Figure 1 shows the evolution of the average number of nodes per cluster (N) over time (t) for different values of α . The x-axis represents time t from 0 to 100, and the y-axis represents N from 0 to 10. Four curves are plotted: $\alpha=0.0$ (solid line), $\alpha=0.1$ (dashed line), $\alpha=0.2$ (dotted line), and $\alpha=0.3$ (dash-dot line). All curves start at $N=1$ and increase over time, with higher α values resulting in faster growth and higher final values of N .
