Vision, Mission & Core Values

Vision:

"Be financially viable municipality, geared towards the improvement of quality of life of the people, by providing sustainable services".

Mission:

"To effectively and efficiently provide quality basic services and thus make a significant contribution to social and economic development of the community"

Values:

- Honesty ,
- Transparency ,
- *Ubuntu*,
- Consultation,
- Value for time and money,
- Access to information.
- Access to services.

ACTING MUNICIPAL MANAGER'S FORWARD

The development, implementation and monitoring of a service delivery and budget implementation plan (SDBIP) is one of the requirements in the Municipal Financial Management Act (MFMA).

In terms of Circular 13 of the National Treasury, "the SDBIP gives effect to the integrated Development Plan (IDP) and the budget of the municipality and will be possible if the IDP and the budget are fully aligned with each other, as required by the MFMA".

As the budget gives effect to the strategic priorities of the municipality it is important to supplement the budget and the IDP. The SDBIP serves as the commitment by the municipality, which includes the administration, council and community, whereby the intended objectives and projected achievements are expressed in order to ensure that desired outcomes over the long term are achieved and are implemented by the administration over the next months.

The SDBIP Concept:

National Treasury, in MFMA circular 13, outlined the concept of the SDBIP. It is seen as a contract between administration, council and community expressing the goals and objectives set by the council as quantifiable outcomes that can be implemented by the administration over the next twelve months.

As a vital monitoring tool, the SDBIP should assist the Mayor and the Municipal Manager to be pro-active and take remedial steps in the event of poor performance. The SDBIP requires the inclusion of targets for the activities that will be undertaken, for physical and measurable progress as well as financially. The top level of the SDBIP includes measurable performance objectives in the form of service delivery targets and performance indicators that are provided to the community, that is, what impacts it seeks to achieve.

These are drawn from the IDP programmes, services and activities that are relevant to each specific directorate as well as the statutory plans that the departments are responsible for. The SDBIPs therefore are the key mechanisms for monitoring the different responsibilities and targets that each department must fulfil in meeting service delivery needs provided to the community.

LEGISLATIONS GOVERNING PERFORMANCE MANAGEMENT

The Constitution of the Republic (1996)

Section 152 of the Constitution mandates local government, among others, to:

- Provides democratic and accountable government for local communities
- Encourage the involvement of communities and community organizations in the matters of local government.

The White Paper on Local Government of (1998)

The White Paper on Local Government (1998) puts forward for the new developmental Local Government system and identifies tools for realising a developmental local government through:

- Integrated Development planning and budgeting;
- Performance management; and
- Working together with local citizens and partners.

Municipal Systems Act (No. 32 of 2000)

The Municipal Systems Act no 32 of 2000, Chapter 6 enforces the idea of local government PMS.

Municipal Planning and Performance Management Regulations (2001)

The Municipal Planning and Performance Regulations (2001) set out in detail requirements for municipal PMS. It entails a framework that describes and represent how the municipal cycle and processes of performance planning, monitoring, measurement, review, reporting and improvement will be conducted, organised and managed including the determining of the roles and responsibilities of different role players.

The Municipal Finance Management Act No 32 2003

The Municipal Finance Management Act states requirements for a municipality to include its annual municipal performance report with its financial statement in constituting its annual report. In essence, the Act requires that a municipality must, among other things:

- Audit of performance measurement; and
- Annual performance reports

The Municipal Performance Management Regulations (2006)

The Local Government Municipal Performance Regulations for municipal managers and managers directly accountable to municipal managers sets out how the performance of Section 57 staff will be uniformly directed, monitored and improved. The regulations address both the employment contract and performance agreement of municipal managers and managers directly accountable to municipal managers. It further provides a methodology for the performance management system as well as criteria for performance bonus payments.
