	To promote the needs and interests of special focus groups
		Better spatial planning to better target resource allocation	To guide, monitor and control spatial planning, land use management and development within the municipality
8. Human settlement development		Ensuring that poor households have adequate housing in better living environments	To guide, monitor and control spatial planning, land use management and development within the municipality
		Supporting the development of a functionally and equitable residential property market	To lobby for provision of low income to low-middle income houses
		Improving institutional capacity and coordination	To improve quality of life for residents
9. Developmental local government		Households progressively gain access to sustainable and reliable basic services	To encourage good governance and public participation
		Public trust in local government is improved through active and deliberate citizen engagement	To provide sustainable basic services and infrastructure development.
		Municipalities demonstrate good financial governance	To provide responsive customer care services
		Quality of management and administrative practices within municipalities is improved	To improve municipality's financial planning, expenditure, accounting and reporting capability
			To provide and advice on legal matters, draft and interpret contracts and legislations, ensure legal compliance.
			To provide effective general administration, security and fleet management services
		Municipalities attract and retain skilled and competent staff	To provide effective and efficient Human Resources management and development
		Work opportunities are created and expanded through programmes such as the Community Works Programme (CWP)	To facilitate job creation in the area

	Quality of governance arrangements and political leadership are enhanced	To provide strategic management support to the Municipality
	Corruption within local government is tackled more effectively and consistently	To provide assurance and consulting services to management and Council on internal controls, risk management and governance
	Concrete actions that ensure a better fit between responsibility and the variation in capacities within municipalities are supported	To encourage good governance and public participation
	Ecosystems are sustained and natural resources are used efficiently	To ensure enforcement and compliance with environmental legislation
	An effective climate change mitigation and adaptation response is developed	To ensure enforcement and compliance with environmental legislation
10. Environmental protection	An environmentally sustainable, low-carbon economy is created	To provide lighting infrastructure in a cost-effective way
	Governance systems and capacity are improved	To ensure enforcement and compliance with environmental legislation
	Sustainable human communities are established	To ensure enforcement and compliance with environmental legislation
	Strengthen regional political cohesion and accelerate regional economic integration	To encourage good governance and public participation
11. Regional integration	Enhanced implementation of the African Agenda and sustainable development	To guide, monitor and control spatial planning, land use management and development within the municipality
	Strengthen bilateral political and economic relations	Not applicable
	Enhance institutional capacity and coordinating mechanisms to manage international relations	Not applicable
	A stable political-administrative interface	To encourage good governance and public participation
12. Developmental public service	A public service that is a career of choice	To provide effective and efficient Human Resources management and development
	Sufficient technical and specialist professional skills	To render and promote efficient Human Resources management, optimal development and Organisational strategies.
	Efficient and effective management and operations systems	To improve service delivery by providing high quality ICT services

B.P.

130

13. Inclusive social protection system	Procurement systems that deliver value for money	To improve municipality's financial planning, revenue collection, expenditure and reporting capability - To provide responsive customer care services - To encourage good governance and public participation
	Strengthened accountability to citizens	Provide strategic and integrated development planning services to council
	Improved inter-departmental coordination	To provide assurance and consulting services to management and Council on internal controls, risk management and governance
	Reduced corruption in the public service	
	Ensure that the country is kept working	To stimulate growth and development in the area
	Individuals are engaged in meaningful activity	To encourage good governance and public participation
	Vulnerable groups and citizens are protected from the worst forms of poverty	To ensure access to free basic services
	Reducing inequality of opportunity, redress	To promote the needs and interests of special focus groups
	Enabling the sharing of common space	To provide community, sports/, recreational and child care facilities.
	Awakening the populace to speak when things go wrong and to be active in their own development	To encourage good governance and public participation
14. Social cohesion	Engendering knowledge of the Constitution and fostering the values contained therein	To encourage good governance and public participation

- xvi. Supply Chain Management Policy
- xvii. Revenue Enhancement Strategy
- xviii. Integrated Public Safety Strategy

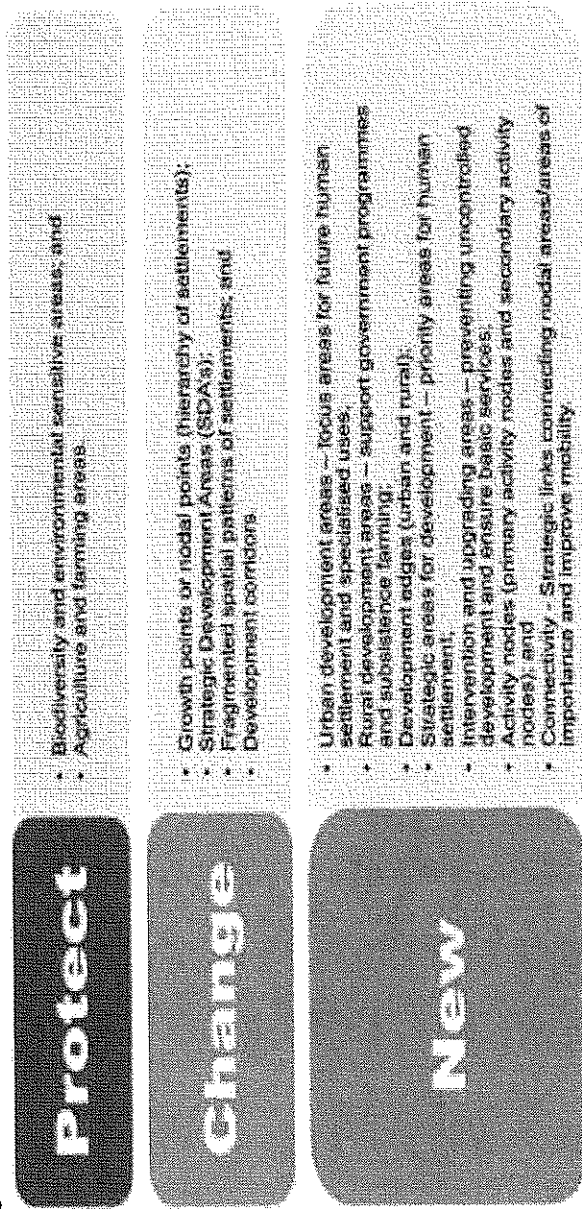

B.P.

I. SPATIAL DEVELOPMENT FRAMEWORK

One of the requirements of the Municipal Systems Act, 2000 is that municipal IDP's should contain a Spatial Development Framework (SDF). A reviewed SDF was approved by council in 2008 financial year. And the document was again reviewed during 2016/17 financial year to align it with changing circumstances and new planning legislation and policy framework, notably NDP, LDP, LSDF and SPLUMA.

Figure 4. Spatial strategies

It is necessary to "spatially arrange" these components in such a way that it complies with the development principles set for the area and by using certain planning tools or techniques.

In order to achieve the above desired spatial form for the municipal SDF, the following planning tools and concepts will be utilised, namely:

- The concept of protection areas wherein valuable natural and economic resources require protection.
- The concept of a hierarchy of settlements including settlement re-structuring in order to correct distorted spatial patterns and ensure optimal utilisation/provision of infrastructure and engineering services;

- The concept of development (urban) edges which provides in the containment of and limitations for development;
- The concept of nodes wherein higher intensity of land uses and activities are supported and provided for;
- The concept of corridors or functional linkages between nodes;
- The concept of growth areas or strategic development areas where future growth opportunities are identified, which include intensities of development and infill development;
- The concept of intervention areas for example where rural development should receive priority or where informal settlement upgrading should take place; and
- The concept of areas where the expansion of urban areas should realise over the long term period (directions of expansion).

HIERARCHY OF SETTLEMENTS

Hierarchy of Settlements	1. Urban Development Areas	1.1. Lebowakgomo/Mphahlele District Growth Point
		1.2. Molelane/Mogoto Municipal Growth Point
	2. Rural Development Areas	2.1 Magatle Rural Development Focus Areas
	3. Rural Hinterland and Farms	3.1. Magatle Rural Hinterland Villages
		3.2. Mphahlele Rural Hinterland Villages

	Urban Development Areas	1.1. Lebowakgomo/Mphahlele District Growth Point
		3.3. Mathabatha/Mafefe Rural Hinterland Villages

Urban Development Areas

- The Lebowakgomo-Mphahlele District Growth Point (DGP) and;
- The Molelane/Mogoto Rural Growth Point (RGP)/Service area

Rural Development Focus Areas

Magatle Rural Development Focus Area (RDFA).
Rural hinterland villages and farms

Municipality has developed a local Spatial Development Plan (LSDP) for Lebowakgomo District Growth Point and Zebediela area which includes Molelane/Mogoto Local Growth Point

II. LAND USE MANAGEMENT SCHEME

Municipality approved its LUMS in the 2007/8 financial year. This is a tighter and operational document of the strategies as set out by the SDF and with the objectives of dealing with the general conditions of land uses.

In line with prescripts of SPLUMA, a District Municipal Planning Tribunal was established in 2015 to deal with land use and development applications. Council took a resolution to be part of the District Tribunal with other locals within the District of Capricorn. Municipality intends to review the current LUMS so that it aligns with SPLUMA and reviewed SDF.

III. LOCAL ECONOMIC DEVELOPMENT STRATEGY

Lepelle-Nkumpi Municipality Local Economic Development (LED) Strategy, developed first in 2007 and reviewed in 2019 by council, provides the Municipality with guidelines towards the following:

- to create and facilitate economic development,
- to realize the underlying economic development potential and,
- to encourage private sector investment and job creation.

LED STRATEGIES

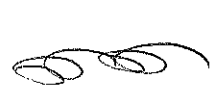

In light of the key sectors identified by local and district strategies, namely Agriculture, Mining, Tourism, and Manufacturing, programmes aimed at creating a critical mass of economic development in the Municipality were identified. The successful implementation of the programmes and projects will ensure more job opportunities are created, skills developed and opportunities created especially for SMME's.

STRATEGIC INTERVENTIONS, PROGRAMMES AND PROJECTS

Strategic Interventions	Programmes	Projects
Create an enabling environment	Infrastructure and zoning	<ul style="list-style-type: none"> • Blue drop status at water treatment works • Land rezoning for investment purposes <ul style="list-style-type: none"> o Tarring of internal roads o Upgrade gravel roads to surfaced roads o Upgrading of access roads o Road signage • Small business skills training incubator - (finance, human resources, marketing etc.) • Entrepreneurship incubators • Entrepreneurship training at schools
	Business skills development	<ul style="list-style-type: none"> • FET College • Agricultural "Hands on" skills development (ploughing, planting, harvesting, irrigation, mechanical skills, animal care, etc.) • Youth in agriculture programme • Technical "Hands on" skills development (mechanics, plumbing, carpentry, gardening, electrical etc.) • Basic hospitality skills training • Repairing of machinery parts and farming equipment • Establishment of the Lepelle-Nkumpi Technical Skills Academy
	Technical skills development	
Agro-processing	Citrus agro-processing	<ul style="list-style-type: none"> • Grootklip irrigation scheme

	(cultivation & production)	<ul style="list-style-type: none"> • Expansion of the Zebediela citrus juice (orange) and packaging plant • Packaging and distribution of processed oranges • Frozen canned juice • Sweet orange oil production • Beverages production • Marmalade production • Baked Products • Production of sauces • Spice mixtures • Construction of cold storage units • Supplying of pesticides, feedlots machinery parts
	Livestock farming	<ul style="list-style-type: none"> • Integrated goat farming • Processing of dairy milk (goat milk) • Expansion of abattoirs • Meat processing plants • Supply of pesticides • Housing expansion for goats (shelter) • Construction of cold storage facilities • Establishment of collection centres (promotion skinning, storage and preservation) • SMMEs butcheries
	Expansion of poultry production	<ul style="list-style-type: none"> • Expansion and the revitalisation of the chicken abattoir • Broiler chicken farming & processing • Chicken pies, burgers, polony and Vienna's • Production of cushions • Deboning of chicken • Production of bioenergy • Supply of fertiliser/manure • Housing of chickens
	Agro-processing capacity development	<ul style="list-style-type: none"> • Revitalisation of the Industrial area in Lebowaqomo • Establishment of a research and development centre
Tourism development	Promotion of arts, crafts and heritage festivals	<ul style="list-style-type: none"> • Protection and promotion of heritage sites • Sorghum beer brewing • Mafefe Camp - African Ivory Route

business environment enablement	informal sector	<ul style="list-style-type: none"> • Upgrading of hawker's stalls • Construction of storage units (hawkers) • Hawkers information centre (registration and licencing) • Amenities at the hawker's stalls (toilets, wash room, etc.)
	SMMME development	<ul style="list-style-type: none"> • Establishment of a green market • Establishment of a logistic hub • Business precinct development (Town planning) • Business incubators for SMMMEs • Street facing shops space • Pedestrian walkways in front of shops • Street parking in front of shops • Transport node development next to business precinct (bus and taxi rank)
Marketing	Develop local marketing promotion on campaigns	<ul style="list-style-type: none"> • "Buy Lepelle Nkumpi" local coupon incentives • "Buy Lepelle Nkumpi" develop an advertising campaign for local products • Lepelle-Nkumpi agriculture marketing

The reviewed LED Strategy is aligned to NDP, NSDP, Limpopo Development Plan, Limpopo Employment, Growth and Development Plan and other local and National development trends and tools.

IV. INVESTMENT AND MARKETING PLAN

Investment and Marketing Plan was developed to take active steps to promote investment opportunities as proposed by the LED strategy.

The Investment Guide and Strategy for LNM is Divided into the Following Segments;

- Business retention and expansion programme
- Business Attraction Programme
- Establishment of a special purpose vehicle
- Guidelines for formation of joint ventures
- Co-operative development guidelines
- SMMME development guidelines
- Implementation plan

Table.75: Proposed investment projects and target markets

PROJECT DEVELOPMENT	SECTOR	TARGET MARKET
1. Goat meat production	Agriculture Manufacturing	Goat farmers, Butcheries, Tanners, Clothing manufacturers, Wholesalers, Cold storage keepers
2. Citrus juice extraction	Agriculture Manufacturing	Canning industries, Juice industry, Local business people
3. Zebediela Farm stay	Tourism	Business people, Tour operators
4. Production of slate slabs	Mining Manufacturing	Tile manufacturers, Mining industry, Construction companies
5. Organic cotton farming	Agriculture	Woolworths Crop Farmers, Irrigation companies, Produce, Retailers, Distribution companies, Packaging companies, Storage companies

Table.76: Government support mechanisms that could aid investment

LEDA	SETA	TIL	SEDA	NAFCOC
<ul style="list-style-type: none"> •Develops & promotes SMMES •Provides & facilitates business & investment opportunities •Initiates strategic investments in viable tourism & property projects •Provides developmental support in all economic sectors •Facilitates rural nodal development •Empowerment of community, small business & BEE stakeholders through public, private & community partnerships 	<ul style="list-style-type: none"> •Facilitates skills development in the education, training and development sector. •Promotes & facilitates the development & improvement of the skills profile of the workforce •Identifies skills shortages & training needs •Improves productivity in the workplace •Promotes self employment •Provides and regulates employment services 	<ul style="list-style-type: none"> •Promotes the Province as the preferred investment and trade location in SA •Markets the competitive advantages of Limpopo Province •Establishes & maintains business in Limpopo 	<ul style="list-style-type: none"> •Provides information to small enterprises and entrepreneurs •Designs & implements a standard national delivery network •Strengthens support for SMMES access to finance •Creates an enabling regulatory environment •Expands market opportunities for small businesses •Localises small business support •Expands education and training for small businesses •Co-funds minimum business infrastructure facilities 	<ul style="list-style-type: none"> •Serves the interest of BBBEE companies & SMMES •Facilitates the growth of the economy by ensuring transformation & empowerment •Represents interest of SMMES & BEEs in policy formulation, Business opportunities & creation of employment opportunities •Facilitates joint ventures and preferential procurement partnerships

The following feasibility studies have been packaged;

- Goat meat production
- Citrus juice extraction
- Zebediela Farm Stay
- Production of slate slabs

The following pre-feasibility studies have also been packaged;

- Organic cotton farming
- White meat cluster
- Aquaculture in Lepelle-Nkumpi
- Mafefe tourism centre

V. TOURISM PLAN

Municipality developed a Tourism Plan in 2019 through a technical assistance with a purpose of finding ways of unlocking and promoting tourism potential of the area.

Tourism Vision

To position Lepelle-Nkumpi as the only gateway to the K2C Biosphere Reserve and to develop tourism as a sustainable competitive economic sector, thereby improving the quality of life for the local residents by means of creating employment through a financially viable municipality."

Tourism Strategic Objectives

- Improve access and connectivity to strategic areas in the local municipality
- Enhance the environment attractiveness of the main tourist development areas
- Enhance institutional structures and quality of skilled manpower
- Increase investment in product development and marketing
- Benchmark with competitors
- Enhance tourist safety and security

Five Catalytic project implementation

- Iron Crown Hiking Adventures
- Eastern Adventure Node
- Bewaarkloof Nature Reserve
- Visitor Information Centre
- Route Development

VII. INTEGRATED ENVIRONMENTAL MANAGEMENT PLAN

The municipality has adopted an IEMP during the 2009/10 financial year. The plan aims to address the following, among others;

- Identify environmental impact, issues, risk and threats.
- Develop measures and strategies to minimize, mitigate and manage these impact, risk and threats.

KEY ENVIRONMENTAL ISSUES

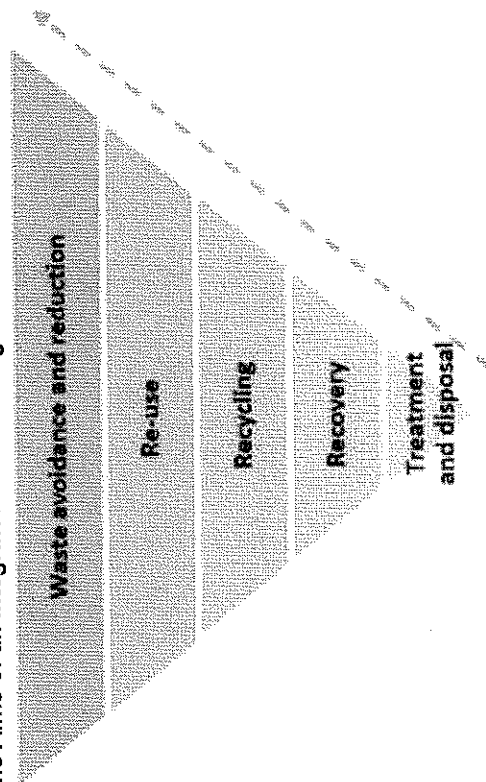

The following key issues that require attention of the municipality and all development activities are identified;

- Agricultural -crop and livestock- farming and wildlife conservation practices.
- Commissioning of new mining activities.
- Overgrazing -that leads to vegetation composition imbalances and soil erosion.
- Deforestation due to chopping of trees for firewood and poor affordability to access electricity may lead to loss of habitat and sensitive species.
- Shortage of water due to lack of major rivers and poor rainfall.
- Poor water quality due to high concentration of total dissolved solid (TDS) and nitrates.
- Urban sprawl, indiscriminate change of land uses and unplanned settlements.
- Uncontrolled veld fires.
- Air quality threatened by closed asbestos mines in the east.
- Poaching that threatens sensitive and endangered species.
- Loss of biodiversity due to heavy degradation by in places of cultivation, mining and urbanization and as a result of invasion of alien vegetation and indigenous microphyllous trees.
- Climate change.

VII. INTEGRATED WASTE MANAGEMENT PLAN

Municipalities are required to compile an IWMP in accordance with Section 11 (4)(a) of the National Environmental Management: Waste Act (NEM:WA). IWMP for Lepelle- Nkumpi Local Municipality (LNM) was developed first in 2005 and reviewed in 2017.

The Aims of an Integrated Waste Management

This IDP strives to expand waste collection to six more villages (Moletane, Mogodi, Makurung, Dithabaneng, Mamaolo and Seleteng) in the MTREF period. District has constructed a licensed landfill site at Lenteng village and is managed by Lepelle-Nkumpi through technical assistance.

Table.77: Interventions

Intervention Area:	Objective	Targets:
Internal Management and Planning	Ensure the waste department is sufficiently staffed and capacitated to fulfil its waste management mandate and that the appropriate planning is executed.	<ul style="list-style-type: none"> • 10% reduction, annually, in the number of vacant posts • Develop a training plan with proposed dates for training for all staff in the revised organogram. • All technical staff to attend a waste training course, as appropriate, and to be revised on at least a 5 year cycle. • Document the roles and responsibilities. • Director is WMO.

Intervention Area	Objective	Targets:
Waste Information Management	Management of waste information in a manner that makes it accessible and useful, and that complies with the Waste Information Regulations.	<ul style="list-style-type: none"> Establish an appropriate WIS by 2017/18. Report quarterly on the SAWIC. Ensure waste information from of Lebowakgomo Landfill is reported as part of WIS. Undertake at least one characterisation exercise of domestic waste stream in the LNM, annually.
Enforcement of by-laws and Monitoring	Raise public awareness of the waste management by-laws, to enforce them appropriately and thereby reduce illegal dumping in the LNM area	<ul style="list-style-type: none"> Revise waste management by-laws to allow for waste enforcement, by end of 2017/18 financial year. Develop an enforcement plan and system for maintaining electronic records of enforcement actions. Appoint one waste ranger. Undertake a dumping hotspot assessment and update this annually. The locations and size of the hotspots are to be mapped to determine clean-up costs and prevention actions. Reduce the number of hotspots by 10% annually over the next 5 years. Undertake an annual review of progress against the IWMP implementation plan and compile a progress report.
Waste Minimisation	Create an enabling environment for recycling and monitor it	<ul style="list-style-type: none"> Undertake a planning exercise to determine where best to establish recycling drop-off centres. Provide at least one recycling drop of facilities in Lebowakgomo by 2018/2019. All future transfer stations to have recycling drop-off facilities.
Waste Collection	To provide a reliable weekly collection service in urban areas and to continuously expanded waste collection services into the peri-urban and rural areas as feasible.	<ul style="list-style-type: none"> Identify all problem areas within its municipal jurisdiction, where waste management services are insufficient, and then document a plan for expanding collection systems (likely to be communal skip) to the rural areas. Develop a vehicle maintenance and replacement roster to ensure waste management vehicles remain operational.
Waste Transfer and Disposal awareness	There is a need to improve waste facilities in the LNM. At present the LNM is transporting waste from across LNM to Lebowakgomo Landfill Site. As a result the transportation costs are high.	<ul style="list-style-type: none"> Complete a transfer station feasibility / masterplan report by end of 2018/19 that will reduce transportation costs. Construct a second transfer station by 2020. Complete transfer station at Mathibela in 2016 (complete). License and rehabilitate the Lebowakgomo A and Lebowakgomo B dumpsites by 2020.
Waste Management Awareness	To ensure a programme of ongoing waste awareness campaigns in LNM area.	<ul style="list-style-type: none"> Establish an annual programme of awareness campaigns at the beginning of each year. Undertake a minimum of 4 awareness interventions per year.

Intervention Area	Objective	Targets:
Finances and Tariffs	To ensure that residents and businesses are charged in a fair manner, according to the service they receive	<ul style="list-style-type: none"> Undertake a full review of tariffs charged and collections services delivered to ensure that businesses are not undercharged. Repeat every 5 years Undertake a full cost accounting exercise for waste management, by 2018 Include the IWMP targets into the municipality's IDP by 2021 to ensure that sufficient budget can be allocated to the waste management services department

VIII. DISASTER MANAGEMENT PLAN

Council developed a Disaster Management Plan in 2012/13 to deal with prevention and mitigation or relief of disaster incidents. Veld fires, floods, deforestation, potential agricultural diseases, drought and epidemics are the highest priority threats of disasters in the area.

Poverty and lack of basic services are recognized as the main contributors to the high vulnerability of people and are higher priorities for the municipality. Appropriate poverty alleviation programmes, health, water, road infrastructure, telecommunication programme are required to reduce the vulnerability status of communities and to help build community resilience.

IX. ROADS AND STORM WATER CONTROL PLAN

The area of Lepelle-Nkumpi has a natural physical landscaping of mountains and slopes. This therefore puts it in a rather more vulnerable condition to floods strikes, especially in the low lying areas.

A roads and storm water control plan was developed by council during 2016/17 financial year and it proposes for prioritisation of the high risk areas in the Western part of the municipality.

X. PERFORMANCE MANAGEMENT SYSTEM

IMPLEMENTING PERFORMANCE MANAGEMENT

Council has approved a performance management system (PMS) that serves as a framework for undertaking its performance management functions.

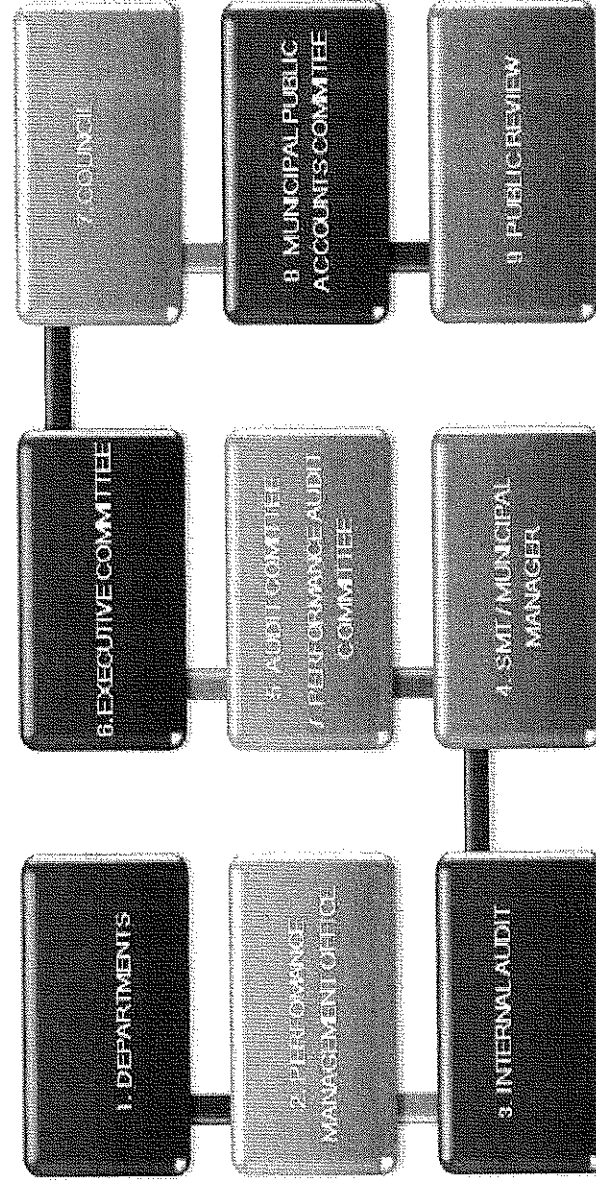

The following are core aspects of implementing PMS in Lepelle-Nkumpi:

- Plan for performance by clarifying objectives and outputs to be achieved;
- Clarify performance expectations by setting standards and targets for each indicator to assess performance;
- Monitor, measure, assess and evaluate/review performance;

CONDUCTING PERFORMANCE REVIEWS

In the Performance Management System Framework reference has been made to the level of accountability and responsibility in the review process so that each senior manager's quarterly performance review is conducted by a supervisor until up to a level where the municipal manager's performance review is done by the council executive committee. A Performance Audit Committee has been appointed and assessment panels established. Also, a budget has been set aside to reward outstanding performance at senior management level.

Figure 5. Performance Management System Framework

XI. RISK MANAGEMENT AND FRAUD PREVENTION

RISK MANAGEMENT

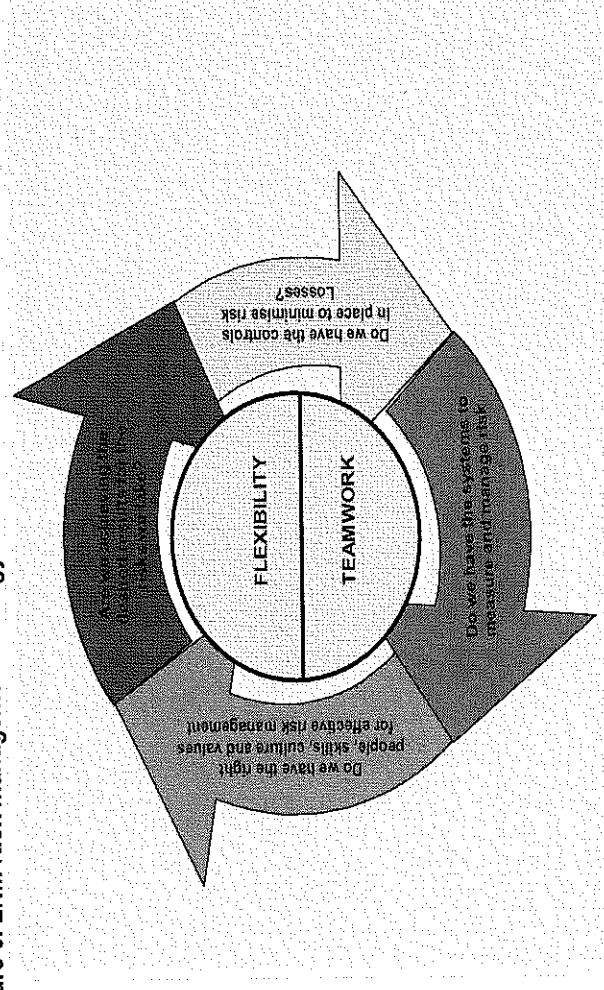

The total process of risk management within the Municipality, which includes the related systems of internal control, is the responsibility of the Municipal Manager as the Accounting Officer. The internal audit function will provide independent assurance of the effectiveness of risk management and internal control processes.

Municipal council has approved a reviewed Risk Management Strategy in June 2012. A Risk Officer is appointed to operationalise the risk management strategy. Council has established a Risk Committee with an independent and external person appointed as its Chairperson.

MUNICIPAL RISKS IDENTIFICATION

The risk management strategy addresses the four service delivery risks depicted by the diagrammatic representation here below:

Figure 6. LNM Risk management Strategy

ANTI-CORRUPTION AND FRAUD PREVENTION PLAN

Council has also approved a reviewed fraud prevention plan in June 2012. It covers issues around fraud risk management; proactive defence of assets; and fraud response plan.

Implementation of the following initiatives will contribute significantly to the reduction of corporate crime:

- Data interrogation
- Fraud awareness training
- Fraud tip-off reporting hot-line
- Forensic controls
- Crime database

District Fraud and Corruption Hotline was relaunched in November 2010 to provide tool to anybody who might have to report fraud and corruption activities taking place in the municipality. The Hotline is managed by Capricorn District Municipality with whom regular campaigns on the subject are conducted on an ongoing basis.

XII. COMMUNICATION STRATEGY

Municipality approved a reviewed communication strategy in 2015/16 financial year. The objectives of the strategy are;

- To create awareness and support the Municipality's mission, vision and programmes.
- To promote the municipality's projects, achievements and future plans
- To project the municipality's positive image and build a good reputation and enhance its corporate image.
- To build good working relations with stakeholders and keep them informed on developments within the municipality, change the negative perceptions people have about the municipality.
- Promote access to information by communities.
- Positively influence media agenda.
- Continuously update customers/ratepayers about our services
- To enhance public participation programmes
- Create a uniform identity for the municipality

Media

While most media use English, Lepelle-Nkumpi is pre-dominantly rural with high level of illiteracy; the predominant spoken language is Sepedi. Most residents listen to Thobela FM, Capricorn FM, Greater Lebowa/gomo FM, Zebediela FM and Jacaranda Rmfm, reading mainly Sowetan, Daily Sun, CapricornVoice, Seipone, Limpopo News, Polokwane Review, and Polokwane Observer.

Some residents are able to access national weekly newspapers like Sunday Sun, City Press, Sunday Times and Sunday World in local shops.

Despite poor signal for radio and television stations, some residents are able to install satellite television. The municipality has been able to establish good relationship with Review, Limpopo News, Capricorn Voice and Polokwane Observer. It is therefore critical to maintain these relations whilst appreciating the media as important partner in development communication

Public Participation

The municipality is also able to communicate and get feedback from the community on issues related to service delivery, successes and challenges through Ward Committees and municipal call centre. The strengthening of ward committees will play a major role in changing the negative perception the community has about the municipality.

Themes and Messages

Themes are basic structures that drive the communications plan and are influenced by the National and Provincial government's plan as in:

- The State of the Nation Address (SONA)
- The State of the Province Address (SOPA)
- State of the Municipal's Address (District and Local)
- The Municipal IDP and Budget

Key Communication Drivers

These are the programmes that the council will undertake to communicate and inform communities:

- IDP and Budget consultations
- Annual Reports
- Municipal Public Participation Programmes
- Projects launches

Messengers

Primary Messengers: Politicians

- Mayor
- Speaker
- Executive Committee Members

Secondary Messengers: Administrators

- Municipal Manager
- Spokesperson (Manager in the office of the Mayor)
- Senior Communication Officer

Internal Communications

- Effective communication with employees leads to greater productivity and improved achievement. Therefore, in order to accomplish this; the municipality has to set up internal lines of communication. The generic service standards give effect to the manner and approach for responding and handling communication internally.
- In essence, the Municipality has got a task to initiate and create open communication channels within the organisation by imparting information and encouraging all employees to become involved in two-way communication. Keeping the employees informed will, promote good employee relations and build goodwill in the face of all employees.

XIII. EMPLOYMENT EQUITY PLAN

The Employment Equity Act requires of every Employer to promote equal opportunities in its workplace by eliminating unfair discrimination from any employment policy or practice. LNM will ensure that the principles of fairness and equity are incorporated into all aspects of employment, including recruitment, training, promotion, retention and accommodation in the workforce

Table.77: Objectives of the Employment Equity Plan

NO	AREAS	OBJECTIVES
1.	Compliance to the Employment Equity Act	LNM recognizes its obligations in terms of the EEA and understands that the primary purpose of the legislation is to advance transformation through the setting of time specific targets for achieving equity in all the levels of management
2.	Participation and Consultation	The process of developing and implementing the EEP shall be transparent and consultative. LNM endeavours to ensure participation of all the relevant stakeholders.
3.	Equality and Equal Opportunities	Management is committed to review all its policies and related procedures to ensure alignment with employment equity policy so as to create a platform from which equal opportunities can be attained.
4.	Diversity in the Workplace	The act of recognizing diversity also allows those employees with these talents to feel needed and have a sense of belonging, which in turn increases their commitment to LNM and allows each of them to contribute in a unique way.
5.	Organizational Culture	The organizational culture shall accordingly, be underscored by respect for individuals irrespective of different backgrounds and traditions, and an appreciation of the negative consequences of stereotyping
6.	Employee Development and Capacity Building	LNM is committed to the creation of an enabling environment which allows individuals to achieve their full potential and thus contribute to excellent performance. Management accordingly commits itself to the development of all employees irrespective of race, gender and disability status.
7.	Succession Planning	LNM recognizes the challenges inherent in recruiting and retaining staff in scarce skills and highly specialized disciplines where there is a small pool of candidates from the designated groups. In this regard succession planning

		and capacity building are crucial to the success of this policy.
8.	Safety, Health and Wellness Policies and Practices	LNM will ensure that the highest standards are always adhered regarding the Safety, Health and wellness of its employees and employees of its Service Providers. An employee wellbeing programme will be developed and implemented across the municipality.

The following people and structures shall implement and monitor the EEP,

- Employment Equity Forum
- Local Labour Forum
- Employment Equity Manager
- Human Resources Manager
- Executive Managers
- Municipal Manager

XIV. DISASTER RECOVERY PLAN

Risk Assessment and Business Impact Analysis was conducted and the report focused on the following areas;

- Disaster Exposure
- Peripheral Security
- Monitoring
- Lighting
- Access Control
- Interior Security
- Emergency Systems
- General Office Areas
- Records retention areas
- Heating and Ventilation
- Air Conditioning
- Emergency generators

Key specific and focus areas that were looked into:

- Server room Fire and water damage exposure
- Electricity in the Server room
- Server room Air conditioning
- Physical security and access controls

- Off-site storage program
- Recoverability of critical functions
- Problem and change management

XV. IT CONTINUITY MANAGEMENT POLICY

- The IT Continuity Management Policy covers all functions contained within the municipality.
- Forms basis of all ICT Continuity Planning activities.
- Its implementation within the LNM should follow the guidelines and processes as outlined in the ITCMP.

PURPOSE:

- Provision of contingency arrangements and services that will address the ICT Recovery demands and
- Provision of an ICT Recovery Infrastructure to be used by the BCP

The IT Continuity and DR Strategy entail Team Structures as follows:-

- **Incident Management Team (IMT):** determine the nature and extent of the disrupt/disaster
- **IT Recovery Team (ITRT):** Takes the overall charge of the process and ensure business continues as normal.
- **Crisis Management Team(CMT):** coordinates and communicates with stakeholders, especially suppliers ,media and customers

The following projects have been proposed for implementation by LNM;

- DR Switching Centre as part of the crucial phase of the DRP which is thus far completed. DR Switching Centre needs to be upgraded though
- Testing of planned failover that has been completed.
- Upgrading of the UPS in the Server room which has been done.
- Appointment of the DRP Team Structures.
- Installation of the EnviroRac for enhancement of Security and monitoring of the servers' environment.

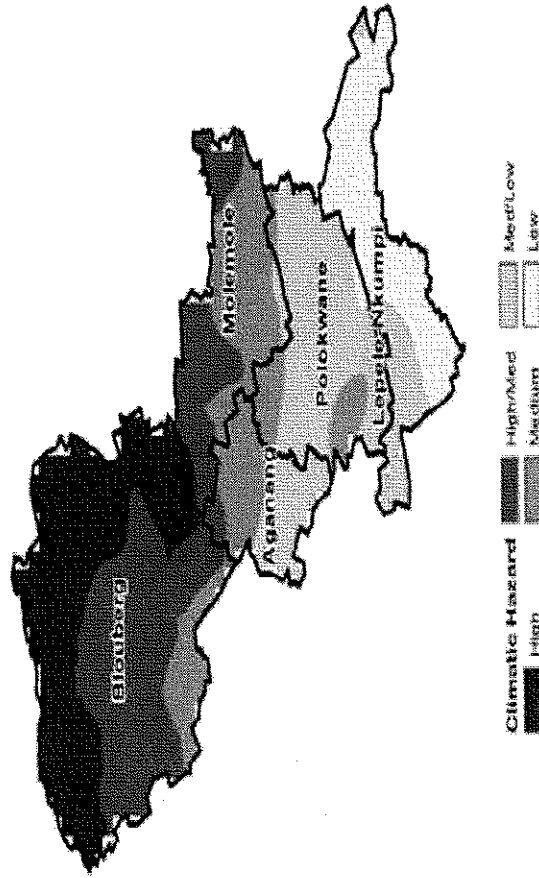

XVI. CLIMATE CHANGE ADAPTATION STRATEGY

The District compiled a Climate Change Adaptation strategy that looks at climate change response, improving the district's social, economic and environmental resilience and climate change response.

The strategy focuses on the following cross-cutting issues in the District and its local municipalities:

- Energy efficiency and demand side management;
- Renewable Energy;
- Infrastructure Projects including transport, buildings, water management, waste water treatment and waste management;

- Economic Development
- Natural Resource Management including Agriculture;
- Disaster Management;
- Water Resource Management.

CLIMATE CHANGE RESPONSE (ADAPTATION AND MITIGATION)

Climate Change Adaptation: (The process of adjustment to actual or expected climate change and its effects, in order to moderate negative impacts or exploit potential opportunities.)

- Building resilience
- Risk assessment
- Integration of climate change into decision making.
- Catchment Management
- Provincial Green Economy Plan

- Building codes
- Agricultural Practices
- Bulk water and irrigation schemes (including use of grey water)

Climate Change Mitigation: (A human intervention to reduce the sources of greenhouse gases.)

- Energy efficiency
- Renewable energy
- Air quality monitoring
- Energy demand management (mostly Eskom)
- Water conservation
- Nature Conservation and Environmental Management
- Use of independent power producers using renewable sources
- Recycling initiatives

How to implement this climate strategy

- Step 1 – Understand your area and Climate Projection Considerations before progressing.
- Step 2 – Identify the Capacity, Vulnerability and Climate Risk of the area and prioritise adaptation needs
- Step 3 – Assess and appreciate the Impacts of climate changes on the different sectors.
- Step 4 – Apply Adaptation Response Options to meet Key Strategic Organisational Objectives
- Step 5 – Ongoing assessment through Monitoring and Evaluation

Table.80: Hazard indices and vulnerability ratings

Lepelle-Nkumpi LM		Relative Risk Priority		Hazard Indices		Vulnerability Rating		
Climate change impacts	Range of time variability			Likelihood	Yearly/seasonal Predictability	Hazard severity	Vulnerabilities: Agricultural	Vulnerabilities: Environmental
Decreased annual rainfall	> 10 years		Moderate risk	Almost certain	Mildly predictable	Medium impact	There is a large irrigation deficit to the south west, however there is minimal crop coverage.	Significant areas to the north-east are classified as critical and protected biodiversity.
Increased rainfall intensity in summer	< 1 year		Major risk	Likely	Highly variable	Significant impact		
							Cumulative Climatic hazards	Climate will change in this LM but the impacts are less than other areas.

Lepelle-Nkumpi LM		Relative Risk Priority	Hazard Indices			Vulnerability Rating			
Climate change impacts	Range of time variability		Likelihood	Yearly/seasonal Predictability	Hazard severity	Population clusters	Vulnerabilities: Agricultural	Vulnerabilities: Environmental	Cumulative Climatic hazards
Decreased number of rainfall days	< 1 year	Minimal Risk	Likely	Highly variable	Minimal Impact	LM Impacts in this area will have a larger disruption.			
Seasonal rainfall shifts	> 5 years	Major risk	Likely	Highly variable	Significant impact	Manageability / Capacity to Cope Indices			
Increased temperatures	> 10 years	Minimal Risk	Almost certain	Forecastable	Medium impact				
Increased extreme temperature days	< 1 year	Minimal Risk	Likely	Highly variable	Minimal Impact	While there is industry that produces emission, this LM does not contribute very significantly. Mitigation potential is medium - low	Currently there is a Dedicated Environmental Officer and an unofficial Climate Change Champion and no LM policy focused on climate change. Good work so far, but more could be done	The population of this LM have a combined low - medium capacity. This is derived from their level of education and personal income	The institutional capacity is medium to high as there are several small economic hubs focused in the more populated areas
Increased heat wave incidence	< 1 year	Moderate risk	Almost certain	Mildly predictable	Medium impact				
Decreased number of cold nights	> 5 years	Insignificant Risk	Almost certain	Forecastable	Minimal Impact

XVIII. BUDGET RELATED POLICIES

The following budget related policies informed the compilation of Lepelle-Nkumpi 2020/21 Budget;

- Tariff Policy
- Cash and Investment
- Budget and Virement
- Assets Policy
- Credit Control and Debt Collection
- Bad debt and write-off
- Indigent Policy
- Cell phone Allowance
- Car and Travel Allowance
- Subsistence and Travel
- Overtime Policy
- Supply Chain Management Policy
- SCM Policy for Infrastructure Procurement and Delivery Management
- Property Rates Policy

B.P

CHAPTER 14. APPROVAL

2020/21 IDP/Budget was approved by council of Lepelle-Nkumpi Local Municipality in its special council meeting that was held on the 25th June 2020 in terms of council resolution number VSC 13/2019-2020/5.1.1

Speaker Ntsoane P.B

Gafane L.A (Mr.)

Acting Municipal Manager
